MSH CATH[®]

IV Cannula / Catheter (Cathéter intraveineux/ Cánula intravenosa/ Внутривенная канюля)

MSH2511

I.V. Cannula with
Injection port & wings

MSH2611

I.V. Cannula with wings
& without injection port

MSH3011

I.V. Cannula without
wings & injection port

Also Available options:

- I.V. Cannula with wings and without injection port
- I.V. Cannula without port and without wings
- I.V. Cannula with Safety Features

Packing :

- Inner Box: 50/ 100 pcs
- Master Carton of 1000/ 2000 pcs
- Master Carton size: 695 x 310 x 180 mm (1000 pcs)
- Master Carton size: 695 x 310 x 360 mm (2000 pcs)

General Specifications :

- Japanese Siliconized stainless steel equipped **needle** with sharp triple facet bevel
- Radiopaque **Catheter** of biocompatible material PTFE/ FEP/ PUR
- Completely transparent flashback **Chamber**
- Flexible **Wings**
- **Thread Stopper/ Luer Lock** specially designed as per International standard
- **Medical Grade Paper** for Primary Packing complying with ISO 868 standard
- **Color coded body/ port cap** as per ISO Standard
- **Sterile - Single Use - Non Pyrogenic**

MSH SET[®]

IV Infusion Set (Tubulure de perfusion intraveineuse / Equipo de infusión intravenosa / Система для внутривенных инфузий)

Features:

- I.V. infusion set without airvented spike.
- Approximately 20 drops/ ml.
- Single use, sterile and nonpyrogenic.
- Available with latex tube/ latex bulb.
- Available with latex tube/ latex bulb + Butterfly wings
- Transparent and flexible dry chamber for easy fluid adjustment and drop count 15 micron fluid filter in drip chamber.
- Soft and kink resistant PVC tubing ensures accurate uniform flow rate without restriction.
- Strong self-sealing later free bulb.
- Filing roller clamp enables easy, safe control and adjustment of fluid rates.
- Tube length: 150 cm, 180 cm, as per demand.
- Tube dia - Int. » 3.0mm & Ext. » 4.1mm
- With / Without Nidle.
- With Luer Slip / Luer Lock

I.V. Set Micro	Non-Vented	MSH3542

Packing :

- Inner Box: 25 pcs.
- Master Carton of 600 pcs.
- Master Carton size: 520 x 470 x 340mm

MSH SET®

Blood Transfusion Set

(Tubulure pour transfusion sanguine / Equipo de transfusión sanguínea / Система для переливания крови)

Blood Donor Set with Regulator:

- Super Smooth kink resistant tube.
- Very efficient roller controller for accurate adjustment.
- Extra sharp needle for smooth and effortless vein puncture.
- Sterile / Disposable / Individual Packed.

Common Features:

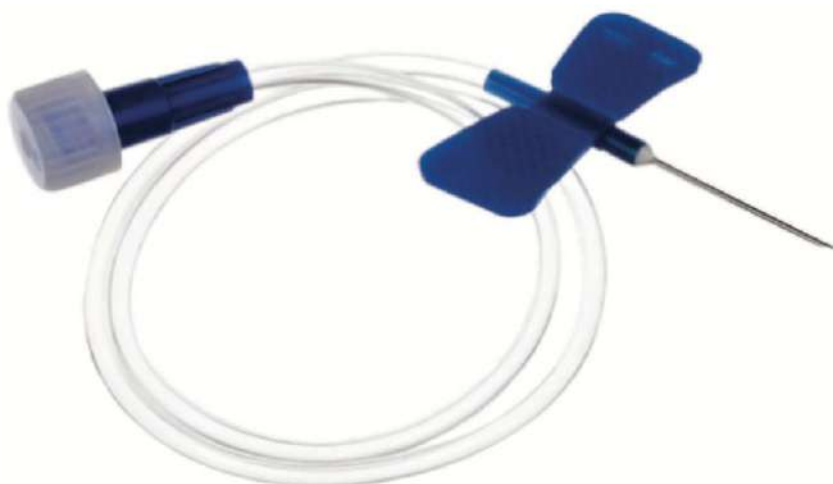

- Clear, Transparent & flexible double drip chamber.
- Super Smooth kink resistant tube.
- Very efficient roller controller for accurate flow rate.
- Self sealing Latex / Latex Free bulb/Tube for easy flushing.

