Quality never goes out of style. . .

## ABOUT US

NEELKANTH group is one of the oldest and the largest Mineral Processing Organization of India. Its flagship company NEELKANTH MINECHEM™, with over 25 years of experience in the field of pharmaceutical based minerals under the guidance of Mr. C. R. Salecha (B.Pharm) with an experience of more than 56 years and Mr. Rajendra Salecha (B.Com) having an experience of more than 35 years in this industry has helped the organization to reach its deepest potential.

Today, NEELKANTH MINECHEM™ is able to provide an exceptional customer support from sale network throughout India for manufacturing & mining and sales activities by our own sources which is beyond comparison. We are unmatched in our service commitment to the customer and a reliable company to make business with and hold a major market share for our products.

We have an in-house laboratory with a strong R&D team that has resulted in range of quality products including cosmetics, dentistry products and also various allied products which are being added to our wide range.

We at NEELKANTH MINECHEM™ keep upgrading and strive to be in parallel with new technologies and developments in Pharmaceuticals. Presently, NEELKANTH MINECHEM™ is manufacturing as per drug specification and is the leading manufacturer and exporter of various mineral based pharmaceuticals, raw bulk drugs, animal and poultry (Nutrition and feed) industries. Our unit is certified with manufacturing drug license for I.P/ B.P. / U.S.P. / N.F. / E.P. / J.P.

We are also an ISO 9001:2015 certified organization with WHO: GMP | FSSAI | US FDA licences.

# WHY US

# 30 YEAR OF EXCELLENCE

Neelkanth Minechem is today the choice of numerous National & Multinational Companies in India and Abroad for its products and services because of

- Apparent business dealings.
- Huge production & inventory capacity to ensure timely delivery.
- Rate contract with all major transporters to ensure timely & cost effective deliveries
- Indian Drug Control Organization approved/licensed manufacturing unit having drug manufacturing licence for I.P. /B.P. /U.S.P. /NF. /EP / JP
- ISO 9001:2015 Quality Standard & Management Standards.
- Experienced management and production team which work together to ensure success of companies and its clients as well.
- Excellent product quality and packing standards to meet the Domestic as well as Export requirements.
- We also understand the importance of business growth for our clients as well. So we focus on efforts which can add value to you and your business.
- Affordable price without compromising values and ethics.

*Quality never goes out of style...*

## NEELKANTH PEOPLE AND VALUES

### FOUNDERS MESSAGE

C. R. Salecha  
(B. Pharm)  
Founder

Progress for me has never been a dream. It has always been a distant reality and once one milestone is achieved, there is always another one waiting to be crossed. It is with this belief that I started NEELKANTH MINECHEM™ in 1993, a company that manufactures pure and natural mineral excipients for pharmaceutical industries, a business that requires a high amount of technical know-how, expertise and specialized knowledge. NEELKANTH will always rise and history will always remember because I'm confident that with our versatile, adaptable and technology-led efforts, we will meet the standards of our clients.

Having started my venture in 1993, today I am the Chairman of NEELKANTH MINECHEM, which is one of the fast growing and a versatile company which emphasizes on efficiency in operations and reliability of customers. Almost instantly, NEELKANTH MINECHEM became a prominent name in its business segment and like every entrepreneur, I always wanted to push my company to more prosperous milestones. More than being a global businessman, I always perceived my company as a unit that could make a difference with its quality and competitively priced products. Taking a path less travelled, I expanded NEELKANTH MINECHEM to manufacturers of pure and natural mineral excipients for Pharmaceutical, Cosmetic and Food industries. Having said that, I strongly sense NEELKANTH MINECHEM of tomorrow will have a bigger business picture and become a niche in the market as I highly trust and value our professional work-force and encourage flexibility and team-work.

