

Ruchi Menthol

Pioneers in **natural menthol**, mint derivatives, & essential oils

Made in India, recognised globally
since 1995

Natural Menthol: Our flagship product

Menthol Crystals are renowned for their purity, refreshing cooling effect, & consistent quality. Recognised as one of the most important flavour & fragrance ingredients, the global demand for menthol is projected to reach 16,000 metric tonnes by 2030, with a steady CAGR of 4.4%.

Apart from its conventional role in Peppermint, Spearmint & mint flavours, menthol also finds unique applications in trace amounts. It is used in butter, caramel, and fruit flavour complexes, and is often blended with Anethole or Anise to enhance Licorice flavourings.

Widely used in pharmaceuticals, oral care, confectionery, personal care, & flavour industries, our pharma-grade menthol adheres to stringent international standards, making Ruchi Menthol a trusted partner for leading brands worldwide.

Essential Oils - Nature's Purest Extract

At Ruchi Menthol, our essential oils are crafted through advanced distillation and purification technologies, ensuring high chemical stability, defined active constituents, and reproducible quality. Each oil is sourced responsibly, then subjected to steam distillation/fractionation, followed by stringent analytical validation to ensure compliance and other global pharmacopeial standards.

With over three decades of expertise, Ruchi Menthol ensures that every drop of essential oil delivers technical precision, therapeutic benefits, and consistent global quality.

We offer a comprehensive portfolio of Mentha Oil, Peppermint Oil, Spearmint Oil, Dementholised Oil, Thymol, Eucalyptol and more, along with customised formulations designed to meet diverse industrial needs.

These products are the backbone of flavour, fragrance, pharmaceutical, and personal care industries worldwide and are valued for their refreshing aroma, cooling properties, & therapeutic & functional benefits in formulations.

About us

Ruchi Menthol is a global pioneer carrying a legacy of excellence for over 30 years. We specialise in premium-quality menthol crystals, mint oils, and natural aromatic ingredients trusted across pharmaceuticals, cosmetics, flavours, fragrances, and ayurveda.

With world-class manufacturing, state of the art facilities, strict quality standards, and efficient logistics, we ensure reliability at every step. Our customer-centric approach, competitive edge, and innovation-driven practices have made us a preferred partner worldwide.

At Ruchi Menthol, we are committed to bringing the purity and potential of Indian natural products to the global stage.

GLOBAL ACCREDITATIONS YOU CAN TRUST

Ruchi Menthol is proudly GMP, FSSAI, FDA, and ISO certified — a testament to our commitment to quality, safety, and compliance.

Consistency. Purity. Trust.
