- Syrup & Suspension
- Leaflet & Labels
- Catch Covers
- Shrink Sleeves
- Ropp Cap
- PVC
- Measuring Cups
- Aluminium Foils
- Alu-alu Foil
- Strip Foil
- Blister Foil
- 3 & 4 Ply Foil

VISION

“To lead the way in packaging through innovative technologies and sustainable practices, ensuring excellence and value for our customers and the planet.”

MISSION

“To support our clients’ success by providing competitively priced, top-quality packaging solutions that adhere to stringent industry standards, while upholding the highest levels of integrity, fostering innovation, and promoting environmental sustainability.”

Carton / Skillet

We manufacture plain & printed, customized cartons with latest features. Our cartons match as per customized requirement. Carton packaging (**PHARMA**) leaves deep impression in the consumers mind. Which increases aesthetics value and attract customers attentions.

We Supply cartons with following features.

- Braille embossing which helps the blind to read
- Water, UV, drip off, Stamp Foil, Lamination. In Addition to matt or gloss effect & Met pet with holographic.
- We design customised Outer & Inner Skillets Carton & Suspensions, As per clients & doctor's perspective.

Production Capacity (In house)

We can produced 2 million cartons per day, having the latest heidelberg speed master (German) & Bobst novacut (Switzerland) machine with out most quality & efficient productivity at all times.

Leaflets / Labels / Catch Covers

Leaflet

Leaflets are typically used as instructions for pharmaceuticals that are packed in small boxes. We fold Inserts around your product and slide it snugly inside the product packaging. Our stunning full cover packed quality printed leaflets are just amazing our leaflets are **ISO certified**. Environment friendly conforming to international standards. We can print on 30 GSM upto 250 GSM. We have fully automatic folding machines and we can print both sides at once on our perfect machine. We can produce 1 millions leaflets per day.

Label

Pharmaceutical label products require a lot of care & control in manufacturing. We at **SSPL & SSGI** value our stake and confidence with our customers in producing pharmaceutical labels globally. We ensure to manufacture the best products maintaining pharma standards. With our vast experience we realize pharma labels differ from regular labels in quality. Ensure gumming for the label should be adequate in any given climatic conditions. We use Standard (FDA) inks maintaining a clean & hygienic environment at our plants as per international standards with periodic audits by our customers & Surveillance audits as per our accreditations.

Catch Cover

We have a wide range of catch cover designs tailor made for our clients. Which is done automatized & can produce **2 Lac Pcs per day**. with the support of expert creative designers in house. Who can make unique catch covers designs at affordable prices. We keep on adding latest advanced technology machines for higher production & best quality products & we pass on all cost effective benefits to our clients.

Variety of Aluminum Foils

Foil : (0.20, 0.25, 0.30 & 0.35 Micron)

We manufacture plain & printed Aluminium foil of various thickness, customized sizes up to 6 colors. It keeps medicines free from gases, moisture, vapor, odor & dust. The ink used for foil is (FDA- Food and Drug Administration). It builds trust & reliability among our clients.

Strip foil

Plain or printed laminated aluminum foil for strip pack - these soft aluminum foils are suitable for strip packaging of pharmaceutical products such as tablets, capsules, etc. They are manufactured in different gauges for pharmaceutical applications. The foils have laminated on one side & other side is printed. Aluminum strip foils can be made available in various sizes and specifications as per our customer's requirement.

Blister foils

Plain or printed aluminum foils for blister packs are used mostly in the pharmaceutical industry to package tablets and capsules in a manner to protect these from ambient conditions. These are hard aluminum foils where one side is coated with heat seal lacquer and the other side is unprinted or printed to facilitate pharmaceutical blister packaging.

Alu-alu foil

Plain and printed cold forming alu-alu foil / laminate. The foils are suitable for high speed packing applications for pharma drugs and provide very strong barrier to uv rays, moisture & gases. These foils are especially suitable for the drugs that are easily affected by humidity as each medicine blister unit provides adequate protection which remains intact even when other units in the pack are opened and consumed. It can be shaped in various appearances by changing the mould.

