Theon Pharmaceutical Company, a leading Indian Pharmaceutical company is a fully integrated, global healthcare provider Driven by creativity and innovation, we strive for excellence and to make a difference in the world of pharmaceuticals and healthcare. We strive to provide accessible and affordable healthcare to all sections of the society. In today's highly regulated industries, compliance with regulatory standards is crucial for business success and public safety. We have a strong team of regulatory professionals to meet the complex regulatory processes, from product development to market approval. We have a basket of more than 500 CTD/ACTD/Regional, which meets all global standards (ICH/EU/PICS)

Since its inception, Theon Pharmaceuticals Ltd., a WHO-GMP, ISO 9001:2015, and PIC/s certified company, has consistently demonstrated its expertise and performance in the industry. Theon is equipped with Worldclass infrastructure for manufacturing Tablets, Capsules, Ointments, Injectables and Dry Syrup Formulations. With its state-of-the-art ultra modern facility spread over 4.5 acres in Himachal Pradesh in North India; we are providing a cost competitive edge over manufacturing units operating in other parts of India. We are proud to have an ensemble of excellent product list, of DCGI approved formulations, to meet all customer needs.

At Theon, we value our relationships with esteemed clients and believe in a 'Customer Centricity' approach, measuring our performance by the value delivered to our clientele. Globally, we have a presence in more than 30 countries. The Company has dedicated & segregated blocks for General, Penicillins (Beta-lactam) & Cephalosporins dosages in the form of Tablets, Capsules, Ointments, Injectables and Dry Syrups covering all major therapeutic segments. The Company maintains separate dedicated R&D laboratories and stability chambers & laboratories to carry out Real Time & Accelerated Stability Studies as per ICH guidelines. Theon has latest sophisticated instruments in its in-house chemical, instrumental & microbiological laboratories for strict compliance of Good Laboratories Practices (GLP's).

With our Motto 'Making Quality Affordable' we aim to carve a place for ourself in the Indian Pharmaceutical market along with our commitment to provide quality branded medicines & generics at affordable prices.

ABOUT US

Theon's journey began in 2005 with a mission to improve the quality of human life by ensuring premier health care for the society with quality and affordable drugs since; Quality is a foundation on which the company has built its reputation. In our endeavour of "infusing health & nurturing lives" we continue to meet or exceed current good manufacturing practices (cGMP) norms and invest in our people, process and equipment to ensure that we remain an industry leader. Our commitment to quality requires us to ensure that our facility is geared up to provide the right environment, our personnel are trained and quality conscious, our packaging provides the requisite security and cosmetic appeal and our products provide complete customer satisfaction. At the same time, Theon aims at carving a place for itself in the Indian Pharmaceutical market with specialization in new and niche molecules thereby adding value for their clients as well as customers

VISION

As a dynamic, innovative, caring and reliable pharmaceutical company, the vision is to stand out as exemplary performer in national and international arena. Theon wants to excel manufacturing of highest quality products with ethical standards and obligation to do right and fair

MISSION

Theon's mission is to uphold our social responsibility by improving the quality of human life by providing quality products of WHO-GMP standards and ensuring premier health care for the society. It endeavors to unlock the geographic potential by delivering balanced and improved product portfolio of quality and cost. The company envisages of being a forerunner in the fast emerging and ever growing market. THEON believes that complete customer satisfaction is the key to increase clientele and expand business. It provides genuine and timely solutions keeping commitments in true spirit. Prompt responsiveness and acceptance of audit compliance is a natural corollary. Passion to excel in technology, competency, resources and services, renders Theon a defined competitive edge over others. The 3 C's Competence, Connection and Character bind us to our customers.

QUALITY POLICY

We take considerable pride in developing, sustaining unsurpassed levels of quality in manufacturing of drug formulations in order to meet customer satisfaction, Our quality policy comprises of

Manufacturing & supplying excellent quality drugs to consistently meet the needs of esteemed clients and mankind in general.

Ensuring strict compliance with cGMP guidelines, prevailing national and international standards in accordance with the pharmaceutical industry.

Treating health, safety and environmental protection as an integral part of the quality strategy.

Enhancing customer satisfaction through continuous improvement in Quality Management System in conformity with ISO 9001:2015

OUR COMMITMENTS

To Business Partners

Our Motto Making Quality Affordable binds us to continuously exceed the benchmarks for our Business Partners by inspiring them to innovate. Our mission to make quality affordable drives us to consistently surpass benchmarks for our business partners, inspiring innovation and excellence. We collaborate closely with our business partners to ensure they understand our ethical and business expectation

To Consumer

Going with our Mission's 3Cs: Competence, Connection and Character, we strive to achieve the highest standards in Customer Satisfaction through our commitment to provide safe and affordable medicines of highest quality, Our relationship with our customers is based on integrity, respect and transparency

To Healthcare Professionals

We are driven by constant goal to discover new medicines, new technologies and new ways to manage health to help people to live healthier lives. Our comprehensive line of products encircles life and addresses important health needs from infancy to golden years

To Community

Each of us has an obligation to leave the world a better place for the next generation...For us at Theon, Corporate Social Responsibility is deeply embedded in our cultural fabric. We continue to make serious efforts to promote good health, social development and better environment, through various company programs that contributes all round growth

SALIENT FEATURES

- WHO-GMP (INDIA), ISO 9001:2015 & Certified Star Export House
- PIC/s Approved Facility
- Leading Contract Manufacturing Company located in Himachal Pradesh
- Built up area of 1,75,000 sq. ft with separate areas for production and warehousing.
- State of the art Infrastructure with c-GMP Automated machines & High-Speed packing lines
- Quality Control, HVAC, Utilities and Administration.
- Dedicated manufacturing unit for General, Betalactams & Cephalosporins
- Separate entry and exit for men & material
- NABL accredited dedicated Modular laboratories complying with GLP norms equipped with latest sophisticated instruments Including UPLCs
- Highly skilled, dedicated and experienced technical staff
- Automated access control system and fully equipped cameras
- Immaculate environmental monitoring, calibration and validation programme.
- We have a dedicated independent state of Art R&D and ADL facility.

