

*“ Bringing the power of
Biologics to all ”*

Brief Company Overview

Regenix Biosciences is a pioneering biopharmaceutical company headquartered in Chennai, India, specializing in the development, manufacturing, and delivery of high-quality biosimilars. With a steadfast commitment to enhancing global health, we offer a comprehensive range of affordable and accessible healthcare solutions. Our state-of-the-art facilities ensure rigorous quality standards, enabling us to produce vital therapeutics such as Enoxaparin, various formulations of Human Insulin, and other biosimilar products. Our strategic focus on innovation, quality, and regulatory compliance positions us as a trusted partner in the biosimilars industry.

ACCREDITATION

PRODUCT PORTFOLIO

Product	Strength	Uses	Packing
Insulin Regular	100 IU / ML	Short-acting insulin for diabetes management	
Insulin NPH	100 IU / ML	Intermediate-acting insulin for diabetes management	
Premix 30/70	100 IU / ML	Mixed insulin for diabetes management	
Insulin Glargine	100 IU / ML	Long-Acting insulin for diabetes management
