

Virchow Healthcare is part of Virchow Group - a global conglomerate, specialized in pharmaceuticals and biosimilars with 20+ manufacturing units dedicated to APIs, Intermediates, Biosimilars and finished formulations.

Present in 60+ countries, our portfolio includes an advanced wound care range, orthopedic, anti-thrombotic, oncology, anesthetic and blood plasma derived products, cephalosporins, probiotics and nutraceuticals. Our innovations in injectables have provided better solutions to healthcare givers and patients.

By virtue of our emphasis on R&D and a customer centric approach, we play a vital role in making essential medicines accessible worldwide, establishing ourselves as a key player in the evolving healthcare space.

Virchow is committed to develop a strong product pipeline of specialty products across existing and new therapy areas.

Virchow...We're on the move!
