

Essential Supplements for Life!

**Your Preferred Contract Manufacturer for
Nutraceutical & Herbal Formulations**

Who we are

One Stop Shop For All Your Supplement Needs

LEADING HERBAL & NUTRACEUTICAL CONTRACT MANUFACTURER

Through our state-of-the-art facility, experience, infrastructure, and global presence, Essenzaa Nutrition has the ability to successfully bring your Herbal & Nutraceutical supplement product to market.

ESSENZAA is technologically driven to meet the rising demands of the rapidly growing market with state of art manufacturing facilities equipped with ultra-modern equipment and machines across all dosage forms (Capsules, Tablets, Lozenges, Effervescent, Chewables, Powder, Granules, Syrup, Gel/Cream/Ointment and Oils).

ESSENZAA is one of the few companies from India to market innovative Nutraceutical & Herbal (**PROYURVEDA**[®]) formulations that are the results of dedicated R&D efforts. ESSENZAA holds patents across the globe and continues the research for newer formulations.

ESSENZAA also introduced a **US, INDIA, CHINA patented** proprietary technology for the 1st time in India, which ensures Enhanced Bio- availability, Stability, Viability and Compatibility of Probiotics with other APIs, essentially, Nutraceuticals & Herbs/Ayurveda.

Facility

We manufacture your supplements in over 50,000 sq.ft. USFDA Registered and FSSAI / FDA Approved facilities.

Developing a high-quality nutraceutical product can be a daunting proposition, especially if you're working with the wrong dietary supplement contract manufacturer.

Over the last decade, we've made supplement manufacturing easy for brand owners by providing them with One-stop solutions, allowing them to go to market faster than the competition with our:

- State-of-the-art Clean Room Manufacturing Facility
- Comprehensive product warehousing.
- High-volume supplement manufacturing capabilities.
- Variable speed rotary compression machines.
- Film and sugar coating equipment.
- High-output encapsulation machines.
- Complete label applicator and packaging systems.
- Dust-contained, HVAC controlled and flexible facility that is designed for fast changeover.
- Quick processing times with cost controls protocols.

We produce supplements that meet your customers' demands
