OUR INFRASTRUCTURE

Our state-of-the-art infrastructure ensures that all our products are of high quality and adhere to international standards. We have a well equipped production unit that allows us to meet the ever-growing demands of the industry. Our manufacturing facilities are well-maintained to ensure efficient utilization of resources. We have a technologically advanced range of equipment and machinery to facilitate high levels of quality production.

OUR MENTOR

We have developed a team of experienced and well qualified professionals that form the backbone of Calrax Healthcare.

Their dedication and hard work has allowed us to attain an international position in respect of quality and reputation in the industry. Owing to their efforts and creative approach, we have continuously progressed towards quality expansion of

our business.

Their in depth knowledge and expertise coupled with invaluable guidance of our mentors, ensures competent and efficient execution of our methodologies.

QUALITY ASSURANCE

We aim to become a leading player in global market. To succeed in this endeavor, we have nurtured a team of dedicated quality analysts who conduct periodic tests on all production stages from procurement of raw materials till the formulation of final product. They ensure that our unit is hygienically maintained and development & packaging of our products is done under hygienic environment. The parameters on which our products are quality tested are:

- Quality
- Safety
- Shelf Life
