## OVERVIEW —

Florenzia Healthcare is a leading pharmaceutical manufacturer dedicated to advancing healthcare through innovative research, development, and manufacturing of high-quality pharmaceutical products. With a commitment to excellence and a focus on improving patient outcomes, Florenzia Healthcare strives to be a trusted partner for healthcare providers worldwide.

## FLORENCIA STORY —

Since our inception in 2011, we have been at the forefront of the pharmaceutical industry, delivering life-saving medications to millions worldwide. Our company has built a reputation for innovation, quality, and reliability in the pharmaceutical industry. Over the years, we have expanded our portfolio, invested in state-of-the-art facilities, and forged strategic partnerships to accelerate our growth and enhance our capabilities. With a rich history of innovation, Florenzia Healthcare leverages cutting-edge technology and a dedicated team of experts to develop, manufacture, and market a broad range of pharmaceutical products.

## OUR MENTORS —

### RESHMA MISHRA – [FOUNDER]

Mrs. Reshma Mishra is the visionary leader and founder of Florenzia Healthcare. With over 16+ years of experience in the pharmaceutical industry, she has a proven track record of driving innovation and growth. Mrs. Reshma Mishra holds a Bachelor Degree in Pharmaceutical Sciences from Esteemed Indian University and has led several successful Drug Regulatory Affairs & Business Development projects. Her strategic leadership has been instrumental in Florenzia's expansion into global markets. Under her guidance, the company has launched multiple ground breaking products and continues to advance its research and development capabilities.

### SANDEEP KUMAR – [CEO] B.Pharm, MBA

Sandeep Kumar is a seasoned marketing professional with over 15+ years of experience in the pharmaceutical industry. As the Director of International Business Development & Marketing at Florenzia, he leads the development and execution of strategic marketing initiatives that drive brand awareness, customer engagement, and sales growth. He leads a dynamic team responsible for developing and executing innovative marketing strategies that drive brand growth and market share. Sandeep is known for his innovative approach to marketing, his deep understanding of the pharmaceutical landscape, and his ability to translate complex medical and scientific information into compelling marketing messages.

## VISION —

“To revolutionize global healthcare by leveraging cutting-edge pharmaceutical innovations & technology to discover, develop, and deliver superior & innovative pharmaceutical products, enhancing the quality of life for patients worldwide.”

We aim to be a world leader in pharmaceutical manufacturing, recognized for our unwavering commitment to quality, safety, and patient well-being

## MISSION —

“To pioneer innovative pharmaceutical solutions through cutting-edge technology, enhancing global health and well-being. We are committed to delivering high-quality, safe, and effective medications, leveraging advanced technologies to drive efficiency, sustainability, and accessibility in healthcare worldwide. Our mission is to continuously push the boundaries of pharmaceutical innovation, improving patient outcomes and enriching lives. Guided by our core values of integrity, excellence, and collaboration, we aim to be a trusted partner in health, committed to enhancing well-being and driving medical progress for a healthier future.”

## OVERSTRENGTH —

“Our strength lies in our unwavering commitment to innovation, quality, and patient-centricity. With state-of-the-art facilities, cutting-edge research, and a dedicated team of experts, we ensure the safety, efficacy, and reliability of every product we manufacture. Our focus on innovation, quality control, and customer satisfaction sets us apart in the industry, driving us to continually raise the standards of pharmaceutical manufacturing and positively impact global health.”

### OUR KEY STRENGTHS ARE AS FOLLOWS

- **State-of-the-Art Manufacturing Facilities:** Our manufacturing facilities are equipped with the latest technology and adhere to the highest industry standards. This ensures the production of safe, effective, and reliable pharmaceutical products. We maintain stringent quality control processes to meet and exceed regulatory requirements globally.
- **Research and Development:** We invest heavily in research and development to bring innovative and effective treatments to market. Our team of scientists and researchers work tirelessly to discover new therapeutic solutions and improve existing medications.
- **Quality Assurance:** Quality is at the heart of everything we do. Our comprehensive quality management system ensures that every product we manufacture meets the highest standards of purity, efficacy, and safety.

➤ **Regulatory Compliance:** We have a proven track record of compliance with international regulatory standards. Our regulatory affairs team works diligently to ensure that our products are approved and available in multiple markets worldwide, providing patients with access to essential medications.

