P.O Ambervet, Tal: Mulshi, Pirangut, Dist: Pune,
Maharashtra, Pin: 412115, India.

About Us

Founded in 1916 under the patronship of His Highness Maharaja Sayajirao Gaekwad III of Baroda, T.Walkers Pharmaceuticals was established by two visionary brothers: Dr. Gajanan (Bapusaheb) Talwalkar and Shankar (Annasaheb) Talwalkar.

What began over a century ago as a pioneering medical endeavor has grown into a prestigious 5th-generation family business driven by uncompromising standards of healthcare, science, and care.

Our Pioneering Heritage

"Built on innovation, rooted in compassionate care."

Revolutionary Anemia & TB Treatments : Dr. Gajanan gained wide recognition by developing specialized homemade liver extracts to combat severe anemia, later establishing himself as a renowned specialist in Tuberculosis treatment.

First in India : To support his brother's clinical innovations, Shankar Talwalkar founded T.Walkers Pharmaceuticals, becoming the first company in India to manufacture and sell distilled water ampoules.

T.Walkers Today

Combining over 100 years of clinical legacy with state-of-the-art sterile manufacturing, we specialize in high-quality injectable manufacturing and marketing.

WHO GMP Certified Facility : Located in Pune, Maharashtra, our advanced manufacturing plant operates under stringent global safety and purity standards.

5th Generation Leadership : Guided by a tradition of trust, precision, and continuous modern innovation.

Specialized Expertise : High-integrity sterile liquid injectables and critical care solutions.

Our Vision

From our foundation as a time - tested healthcare leader in India, our mission today is to extend our reach globally delivering world-class, affordable, and life saving injectable pharmaceuticals to partners and patients worldwide.
