IV FLUID PACKING LINE WITH AUTOMATIC AI REJECTION SYSTEM

Leak Check Machine

Visual Inspection Conveyor

Sticker Labeling Machine

Servo Based Horizontal flow wrap machine
(with Auto feeder / manual feeder)

Box Tape Sealing Machine

End Packing Conveyor

AUTOMATIC CAPSULES/PILLS/TABLETS COUNTING AND PACKAGING LINE

- **Automatic bottle unscrambler / Turn table**
- **Automatic desiccant inserting machine**
- **Automatic Capsule and Tablet counting machine**
- **Linear bottle capping machine with cap elevator**
- **Combo metal & check weigher system with auto rejection**
- **Induction sealer for aluminum foil**
- **Round bottle labeling machine**
- **Turn table for end product**
- **Capacity: 30/60 Bottles Per Min.**

NUTRACEUTICAL / CAFFEINE/ NICOTINE POUCHES PACKAGING LINE

Single Machine Line

Two Machine Line

Three Machine Line

Four Machine Line

COMPONENTS

- **Can Sorting and Supplying Unit**
Function to provide empty cans to filling machine through track system.
- **Cap Sorting and Supplying Unit**
Function to provide empty caps to capping machine through track system
- **Cap Closing Unit**
Function to put cap on the filled cans.
- **Tracks of Stainless Steel 304 Grade**
Function to transport cans and caps to respective machinery
- **Conveyor System to Transport Filled Cans.**
Function to transport filled cans to cap closing unit
- **Servo Filling Indexing Table**
Function to hold and move empty cans-helps in filling pouches in the cans.
- **Centralized Panel**
All controls through single hmi (touch screen) and power supply to complete plant from single point.
- **Metal Detector With Check Weigher**
To ensure that there is no metal component in the can and weight of the can lies in between the specified limit
- **Labeling Machine**
To apply self-adhesive labels on the snus can
- **Web-Sealer With Shrink Tunnel**
Staking and wrapping of plastic film on the filled cans

AUTOMATIC BOTTLE/JAR FILLING LINE FOR GRANULES AND POWDER

- **Automatic bottle unscrambler / Turn table**
- **Automatic Filling machine (Servo auger filler for powder/Multihead for granules)**
- **Linear Bottle Capping Machine with cap elevator**
- **Combo metal & check weigher system with auto rejection**
- **Induction Sealer for aluminum foil**
- **Round Bottle Labeling Machine**
- **Turn Table for end Product**
- **Capacity: 30/60 Bottles Per Min.**

LABELING MACHINE

To Apply Self-adhesive Labels

Three Axis Servo Based

Four Axis Servo Based

Maximum Speed

Up To 200 Per Min.

Technical Details

Servo Based Machine

Labels on:

Top, Bottom, Front, Back
& Wrap Around

Made of Stainless Steel

Food Grade Belt

Accuracy of Label $\pm 1\%$

SERVO BASED VFFS FOR POWDER

Filling Range: Upto 10 K.g

Speed: Upto 100 Per min.

All contact part of food grade stainless steel servo/Mechanical/ Pneumatic based model low maintain machine

SERVO BASED HORIZONTAL FLOW WRAP MACHINE (WITH AUTO FEEDER / MANUAL FEEDER)

I V Fluid Bottle, Ampules, Detergent Bar, Chocolate, Biscuit, Etc.

Sealing type: Center seal

Speed: Up to 200 Per min.

PICK FILL SEAL MACHINE FOR POWDER AND GRANULES (FOR PRE-MADE/ ZIPPER POUCHES)

Capacity: up to 1 kg

Speed: 25-35 pouch per minutes