➤ **Customer Focus:** Understanding the needs of our customers is fundamental to our business. We prioritize customer satisfaction through responsive service, tailored solutions, and continuous engagement to ensure we meet their evolving needs.

➤ **Global Reach:** With a presence in over 25+ countries, our global distribution network allows us to efficiently deliver our products to markets worldwide. Our global presence is a testament to our reliability and trustworthiness as a pharmaceutical manufacturer.

➤ **Innovative Product Portfolio:** Our diverse product portfolio includes a wide range of pharmaceuticals, from generic medications to specialized treatments for chronic and acute conditions. We continuously expand our product line to address the evolving healthcare needs of patients worldwide.

## MANUFACTURING FACILITIES

Our Best in class state-of-the-art manufacturing facilities, located in Baddi (Himachal Pradesh, India), stands as a testament to our commitment to excellence and innovation in the pharmaceutical industry.

Our facilities are WHO-cGMP Certified & USFDA and UKMHRA compliant. We are endlessly working to exceed the highest industry standards, ensuring the production of safe, effective, and high-quality pharmaceutical products.

Our state-of-the-art manufacturing facilities are a cornerstone of our pharmaceutical operations, dedicated to producing high-quality medications that meet stringent global standards.

Our manufacturing facilities are equipped with cutting-edge technology and modern infrastructure. This allows us to produce a wide range of pharmaceutical products.

## MANUFACTURING FACILITIES — FACILITY-1

### Oncology Dedicated Facility

#### Oncology Section

Tablets| Capsules| Liquid Injections| Lyophilized Injections|  
Special Dosage Forms

## FACILITY-2

Cephalosporins, Beta lactam and General Dedicated Facility

### **β-lactam Section**

Tablets | Capsules | Dry Syrup | Injections

### **Cephalosporins**

Tablets | Capsules | Dry Syrup | Injections

### **General**

Tablets | Hard Gel Capsules | Soft Gel Capsules | Ointments

## FACILITY-3

Nutraceuticals Dedicated Facility

### **Nutra Section**

Tablets | Hard Gel Capsules | Soft Gel Capsules | Powder

## QUALITY ASSURANCE —

### Commitment to Excellence

At Florencia Healthcare, quality is at the heart of everything we do. Our commitment to excellence ensures that every product we manufacture meets the highest standards of quality, safety, and efficacy. We adhere to stringent regulatory requirements and continuously strive to exceed industry benchmarks.

#### ➤ Key Components of Our Quality Assurance Program:

#### ➤ Good Manufacturing Practices (GMP)

We follow Good Manufacturing Practices (GMP) to guarantee that our products are consistently produced and controlled according to quality standards.

#### ➤ Quality Control (QC) Laboratories

Our quality control laboratories are equipped with the latest analytical instruments and staffed by experienced professionals. We conduct rigorous testing at every stage of the production process to ensure the purity, potency, and safety of our products. Our testing protocols include:

- Raw material verification
- In-process control
- Finished product testing
- Stability studies

## INNOVATION AND STRATEGY (R&D) —

At Florencia Healthcare, our Research and Development (R&D) division is the heart of our innovation and excellence. We are dedicated to advancing pharmaceutical science and developing cutting-edge solutions that improve health outcomes worldwide.

Our R&D team comprises world-renowned scientists, researchers, and healthcare professionals dedicated to advancing medical science. Their expertise and passion drive our mission to bring innovative therapies to patients worldwide.

Our R&D strategy focuses on three core pillars: Innovation, Collaboration, and Patient Centricity.

### 1. INNOVATION

Utilizing state-of-the-art manufacturing technologies to ensure high-quality production and scalability of our pharmaceutical products. We focus on personalized medicine, tailoring treatments based on genetic profiles to enhance efficacy and minimize side effects.

### 2. COLLABORATION

- **Academic Partnerships:** Collaborating with leading academic institutions to drive innovation and access cutting-edge research.
- **Industry Alliances:** Forming strategic alliances with biotech firms and pharmaceutical companies to expand our research capabilities and market reach.

### 3. PATIENT-CENTRIC APPROACH

Conducting rigorous clinical trials to ensure the safety and efficacy of our products. Committing to the highest standards of regulatory compliance to ensure that our products meet stringent safety and quality criteria. Involving patients in the R&D process to better understand their needs and improve therapeutic outcomes.
