

PINNACLE LIFESCIENCE

Subsidiary of  Aarti Drugs Ltd.

UNITED BY OUR GOAL TO BUILD A HEALTHIER WORLD

About Pinnacle Life Science

Pinnacle Life Science Pvt. Ltd., established in 2015, is a wholly owned subsidiary of Aarti Drugs Ltd. (ADL) and forms part of the \$1.5 billion Aarti Group of Industries. Backed by ADL's 41 years of commitment to healthcare, Pinnacle has built strong capabilities in bulk APIs, intermediates, and finished formulations, with complete vertical integration.

We take pride in our comprehensive product portfolio, covering both acute and chronic therapies, supported by a robust annual production capacity of 3 billion tablets and 300 million capsules. With a global presence spanning North America, Central and Latin America (including Brazil and Mexico), Europe, UK, the MENA region, French West Africa, East Africa, Australia, Central Asia and Southeast Asia, we serve more than 250 clients worldwide. Our two state-of-the-art, cGMP-compliant manufacturing facilities in India enable us to deliver high-quality products across multiple therapeutic segments including anti-diabetic, anti-cancer, anti-bacterials, anti-protozoal, anti-fungal, anti-allergic, anti-hypertensive, anthelmintics, gastrointestinal and analgesics.

In addition, Pinnacle has a dedicated oncology facility capable of handling highly potent molecules up to OEB Level-5, which has been approved by the USFDA, ANVISA and EU GMP.

Our Business Models Include

-  Out licensing of Dossiers & commercial supply
-  Co-development and product launch
-  Potent molecules development and supply
-  Technology transfer project
-  Contract Manufacturing services

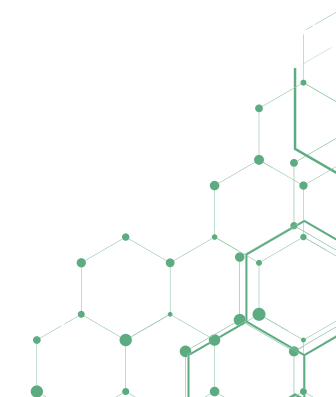

Product List- Oncology (US- FDA, ANVISA, EU GMP Approved Facility)