Rajendra Salecha  
Founder & Chairman

NEELKANTH MINECHEM founder Mr. C.R. Salecha receiving Excellency Award for 'BEST QUALITY and PROMPT SUPPLIER' from Senior Managing Executive of Johnson & Johnson Private Limited.

Mr Dhawal Salecha  
(B.Com, MBA Finance)  
Managing Director

Mr Yogesh Salecha  
(BBA, MBA)  
Executive Director

Mr Saurabh Salecha  
(BBA, PVE)  
Executive Director

Continuing the legacy, today NEELKANTH MINECHEM has its 3rd generation in working and truly believes that

*"Leadership is always about the next generation"*

The young entrepreneurs are well educated, skilled in technology, very confident, able to multi-task, and have plenty of energy and prefer to work in teams, rather than as individuals. Seeking immediate results in their work, and desire for speedy advancement, motivating, engaging, and retaining people will never cease as managerial priorities. Overcoming challenge after challenge with the support of a brilliant team, we have been successful in bringing NEELKANTH MINECHEM to a new milestone of international recognition and today Neelkanth Minechem is at a glorious peak amongst the global manufacturers with an international footprint in nearly about 15 countries and still flourishing! We have earned the trust and respect of the giants of the industry and confident that we will grow from strength to strength in our endeavor to make this company into one that delivers value and satisfaction to our growing base of valued clients.

## Vision

Our vision is to become a significant leading player in manufacturing of pharmaceutical excipients and fine chemical and minerals by providing exceptional quality products and touching lives globally. We also have a keen desire to pass on our business expedition from generation to generation.

## Mission

Our mission, as a leading pharmaceutical company is to provide highest quality at an affordable price and innovative solution. Our motive is to give the best experience every time through excellence in product and services. Being good corporate citizens we are committed to provide total customer satisfaction by following ethical standards in our products and services.

## Our Products Range

### SOLID LUBRICANT

#### PURIFIED TALCUM

NEELKANTH MINECHEM's Talcum is mined from a translucent mineral with a pearly lustre and is the softest known mineral. It is assigned a hardness of 1 on the Moh's Hardness Scale. We also ETO sterilize talcum which makes it an exceptional quality material.

The Talc manufactured by us has variety of uses:  
In cancer treatment to prevent pleural effusions.

Also used in Cosmetics, pharmaceutical, paint, paper and in ceramic industries.

PURIFIED TALC I.P.

PURIFIED TALC B.P.

TALC U.S.P.

PURIFIED TALC E.P.

PURIFIED TALC J.P.

TALCUM POWDER COSMETA

TALCUM POWDER PUREMAX

### SKIN PROTECTANTS

#### ZINC OXIDE

Zinc oxide of NEELKANTH MINECHEM is a pure white powder and we specialize in manufacturing fine particles of the oxide that have deodorizing and antibacterial properties.

USES:

Zinc oxide as a topical skin ointment is widely used to treat a variety of skin conditions, including dermatitis, itching due to eczema, diaper rash and acne.

ZINC OXIDE I.P.

ZINC OXIDE B.P.

ZINC OXIDE U.S.P.

#### CALAMINE

Skin itching today is a common issue to everyone. To tackle this problem NEELKANTH MINECHEM is offering premium quality Calamine at a very good price.

USES :

To treat itching and skin irritation caused by chickenpox, insect bites or stings, measles, eczema, sunburn, poison ivy, and other minor skin conditions.

It may also help dry out skin irritation. It is applied as a cream or lotion to the skin.

CALAMINE I.P.

CALAMINE B.P.

CALAMINE U.S.P.

## SKIN PROTECTANTS

### ZINC CARBONATE

ZINC CARBONATE is a white crystalline solid powder which is manufactured at NEELKANTH MINECHEM. We provide ultra pure zinc carbonate which has many applications.

**Uses:**

It can be used for paint, chemical, and agricultural applications. Zinc salts are used in skin lotions, eye washes; bone growth, treatment and prevention of footrot of sheep and facial eczema of sheep and cattle.

