Company Profile: Ethics group of companies is an Indian business group founded in 2009, headquartered in Surat, Gujarat, with its corporate office in Gurugram, Haryana. The group works across the pharmaceutical and healthcare sector and acts as a single-window partner for Indian and international companies. At its core is a unified commerce platform that brings sourcing, supply chain, and distribution together on one system. This helps manufacturers, businesses, and healthcare providers operate with speed, transparency, and scale. From product sourcing and quality checks to warehousing, fulfilment, and last-mile delivery, ethics group supports every step. With a delivery network that reaches more than 19, 000 pincodes across India, ethics group helps global and Indian brands enter New markets, manage procurement, and grow with confidence. Strong compliance, a wide manufacturer network, and technology-driven operations make it a reliable partner in the healthcare ecosystem.

Hall No: Hall-3FF
Stall No: 3FB-13

Company Profile: Vericheq verify. Protect. Trust. Vericheq is a medicine-safety technology company focused on protecting patients from counterfeit and substandard drugs. Its core offering lets patients, pharmacists, and regulators instantly verify the authenticity of a medicine by scanning the product packaging. This simple, on-the-spot check confirms whether a medicine is genuine, helping curb the circulation of fake or unregistered drugs in the supply chain. By putting verification directly in the hands of the end user, vericheq aims to close a critical gap in pharmaceutical safety â€" one that has traditionally relied on manufacturers and regulators alone. The platform supports the company's mission of building a more transparent and trustworthy medicine supply chain, benefiting patients, healthcare providers, and drug regulatory authorities alike.

Company Profile: M/s Pharma Impex Laboratories Pvt. Ltd. Was incorporated on 18/10/1977 in Kolkata as a Private Limited company under the companies act, 1956. The organization has installed modern and sophisticated equipment at the factory for manufacturing and quality control of pharmaceutical formulations viz.: lvp with the latest form fill seal (ffs) technology and WHO-GMP certified. The lvp plant is most modern plant using the latest technology and is a state-of-the-art. It would not be out of place to inform you that the plant is the only one of its type in the entire eastern part of the country. We are manufacturing lvp in the standard 1000ml, 500 ml pack as well as the 100ml and 350ml pack. The installed production capacity initially is one lac bottles per day which can be further increased as and when demanded. Over the years we gave grown and established our reputation with various government institutions by providing most effective service in a targeted vertical market.
