

WE AT AKMMA...

VISION

AKMMA Laboratories is committed to lead people over world to healthy lives

Today a small spark AKMMA desires to be a big flame in the Pharma industry. A flame which will ignite, kindle & light up many lives with health and happiness all over globe.

MISSION

To create a Research based Global Pharmaceutical Company that cares and cures. It is our endeavor to provide world-class quality health products from ultra-modern WHO/GMP approved facilities.

PROMOTERS & FOUNDERS

Mr Mohan Jha

Founder & MD @ AKMMA Labs & Innovative Distributions- Kolkata, West Bengal, India

A Seasoned Entrepreneur with over two decades of experience, Mohan Jha is well known for his business acumen and his expertise in Logistics, Supply Chain Management, Distribution & Warehousing services. He founded "Innovative Logistics" which was renowned for its services in India, especially the Eastern and North Eastern sectors of the subcontinent, areas which were considered to be too complex to be served by even the top players in the industry.

After a strategic exit from Innovative Logistics in 2018, Mohan is now committed to building India's largest technology-driven supply chain and distribution network with his experienced team at Innovative Distributions, which he had founded in 2015. Along with his logistics ventures, Mohan has achieved remarkable success in distribution and warehousing services as Innovative Distributions has established itself as a trustworthy brand serving the distribution wants of companies like Hindustan Unilever, Fleet guard, Syska, and so on. He has received several accolades recognising his leadership and the success of his businesses. An established and committed entrepreneur, Mr Mohan is now set to make footprints into domestic and global pharma markets with AKMMA laboratories

Mrs Madhusnata Jha

Founder & MD @ IDSPL (**Innovative Distributions Service Private Limited (IDSPL)**)

An experienced and committed professional, she served as Director at Innovative Logistics until 2018 where she helped build the image of Innovative Logistics as one of the most respected logistics companies in the Indian supply chain landscape. After her exit from the company in 2018, she is dedicated to building India's largest distribution and supply chain network, working as Director at Innovative Distributions.

Along with this, Madhusnata is now committed to venturing into the pharmaceutical industry. As a Director at AKMMA Laboratories, she aims to provide high quality health products and help AKMMA emerge as the most preferred pharmaceutical brand globally.

Mr Anup Banerjee

Executive Director

Experienced for more than 45 Years in International Pharmaceutical industry he is a renowned professional having worked in many reputed companies at very senior positions around the globe including Russia, CIS countries, Africa and East Europe. He was posted as Country Head, Area Director and Senior GM & Regional Head (CIS & East Europe) as an Expatriate for about 20 years in CIS and East Europe. Building new businesses from scratch, JVs, out licencing and piggy backing of brands and contract manufacturing & 3rd party exports are his forte. He has been successful due to his immense world market exposure, knowledge and contacts globally.

His last assignment was as CEO global operations to a successful Pharma company based in Kolkata. He is also a senior consultant to many aspiring Pharma companies.

ABOUT AKMMA

Our young visionary entrepreneur Mr Mohan Jha, after tasting success in logistics, has launched a venture "AKMMA Laboratories" which will lead people world over to healthy lives.

Based in the heart of the economic capital of country i.e Mumbai City at Andheri (East), AKMMA has already started off with their operations as well as success journey.