**ZINC CARBONATE U.S.P.**

### ZINC STEARATE

Zinc Stearate is a Zinc salt made from a fatty acid called stearic. It is mainly used in cosmetics as a binding and thickening agent to improve texture. Zinc Stearate can be used as a water-repellent, a protective agent used in powders and ointments in the treatment of eczema, acne, and other skin diseases. In Pharma Industry, its main application is in the tablet and capsule manufacture processes as a lubricant.

**ZINC STEARATE I.P.**  
**ZINC STEARATE B.P.**  
**ZINC STEARATE E.P.**  
**ZINC STEARATE U.S.P.**

### ALOE VERA (GEL/POWDER/JUICE)

NEELKANTH MINECHEM's one of the best cosmetic product is Aloe vera which has a wide range of applications. We provide highly purified aloe vera products to our clients.

**USES:**

Gastroesophageal reflux disease (GERD) is a digestive disorder that often results in heartburn is relieved by using aloe vera.  
Moisturizes and keeps skin hydrated.

**ALOE VERA JUICE**  
**ALOE VERA GEL**  
**ALOE VERA POWDER**

## ANTI-ADHERENT AND GLIDANT MAGNESIUM STEARATE

MAGNESIUM STEARATE I.P.  
MAGNESIUM STEARATE B.P.  
MAGNESIUM STEARATE N.F.  
MAGNESIUM STEARATE E.P.

The Product is extra fine and ultra white powder which is manufactured by us using mineral source for magnesium vegetable source for Stearate (Stearic acid with palm oil).

### Uses:

It is widely used in food Industries as an emulsifier, binder and thickener as well as anticaking, lubricant, antifoaming and release agent. Magnesium Stearate is a common ingredient in baby formulas due to lubricating properties.

It is Available in two grades

1. Customary, 2. Paramount

## FILLER AND EXTENDERS KAOLIN

NEELKANTH MINECHEM's Kaolin particularly consists of the clay mineral kaolinite. We supply finely divided form of kaolin, which is lighter and is used for internal administration. We also ETO sterilize which makes it an exceptional quality material.

### USES :

Fine kaolin is used internally as an adsorbent and to coat irritating intestinal mucosa in case of diarrhoea, dysentery and intestinal fermentation.

LIGHT KAOLIN I.P.  
LIGHT KAOLIN B.P.  
KAOLIN U.S.P.  
LIGHT KAOLIN NATURAL B.P.  
HEAVY KAOLIN I.P.  
HEAVY KAOLIN B.P.

## DIETARY SUPPLEMENTS CALCIUM CARBONATE

(Calcium carbonate oyster shell)  
CALCIUM CARBONATE DC GRADE  
CALCIUM CARBONATE ★ 95  
CALCIUM CARBONATE ★ 98

Carbonic acid calcium salt ( $\text{CaCO}_3$ ) is a pure odorless powder or crystal that occurs in nature. NEELKANTH MINECHEM's Calcium Carbonate is used therapeutically as a phosphate buffer in haemodialysis patients. It is non-toxic and available at very reasonable price.

### USES :

As a calcium supplement in tablets for preventing and treating osteoporosis. Calcium carbonate can be used in manufacturing dispersion tablets, chewable tablets, capsules or as an antacid to take by mouth.

## DIETARY SUPPLEMENTS

### CALCIUM HYDROGEN PHOSPHATE (DIHYDRATE)

is used as an excipient for various types of drugs. In Pharmaceutical application, it is used in the manufacture of pharmaceutical tablets and as a source of calcium and phosphorus in nutritional supplements.

Calcium Hydrogen Phosphate B.P.