SALIENT FEATURES

STATE-OF-THE-ART INFRASTRUCTURE

Our advanced infrastructure is designed to support seamless operations, innovation, and scalability. Equipped with cutting edge technology, we ensure efficiency, precision, and quality in every aspect of our business.

STRONG R&D CAPABILITIES

Innovation is at the core of our brand. Our dedicated R&D team continuously explores new technologies, market trends, and customer needs to develop industry-leading solutions that stay ahead of the curve.

RIGHT PRODUCTS

We focus on delivering the right products that align with market demands, ensuring high quality, reliability, and customer satisfaction. Our offerings are tailored to meet the evolving needs of our clientele.

DIVERSIFIED PRESENCE & MARQUEE CUSTOMERS

With a strong presence across multiple regions, we mitigate risks and tap into diverse markets. This enables us to cater to a global customer base while ensuring business resilience and sustainability. Our brand is trusted by leading industry players. Our portfolio includes prestigious clients who rely on our expertise, quality, and commitment to excellence. Their trust is a testament to our credibility and performance.

MANUFACTURING FACILITIES

EXPAND FURTHER AT THEON

MANUFACTURING FACILITIES

1. Production Block G:- General Oral Solid Dosage Forms -Tablets, Capsules, Dry Syrups, Ointments

Our newly commissioned Unit is outfitted with state-of-the-art manufacturing facility complying all international requirements. Well-qualified equipment and Instruments installed for product development, manufacturing & testing, instrumentation and all other requisite technologies such as Online Product Monitoring Systems, Product & Process Optimization and Data logging to produce the world's best range of products for our valued clients

Tablet manufacturing: - We have two granulation sections to manufacture the different batch size based market potential, fast & latest qualified systems such as RMGs (120kg & 240 kg), Fluid Bed Driers, Fluid Bed Processors, Cone Blenders, Product Lifters, Multi Mills and Sifters etc. supplied and installed by renowned manufacturers like Pam Glatt, Fabtech Technologies. Also for tablet coating we have fully automated facilities with pan size of 60" & 48". We are comprised with ultra-modern tablet compressors from reliable manufacturers such as 'Cadmach' & 'PTK' which are lined up with latest metal detection technology & duct collectors. Through 12 dedicated packaging lines for Tablets, Capsules, Ointment, Powder & Dry Syrups. We provide extensive, high-quality blister & strip packaging solutions with auto cartonator and track and trace systems to adapt to the changing Domestic & International market needs such as 21 CFR Part 11 or other regulatory

MANUFACTURING FACILITIES

2. Production Block B:- B-lactam Products (penicillin) in "Tablets, Capsules & Dry-Syrups" Dosage Form

A separate dedicated facility is specially designed for products with low humidity requirements for their storing, dispensing & manufacturing.

Manufacturing activities such as compaction & powder blending are carried out in controlled environments with dedicated AHUS & DHUs connected to terminal HEPAs to maintain clean room standards. All core manufacturing & core areas are maintained at negative pressure to restrict environmental contamination with beta-lactams, four high-speed tablet compression machines from Cadmach are installed to cater the clients' production requirement, two coater machines having capacity 60" each. Dry Powder filling operations are always performed under validated LAF hoods & filters to assure high degree of quality standards. Capsule filling section is configured with equipment's like high capacity compactors, double cone & octagonal blenders & fully automatic capsule filling machines.

MANUFACTURING FACILITIES

3. Production Block C:- Cephalosporins in Oral Solid Dosage form "Tablets, Capsules & Dry Syrups".

Tablet manufacturing section with double cone blender, oven drier, 38 & 27 Station Cadmach Compression M/c, 51 station machines, AF-40T capsule filling machine, 48" auto coater and stirrer constitute the array of equipments to produce coated and uncoated tablets. Packing section is configured with two packing lines supported by Hi-speed Rapid Pack Alu-Alu and satellite strip packing machine. Versatile high speed dry syrup line consists of bottle de-cartoning system, vacuumised bottle cleaning machine, high speed powder 24 funnel head bottle filling machine, 6 head plastic screw capping machine and induction sealing machine. We have change parts to fill and pack the dry syrups in HDPE (30ml and 60ml) and glass bottles sticker labelling machine with online inkjet printer machine offers aesthetic packing.

4. Production Block D :- Dry Powder Injectables

Dry Powder Injectable Block is designed as per the International Standards covering entire range of Cephalosporins. DPI facility is equipped with fully automatic latest GMP model machineries like automatic vials washing, sterilizing and dehydrogenating tunnel systems, automatic filling, stoppering, and sealing machines. All machines are maintained under Grade A (Class 100 Area), supported by "Restricted Access Barrier System" (RABS). Further sealing machine is lined up with external washing machine, semi-automatic visual inspection machine, sticker labelling machine and autocartonator. All critical operations are monitored through online CCTV cameras facilities are equipped with EU-14 Grade HEPA Filters with 99.999% efficiency. Aseptic areas is maintained for temperature not more than 25 Celsius and RH not more than 30% with help of DHU. Water generation system is designed to meet specification of USP/IP/PP/JP grade of PW/WFI. Nitrogen generation plant also complies with EU& PIC/s standards.