MSH32

MSH SET®

Scalp Vein Set

(Dispositif de perfusion pour veines du cuir chevelu/ Equipo de venopunción para cuero cabelludo / Игла-бабочка (для пункции вен головы))

Features:

- Designed to provide rapid venous access for patient comfort during infusion
- Siliconized and thin walled high quality needle for atraumatic insertion
- Butterfly wings facilitate for better and easy fixation
- Super smooth kink resistant tube
- Color coded butterfly wings by size for easy identification
- Sterile / Disposable / Individual Blister Packed
- E.T.O Sterile & Pyrogen free

Sizes: 18G, 20G, 21G, 22G, 23G, 24G, 25G, 26G, 27G

MSH SET[®]

Burette Type Infusion Set (Set de perfusion à burette / Equipo de infusión tipo bureta / Инфузионная система с бюреткой)

Features :

- **Strong & sharp spike** for easy insertion in I.V. Container
- **C- Clamp** for closing the fluid flow
- **Air Inlet with bacteria barrier**
- **Injection Port** for extra medication on top of burette
- **Flexible graduated burette with marking** at 1 ml stage and 10 ml overflow limit
- **Shut off floater** to prevent air embolism and indicate fluid level
- **Round collapsible drop chamber with micro drip** for fluid level adjustment and drop count
- **Disc type fluid filter**
- **Kink resistant tubing** with efficient roller controller
- **Thick self sealing latex bulb** for extra medication and flushing

Size: 110 ml & 150 ml

MSH WAY[®]

3 Way Stopcock (Robinet à trois voies / Llave de paso de tres vías / Трехходовой запорный кран)

Normal | **MSH2811**
With Extension Tube | **MSH2911**

Features:-

- 360° tap rotation.
- Red and blue pegs/stubs for arterial.
- and venous line identification.
- Pressure tested to 5 bars.
- Minimum priming volume & low dead space.
- Polycarbonate material.
- High Quality Kink Resistant tubing.

Extension Tubing Length: (in cm)

10, 15, 25, 50, 100, 150, 200

MSH46

MSH JECT[®] Insulin Syringe

Features:-

An insulin syringe has three parts: a needle, a barrel and a plunger. Parts of an Insulin Syringe. The needle is short and thin. It is made of a special material that allows the needle to slide through the skin easily with less pain. It comes with a cap to cover and protect it before it is used.

Advanced Features:

- Short & thin Attached needle
- Sterile Single Use
- Easy to use
- Transparent & smooth sliding plunger
- Latex Free Elastoplast Gasket
- Luer Mount, with or without needle
- Available in Ribbon & Blister Pack

MSH58

MSH JECT[®] Disposable Syringe

Sterile Hypodermic Syringes without Needle for Single use only (2pcs.)
Size: 1ml, 2ml, 3ml, 5ml, 10ml, 20ml, 50ml Without Needle of all sizes (Length and gauge).

Sterile Hypodermic Syringes with Needle for Single use only (3pcs.)
Size: 1ml, 2ml, 3ml, 5ml, 10ml, 20ml, 50ml With Needle of all sizes (Length and gauge).

- Single Use Syringes are made of nontoxic, medicalgrade polypropylene compatible with all medicines.
- Standard quality polypropylene used to ensure clear observation and smooth plunger movement.
- Gasket is made from highly inert Thermo-Plastic Elastomer (TPE) in line with global standards.
- Clear Barrel transparency to help the user observe the Sharp and clear Graduation marks in order to ensure Accurate Dosage of Medication.
- Luer slip or luer lock nozzle permits to adapt the needle hub.