Calcium Hydrogen Phosphate Dihydrate BP

### DIBASIC CALCIUM PHOSPHATE

Dicalcium Phosphate is the Calcium Phosphate with the formula  $\text{CaHPO}_4$  and its Dihydrate. It is also known as Dibasic Calcium Phosphate or Calcium Monohydrogen Phosphate. In pharmaceutical industry, Dibasic Calcium Phosphate Dihydrate is primarily used as a tablet filler, diluent and a source of calcium and phosphorus in nutritional supplements.

DIBASIC CALCIUM PHOSPHATE I.P.

DIBASIC CALCIUM PHOSPHATE B.P.

DIBASIC CALCIUM PHOSPHATE U.S.P.

### CALCIUM SULPHATE (ANHYDROUS/HEMI HYDRATE/DI HYDRATE)

NEELKANTH MINECHEM's Calcium Sulphate is an odorless, colorless, white powder, crystalline solid with the chemical formula  $\text{CaSO}_4$ .

#### USES:

To manufacture POP bandages which are widely used as a support for broken bones.

As an inactive ingredient tablet excipient and color glaze.

Calcium Sulfate Dihydrate can be used as PH regulator, hardness regulator, Yeast agent, nutritional supplement, texture and flavour enhancer in food such as in baked food, soy product, flour product and bread, biscuit, pastry.

PLASTER OF PARIS I.P.

PLASTER OF PARIS (THERMO HERB)

DRIED CALCIUM SULPHATE B.P.

DRIED CALCIUM SULPHATE DI HYDRATE B.P.

CALCIUM SULPHATE DI HYDRATE N.F.

CALCIUM SULPHATE ANHYDROUS N.F.

## THICKENING AGENT

### GUAR GUM

We also supply Guar Gum as it is mainly demanded for its high protein content and high buffering capacity.

**USES :**

Guar Gum as a binder and disintegrator is used in tablet manufacturing processes to enhance the cohesiveness in the drug powder for forming tablets.

Guar Gum acts as antimicrobial, appetite suppressant, anti-proliferative, laxative and hypolipidemic agent and therefore used in therapeutical formulations.

In food industries, Guar Gum is used as gelling, viscosifying, thickening, clouding and binding agent.

**PHARMA GRADE**  
**FOOD GRADE**

### PRECIPITATED SILICA

We at NEELKANTH MINECHEM are engaged in supplying high quality precipitated silica that is white in color. Our precipitated silica range undergoes stringent quality control tests to make the range free from all defects.

**USES :**

In food processing and pharmaceutical additive as anti-caking, thickening agent, absorbent to make liquids into powders and into cosmetic industries.

**PRECIPITATED SILICA**  
**(PHARMA GRADE)**

### GUM ACACIA

NEELKANTH MINECHEM also supplies Gum Acacia also called Gum Arabic of high grade that contains glycoproteins and polysaccharides.

**USES :**

Acacia is often used in topical treatments to help wounds heal. Acacia gum contains water-soluble dietary fibers (WDF) that are not only good for your diet but also helpful in keeping your cholesterol under control. In the food industry as a stabilizer.

**PHARMA GRADE**

## ISPAGHULA/PSYLLIUM

NEELKANTH MINECHEM provides the world's most abundant renewable and biodegradable polymer which can be used as dietary fibre.

PHARMA GRADE

FOOD GRADE

**USES:**

It is popularly used as a therapeutic agent for the treatment of constipation, diarrhoea, irritable syndrome, inflammatory bowel disease, ulcerative colitis, colon cancer, diabetes, and hyper cholesterolemia.

## GUAR GALACTOMANNANS

Galactomannans (guar gum and locust bean gum) is a type of polysaccharides widely used in the food industry as stabilisers. It is extensively used in cream cheese, fruit preparations and salad dressings.

GUAR GALACTOMANNAN B.P.

GUAR GALACTOMANNAN E.P.

