

IndiGlobal
INFINITE POSSIBILITIES

**India's Premier Clinical Research
& Testing Organization**

Clinical

- BA/BE, all designs
- Healthy subjects or patients
- Claim studies
- Glycaemic Index studies

Bioanalytical

- Method development
- Method Validation
- Subject sample analysis
- Method transfer
- Complex methods

Bio-statistics & Data Management

- Pharmacokinetic Analysis
- Statistical Analysis
- eCTD
- Data management

Quality Assurance

- System Audit
- Study Audit
- Regulatory Audit
- Quality Control

CAPABILITIES & CAPACITIES

Clinical

- 52 beds
- 2 bed fully equipped ICU
- Large volunteer pool (male & female)
- MedDra coding
- Best in class facility
- Bed side emergency system
- Pharmacy
- Expertise in designing complex trials
- Regulatory compliance

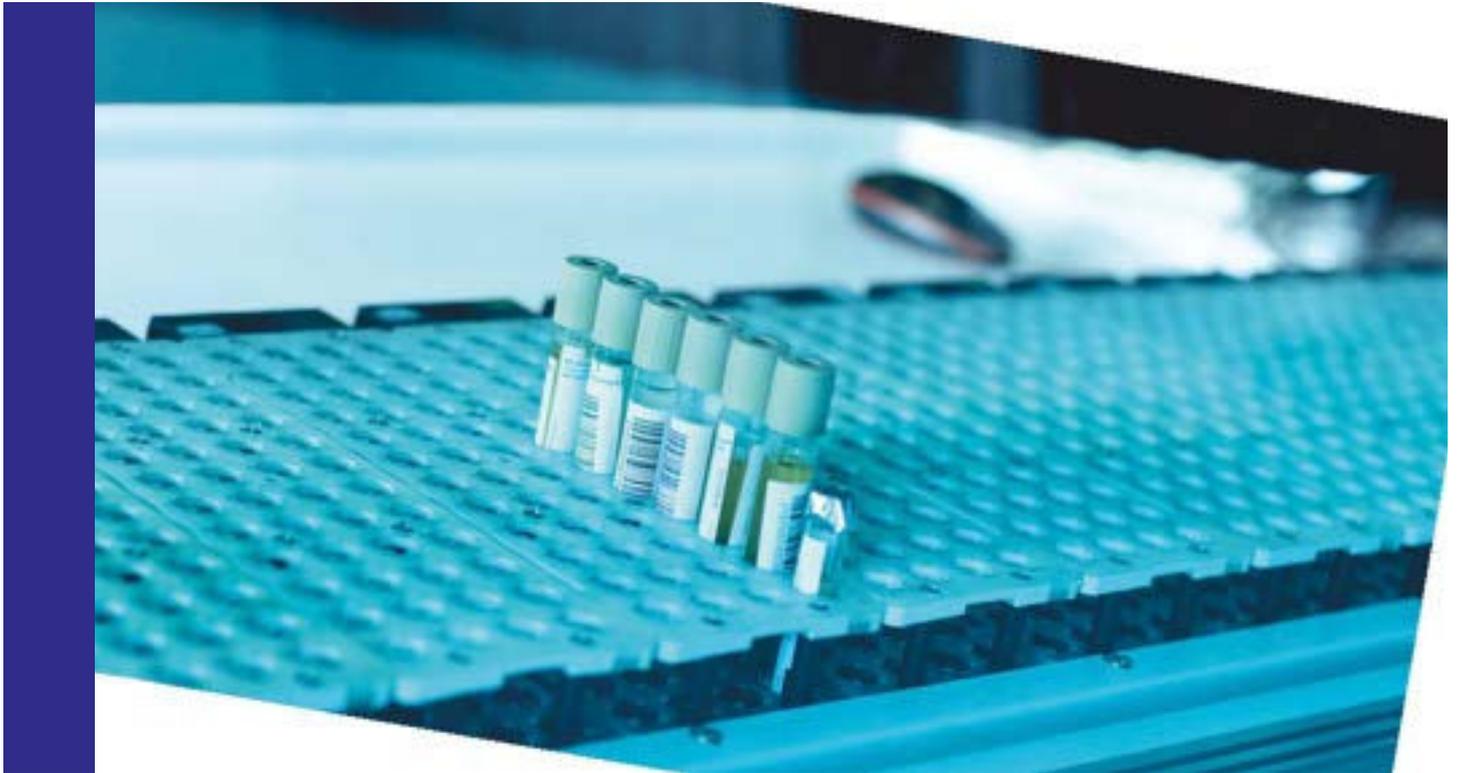

Bioanalytical

- Capacity to analyze up to 12000 samples / month
- LC-MS/MS
- - 20°C and -70°C storage
- Expertise in developing complex methods, derivatization methods, chiral methods, simultaneous methods
- Scientist with 2 decades of experience

Bio-statistics & Data Management

- SAS and WinNonlin
- eCTD
- Secure storage
- Multiple Backups

THERAPEUTIC SEGMENTS

Haematology

Serology

Biochemistry

Endocrinology

Immunoassays

Microbiology (Urine analysis)

- State of the art laboratory
- Follows NABL standards (*Accreditation to be obtained*)

- PAN India services

About IndiGlobal Labs

- IndiGlobal Labs is a full-service Contract Research and Testing Organization (CRTO), primarily catering Clinical Research and Diagnostics Testing services
- IndiGlobal Labs is located in Hyderabad, Telangana, India. The company is headed by technocrats & subject matter experts having more than 2 decades of experience in the relevant field
