

Established in 1994, Zest Pharma is a trusted Indian pharmaceutical manufacturer and exporter committed to advancing global healthcare through quality, innovation, and compassion. From its WHO-GMP-certified manufacturing facility in Indore, the company produces over 250 pharmaceutical formulations, including tablets, capsules, liquid orals, dry syrups, and suspensions, in full compliance with international quality standards.

Zest Pharma serves customers in over 20 countries across Asia and Africa and has earned regulatory approvals from NAFDAC (Nigeria), PPB (Kenya), ACOREP (DR Congo), MCA (Gambia), FDA (Philippines), and AFDA (Afghanistan), with registrations underway in Myanmar and Burundi.

Renowned for consistent quality, competitive pricing, reliable supply, and customer-centric service, the company continues to build enduring global partnerships.

Further strengthening its manufacturing excellence, Zest Pharma is developing Indore's first dedicated Beta-Lactam & Cephalosporin facility, designed to meet EU-GMP standards, reinforcing its commitment to delivering safe, effective, affordable, and globally compliant healthcare solutions.