## ABSORBENT AND CLEANSER

### MULTANI MITTI

NEELKANTH MINECHEM's Multani Mitti is known for its purpose in cosmetic industry where it is highly demanded. We offer Multani mud of high-standard quality at a very market friendly price

**USES:**

It has found extensive uses in the beauty industry, both as a cosmetic and as a treatment for acne and other skin problems. With the ability to absorb alkaloids, Fuller's Earth has historically been used as a remedy for toxins ingested, and as a poultice for bleeding wounds, burns and blisters.

MULTANI MITTI

(FULLER'S EARTH POWDER)

## MAGNESIUM CARBONATE LIGHT/HEAVY

**MAGNESIUM  
CARBONATE I.P.**  
**MAGNESIUM  
CARBONATE B.P.**

NEELKANTH MINECHEM with its excellent potential also deals in MAGNESIUM CARBONATE LIGHT / HEAVY which is used in Pharma as well as in Cosmetics industries. We supply fine quality MAGNESIUM CARBONATE LIGHT / HEAVY at a very good price.

**USES:**

Magnesium Carbonate Light / Heavy is odourless and tasteless white fine powder which is used as excipients in various tablet formulation. It is also use as magnesium in health supplements

## CALCIUM STEARATE

Neelkanth Minechem is a leading manufacturer and supplier of highly pure Calcium Stearate powders which are available in powder form, totally white in colour. Calcium stearate (C<sub>36</sub>H<sub>70</sub>CaO<sub>4</sub>) is a mixture of calcium oxide with solid fatty acids such as stearic and palmitic acids.

**Uses:**

Neelkanth's Calcium Stearate can be primarily used as an acid scavenger, release agent and lubricant in the plastics industry, for waterproofing in construction, as an anti-caking agent in cosmetics and as a Mold-release agent for pharmaceutical tablets and capsules.

**CALCIUM STEARATE I.P.**  
**CALCIUM STEARATE B.P.**  
**CALCIUM STEARATE N.F.**  
**CALCIUM STEARATE E.P.**

## PURIFIED BENTONITE

**BENTONITE I.P.**  
**BENTONITE B.P.**  
**BENTONITE E.P.**  
**BENTONITE N.F.**  
**BENTONITE J.P.**  
**BENTONITE COSMETIC**  
**BENTONITE PURE WHITE**  
**PURIFIED BENTONITE N.F.**  
**BENTONITE MAGMA**  
**(Pharma Grade)**

NEELKANTH MINECHEM has always been a pioneer in providing superior quality Bentonite powder with special properties like hydration, swelling, viscosity, thixotropy making it a valuable material for a wide range of uses and applications.

**Our bentonite has wide uses, to name some :**

Bentonite is used as filler in pharmaceuticals, and due to its absorption/adsorption functions, it allows paste formation. Bentonite is used as an antidote in heavy metal poisoning. Personal care products such as mud packs, sunburn paint, baby and face powders, and face creams all contain bentonite.

## CALCIUM HYDROXIDE / HYDRATED LIME

**CALCIUM HYDROXIDE B.P.**  
**CALCIUM HYDROXIDE U.S.P.**  
**CALCIUM HYDROXIDE E.P.**  
**HYDRATED LIME 95% PLUS**

NEELKANTH MINECHEM's expertise continues in manufacturing calcium hydroxide as an excipient due to the continued efforts of the team.

**USES :**  
Calcium hydroxide is used in topical medicinal salves, gastric preparations, filling agent, neutralizing agent and pH buffer in various pharmaceutical preparations.

## SODIUM BENZOATE

**Sodium Benzoate:-** Sodium Benzoate is best known as a good preservative in processed foods and beverages.

**Uses:**  
Sodium Benzoate odourless, fine powder made by combining benzoic acid and sodium hydroxide which helps it dissolve in products. In Pharmaceuticals it is widely used as antifungal and bacteriostatic Preservative and as also used as Flavouring and Antimicrobial agent in Food.