MSH37

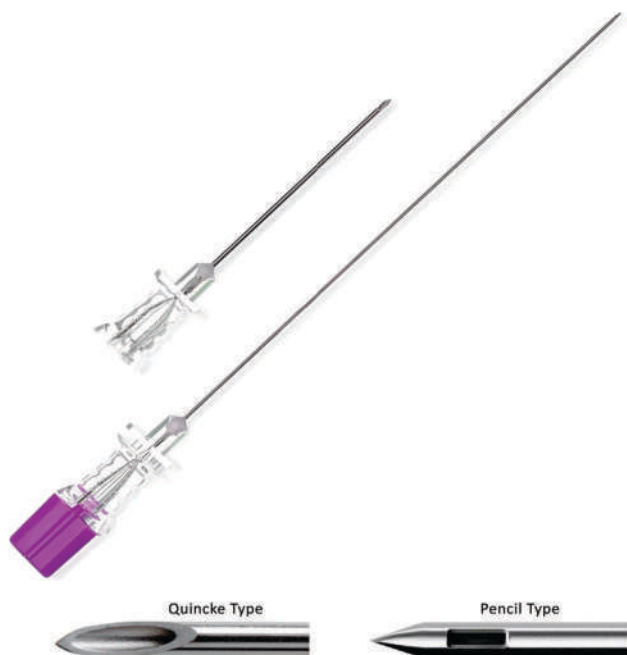

MSH JECT[®] Hypodermic Needle

Features:-

- Non-toxic, Non-Pyrogenic, Sterile Single use
- Superior Quality Cannula and Grinding Technique insures a sharper point for easier injection.
- Gauge of needles may be identified easily by the color of hub manufactured as per ISO-6009.
- As compared to other regular needles, our needles have a broader bore that allows easy injection of liquids through thinner needles.
- Packing: Blister

Packing:-

- Inner Box: 100 pcs.
- Master Carton of 5000 pcs.
- Master Carton size: 470 x 395 x 290mm

MSH92

MSH JECT[®] Spinal Needle

- Suitable for Spinal anaesthesia.
- Conical tip imparts superior tactile feedback.
- High flow rate enables faster Cerebro Spinal Fluid (CSF) flashback.
- Aggressive anesthetic distribution upon injection.
- Clear polycarbonate hub offers easy visualization.
- Available in Whitacre pencil point and Quincke point.
- Sizes: - 16 G to 27 G x 3.5 Needle.

Packing:-

- Inner Box: 100 pcs.
- Master Carton of 5000 pcs.
- Master Carton size: 470 x 395 x 290mm

MSH21

MSH CATH[®]

Folley Balloon Catheter

(Sonde à ballonnet de Foley /
Catéter de balón de Foley /
Баллонный катетер Фолея)

Sizes: 8, 10, 12, 14, 16, 18, 20, 22, 24, 26 FG

Features :

- Catheter are made from Natural latex Rubber.
- Siliconized smooth surface for non-traumatic intubation.
- Distal end is coned with super smooth eyes proportional to each other to provide non traumatic intubation.
- Provided with ultra-thin, highly elastic Balloon.
- Hard Non-Return Valve ensures trouble free inflation and deflation of Balloon.
- Also available in 100% Silicone elastomer.
- For sizes 8 to 26 FG. smaller balloon capacity is also available on customer requirement.

100% Silicon Foley Balloon Catheter

(Sonde de Foley à ballonnet 100 % silicone /
Catéter Foley con balón de silicona 100 % /
Баллонный катетер Фолея из 100% силикона)

Variants: 2 Way & 3 Way

MSH URO[®]

Urine Collection Bag (Poche de recueil d'urine / Bolsa de recolección de orina / Мочеприемник)

Available Options :

- Urine Collection Bag with T- type Bottom Outlet and Sampling port
- Urine Collection Bag with NRV
- Urine Collection Bag with Bottom Outlet
- Urine Collection Bag with Top Outlet & Rod for Hanging

Packing :

- Sterile, Individually packed in Tear H.M pack
- Master Carton of 400
- Gross Weight : 25.200 Kg
- Master Carton Size : 750 x 305 x 650 mm

MSH Central Venous Catheter Kit

(Kit de cathéter veineux central / Kit de catéter venoso central / Набор для катетеризации центральной вены)

Features :

The CVC is designed for placement in the jugular vein of critically ill patients, providing long- term vascular access. It is suitable for Central Venous Catheterization (subclavian and jugular veins) using the Seldinger method. The atraumatic metallic guidewire with a J-shaped tip minimizes the risk of vessel wall injury.

• Size & Kit Customisation Possible

Set Contains:

- Central Venous Catheter
- 5ml Guiding Syringe
- SS Guidewire with Advancer "J" Tip 50 cm
- Patient Identification Sticker
- Wound Dressing Pad
- Vessel Dilators
- 18GA - 7cm Introducer Needle
- Suture Wing
- Injection Cap
- Scalpel #11

MSH Blood Tubing Set

(Tubulure de transfert sanguin / Equipo de líneas de sangre / Комплект трубок для крови)

Features :

Hemodialysis blood tubing sets include arterial and venous lines for reliable blood flow during dialysis. Manufactured with biocompatible, medical-grade PVC tubing, they feature soft, kink-resistant, latex-free construction, guarded access ports, secure clamps, drip-chamber injection sites, and compliant male/female Luer locks. The design supports safe priming, helps prevent blood backflow and turbulence, and reduces infection risk.

For single use only.

