## About Us

MAAN Pharmaceuticals Ltd. is a fully integrated transnational company which is focussed on improving quality of patients' lives by identifying and developing formulations that addresses unmet medical needs in today's ever changing healthcare scenario.

Our formulations portfolio include medications that support treatment and cures for diseases across a broad range of therapeutic areas.

As part of our unwavering commitment to improve patients' lives, we have introduced a pipeline of promising new products with a potential to challenge the most feared trend of increasing drug abuse.

We have successfully introduced globally accepted formulation Buprenorphine and its combination with Naloxone for de-addiction.

To ensure that we continue to deliver on our commitments to both the Medical fraternity & patients, we operate with transparency in everything we do and work in partnership with everyone from patients to our health care associates.

## Research & Development

MAAN is fully geared to meet the emerging pharmaceutical industry trends of this century based on newer technologies.

We fully recognize that innovative product development must be fully complemented with cost effective therapeutic formulations to address the needs of the medical fraternity.

To achieve the same all the resources have been harnessed to create a synergy to continuously create and nurture high quality products based on innovative technology.

Our research effort drives our vision to become a respected, integrated global pharmaceutical company and we continuously strive to deliver latest pharmaceutical products for bringing health and happiness to our customers

## Business Activity

MAAN's focus on integrated marketing operations for worldwide exports and catering to domestic market is supplemented by third party contract manufacturing.

We offer numerous advantages to our business associates in terms of lower costs, flexibility, innovative packaging, access to technical expertise and reduced capital requirement through optimization of inventory.

We believe in setting the appropriate working model with our business associates and developing customized supply management schedule.

## Facilities

We have state of the art manufacturing facility extended over 58,000 sq ft with over 400 highly trained professionals including Chemists, Pharmacists, Regulatory and Marketing personnel. The facility is located at Mehsana, Gujarat State - India.

We have dedicated facilities to manufacture various dosage forms like tablets, hard gelatin capsules, sachets, injections - ampoules & vials.

MAAN's manufacturing facilities are approved by various regulatory authorities.

The facility is equipped with advanced automation systems with automatic data recording monitors for process control like air distribution, temperature, humidity, auto cleaning process etc.

## Formulations

MAAN's strong compliance and quality orientation delivers products of highest quality conforming to international standards.

Our dosage forms include the following:

### General

- Tablets & Capsules
- Oral Liquids
- Oral Powder
- Parenteral (SVP & Dry Powder)
- Pre-Filled Syringe

### Beta Lactam

- Tablets & Capsules
- Dry Syrup
- Parenteral (Dry Powder)

## Exports

Over the years MAAN has grown consistently with its products being supplied to more than 20 countries, which has given its business a truly global complexion. With its focus on providing quality medicines at affordable price MAAN has ramped up its manufacturing facility with the most advanced automated technology.

Our portfolio offers over 200 products in the major therapeutic areas of Opioid Analgesics, Anti-malarials, Analgesics, Anti-ulcerants, Anti-emetic, Anti-diarrheal, Immunosuppressants, Cephalosporins, Macrolides, Ovulation stimulants, Anti-bacterials, Anti-retrovirals, Anaesthetic, Penems, Anti-diabetic, Erectile Dysfunction, Anti-biotics, Anti-spasmodics, Anti-fungal, Anthelmintics, CVS, Hemostatic agent, Anti-asthmatic, Anti-inflammatory and Anxiolytic medication.