**SODIUM BENZOATE I.P.**  
**SODIUM BENZOATE B.P.**  
**SODIUM BENZOATE E.P.**  
**SODIUM BENZOATE N.F.**

## XANTHAN GUM

is a polysaccharide with many industrial uses, including as a common food additive. Xanthan Gum is produced when sugar is fermented by a type of bacteria called Xanthomonas campestris.

**Uses:**  
Sodium It is used as a suspending agent, an emulsion stabiliser and a foam enhancer in semi-solid, liquid and topical formulations in a large number of Pharmaceutical applications. Due to its properties, it prevents ingredients from separating.

**XANTHAN GUM I.P.**  
**XANTHAN GUM B.P.**  
**XANTHAN GUM E.P.**  
**XANTHAN GUM N.F.**

## TITANIUM DI OXIDE

is the most commonly-used Pigment for Pharmaceutical products such as gelatin capsules, tablet coatings and syrup. In the pharmaceutical industry, titanium dioxide is used in most sunscreens to block UVA and UVB rays, similar to zinc oxide.

**Uses:**

Titanium dioxide is mainly used as an opacifier and colourant in pharmaceuticals, which implies: Enhancing whiteness and opacity, and accentuation of contrast against other colourants.

- TITANIUM DI OXIDE I.P.
- TITANIUM DI OXIDE B.P.
- TITANIUM DI OXIDE E.P.
- TITANIUM DI OXIDE U.S.P.

## LIGHT / HEAVY MAGNESIUM OXIDE

Neelkanth's Heavy Magnesium Oxide is an extremely pure and dense magnesium oxide with excellent compression properties. It is an inorganic salt of magnesium formed with ions of magnesium and oxygen

**Uses:**

Magnesium oxide is a form of magnesium which is commonly taken as a dietary supplement and also used for relief of heartburn and dyspepsia, as an antacid, magnesium supplement, and as a short-term laxative.

- LIGHT MAGNESIUM OXIDE I.P.
- LIGHT MAGNESIUM OXIDE B.P.
- HEAVY MAGNESIUM OXIDE I.P.
- HEAVY MAGNESIUM OXIDE B.P.

The National MSME Awards 2021 to felicitate the outstanding performers in the MSME sector

## QUALITY ASSURANCE & QUALITY CONTROL

Quality assurance at NEELKANTH MINECHEM is the heart and soul of quality control. We follow Good Manufacturing Practises and adhere to best practices in manufacturing, and packaging. We have a full-fledged quality lab to conduct all statutory and mandatory tests on raw materials and excipients. Our QA team not only coordinates with designing, development and manufacturing team but also maintains high quality to ensure that the product meets the pre-determined standards achieved by a combination of systematic sampling, testing, validation and process monitoring. We make sure that all the processes of production are carefully monitored by our experts. Both QA and QC teams are led by experienced pharmacists. Our hi-tech laboratory is equipped with modern testing equipments to carry out all the required tests. The research and development unit stands with its unique facilities with technically superior pharmacists that come out with excellence in quality to improve the productivity. Further, we have a separate team of quality inspectors, who carry a stringent quality testing using the finest quality testing instruments.

## MANUFACTURING & PACKAGING

At our manufacturing unit, we have installed the most sophisticated state-of-the-art modern machines and latest equipments that assist our professionals in improving the quality of our formulations. The production manager takes care of the production in a professional manner. Our experts work in close collaboration with each other to offer products as per the requirements of clients. Our products are packed in 25kg, 40kg and 50kg HDPE bags and we make sure that spillage is avoided.

## Making a difference begins by thinking differently

## OUR CUSTOMERS

Today NEELKANTH MINECHEM's venture has grown tremendously only due to its commitment to quality manufacturing that has led us to connect with some of the most prestigious companies in and around the country. We measure our success with the trust our customers have in our products.

Below you can find some of our important clientele:

 Abbott A Promise for Life	 ajanta pharma limited	 ALKEM	 ARISTO	 RANBAXY LABORATORIES LIMITED