3 & 4 Ply Foil

Plain & Printed 4 ply Aluminium foil whose properties are defined as 41 gsm glassine paper + 17 gsm poly + 9 or 12 micron aluminium foil. Which is used for pouch jobs for filling dry powder, granules or liquid products.

Ropp Cap / PVC

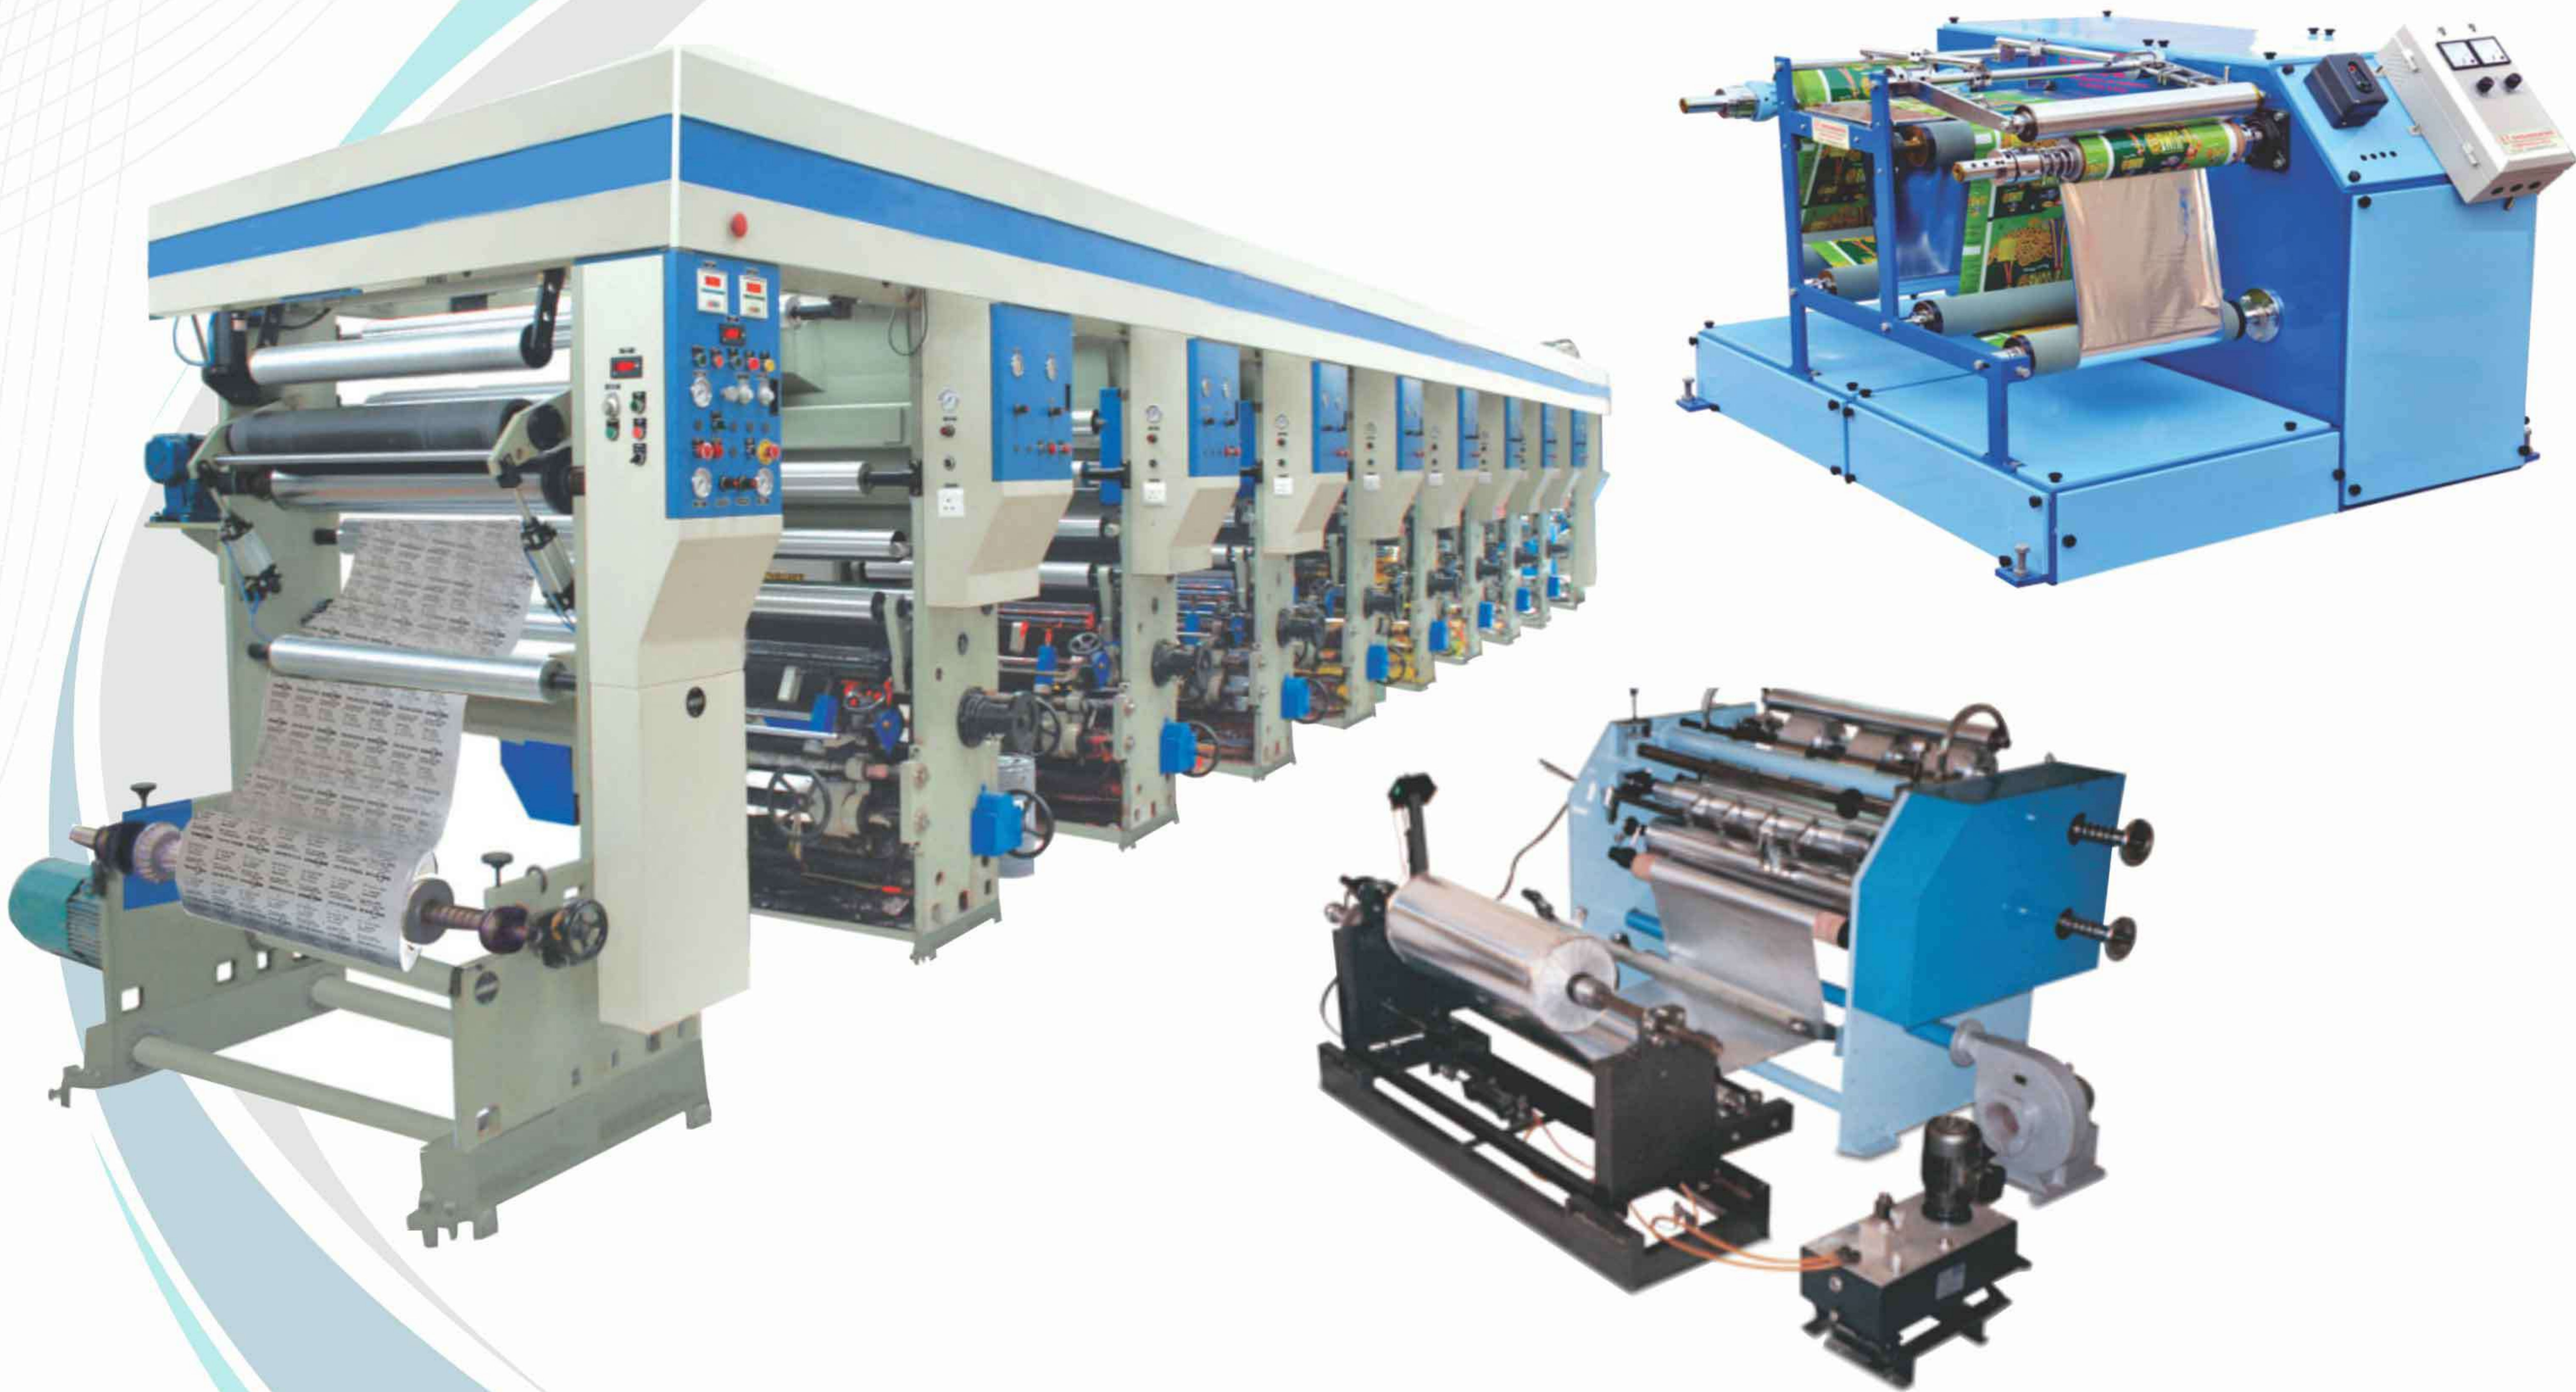

Ropp Cap

We supply all types of caps for the Pharma & others sectors . Our capacity to produced is **1 million quality Caps per day**. Following the trends in the packaging industry, Cap & Seal has expanded its product range to cover Plastic closures. The product range currently contains closures with a diameter from 8 mm to 38 mm and a height from 5 mm to 60 mm.

PVC

Our product covers all requirements related to bottles that are used for syrup & Liquids. With the accurate measuring units. our choice of glass types we offer optimum packaging conditions even for your most sensitive medicines. With the goal of countering the growing menace of spurious drugs, **SSPL & SSGI** launching a new range of anti-counterfeit products which helps our clients maintain trust in the market.
