ABOUT US

Supermax Laboratories, incorporated in 1993, is a trusted name among medicine manufacturers and exporters. By providing effective medications without straining your budget, we ensure affordability and quality of our products. Our commitment to excellence and perseverance has led us to expand our reach globally. With a focus on customer satisfaction, we aim to make high-quality finished pharmaceuticals accessible for the masses and provide reliable healthcare solutions.

Accredited with WHO-GMP and ISO 9001-2015 certifications, Supermax Laboratories is reckoned as an epitome of perfection. The manufacturing facility has dedicated sections for producing Non-Beta lactam and Beta lactam formulations in the form of tablets, capsules, dry syrups, cephalosporin orals and nutraceuticals.

OUR VISION

To work towards human welfare by providing high quality medicines at affordable prices through integration, research, innovation and development and become globally renowned pharmaceutical company.

OUR MISSION

To serve the industry by finding cost-effective applications of the formulations through our professional team of enthusiastic, technical and marketing personnel. Extending exclusive services like product customization and concept formulations for an inclusive growth

OUR VALUES

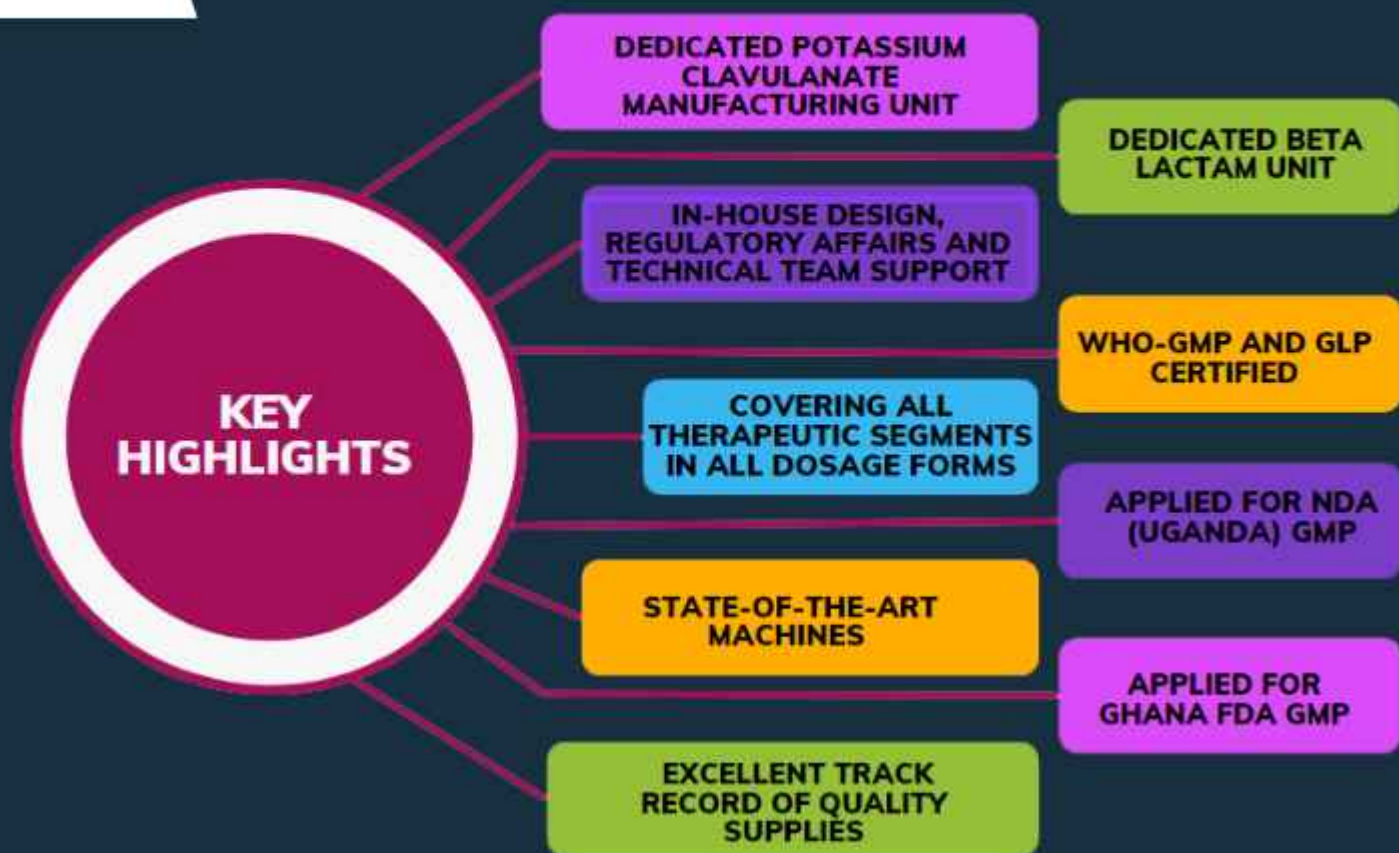

We serve the people we care about, and caring defines our duty to them. To gain the trust of our clients, we must uphold the highest standards, strive for personal achievement, and act honestly, fairly, and with integrity.

CORE SERVICES

- Drug regulatory affairs
 - Country-specific dossiers preparation by our experienced regulatory team
 - Ready COPP
 - Rapid response to queries from regulatory authorities of respective countries
- Direct exports and exports through channel partners
- Contract manufacturing
- Loan license manufacturing
- Institutional supply
- Railway and defence tenders
- Product customization
- In house design, regulatory affairs and technical support team
- Develop new or niche products

Our quality management is based on the following principles:

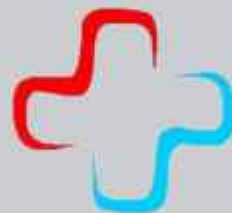

1. Stability, reliability and security- that's our promise
2. Skilled professionals
3. Proper documented procedures
4. With time improvement
5. Controlled production processes
6. Temperature and moisture controlled areas
7. Comply with world-class quality standards
8. Strive to implement new ideas and technologies to meet unmet needs