Available models:

- Pre-Pump Blood Tubing Set
- Post-Pump Blood Tubing Set

MSH04

Absorbent Cotton Wool

Features:-

Absorbent Cotton is also known as Surgical Cotton or Cotton Wool and mainly used for medical purposes in hospitals, nursing homes, dispensaries and at home (for first aid) etc.

Weight:-

• 25 gms / 50 gms / 100 gms / 200 gms / 500 gms / 1000 gms

MSH

Absorbent Gauze Roll

Features:-

Absorbent Gauze Roll is a soft, open-weave dressing material designed for wound dressing, padding and general medical use. It can be cut and folded to the required size for convenient application.

Advanced Features:

- High absorbency
- Soft and breathable open-weave construction
- Easy to cut, fold and layer
- Suitable for dressing, padding and general clinical use
- Supplied non-sterile

Product Shown:

- Size: **90 cm x 90 m**
- Weight: **1.5 kg**
- Quantity: **Pack of 1 roll**
- Sterility: **Non-sterile**

MSH93

MSH Mucus Extractor

Features:-

Chamber Capacity Catheter Size 25ml 10 - 14 FG

- Designed for aspiration of secretion from Oropharynx in newly born babies to ensure free aspiration.
- Clear transparent, properly marked container suitable for micro biological examination.
- Made from Soft, frosted and kink resistant medical grade PVC tubing.
- Spare closure cap is provided to seal & safe transportation of specimen container to the laboratory / aseptic disposal of container.
- Smooth, frictionless round tip catheter is provided for trauma free insertion.
- Capacity 20 to 25ml.
- Sterile / Disposable / Individually Packed

Available configuration :

- with /without bacterial barrier filter
- DEHP free tube
- Suction tube lengths available: 40 cm /50 cm
- Capacity: 25 ml

MSH62

MSH Colostomy Bag

Features:-

- Colostomy bag is designed for closed colostomy management.
- Made up of medical grade PVC material.
- Does not macerate the skin as flange is with hypoallergic adhesive.
- The hole opening can be increased as per requirement.

MSH19

MSH Surgical Blades

Features:-

Surgical Blades are used for cutting skin and tissues. There are different types of Surgical blades. We differentiate surgical blades by Surgical Blades shape and size. Surgical blades are made with stainless steel or carbon steel.

Surgical Blades are Available in both stainless and carbon steel Numbers 10, 10A, 11, 11P, 12, 12B/ 12D, 14, 15, 15T, 15C & 16 fit handle numbers 3,3L, 5,7 & 9. Numbers 18, 19, 20, 21, 22, 23, 24 & 25 fit handle numbers 4, 4L & 6 Individually V.C.I paper and foil packed. Supplied sterile and non sterile, in box packing of 100.

MSH Blood Collection Tube

(tube de prélèvement sanguin / tubo de recolección de sangre / пробирка для взятия крови)

Features:

- Each tube is made from unbreakable, medical grade plastic with a colour coded cap according to the additive inside
- The cap is grooved with a plastic exterior and rubber interior
- The additive confers special properties to the sampled blood, making it suitable for specific laboratory tests (hematological, biochemical, immunological, etc.)
- The tubes are compatible with all kinds of diagnostic systems
- Shelf life of two years for plain tubes and one year for tubes with additives.

Available In:

- **Vacuum and Non Vacuum Tubes**
- Promoting Coagulation—Plain, Clot Activator, SST Gel
- Impeding Coagulation—K2EDTA, K3EDTA, Sodium Citrate, Sodium Heparin, Lithium Heparin, Sodium Fluoride

MSH Blood Collection Needle With Tube Holder

(Aiguille de prélèvement sanguin avec porte-tube / Aguja de extracción de sangre con soporte para tubo / Игла для взятия крови с держателем для пробирки)

Features:

- The blood collection needle is a disposable, sterile, non-toxic, pyrogen free device with remarkable safety features aimed at blood sample collection with minimal possible risks of blood borne infections or needle stick injuries to healthcare workers/patients
- Stainless steel needle with silicone lubrication
- Pointed at both ends with one end covered by a rubber sheath

Available In:

- 20G (Blue), 21G (Green), 22G (Black)
- 1" and 1.5" Needle Lengths
- With Flashback Chamber
- With Needle Safety Feature
- Sterilization: Gamma Irradiation or ETO
- Individual Pouch pack (Inner: 100Pack, Outer: 1000 Pack)

MSH Umbilical Cord Clamp

(Pince à cordon ombilical / Pinza para el cordón umbilical / Зажим для пуповины)
