Pure Nicotine

Making Nicotine since 1979

- Nicotine USP/EP
- Nicotine Bitartrate
- Nicotine Polacrilex USP
- Nicotine Salts

Traceable to the farm, and ESG certified for sustainability!

Our Nicotine tastes smooth, avoiding the harsh flavour that is so common in unrefined Nicotine, and is practically colourless and odourless!

Our *unique* purification phase helps remove the compounds that cause unpleasant tastes and odours or accelerate oxidation.

Always available - Always the same quality

A capacity of *15000kg/month* ensures reliable supply and our *3500kg batch* leads to uniform quality, with every single shipment.

Our ISO 9001:2015, cGMP facility is *WHO - GMP approved*, and our nicotine is *REACH registered*. Our *US DMF* for Nicotine *USP* is filed and we are *USP Verified* and *GLP accredited*!

Audited several times by multiple agencies over several years, our paperwork and documentation is well above industry standard and available for buyers to verify!

Shimadzu uHPLC, HPLCs, IR, UV Spectrophotometer,
Polarimeter, Potentiometer, 7 digit weight balance &
Stability chambers! 9500 litre distillation capacity!
SubZero finished goods cold room!

- Nicotine Pouches
- Nicotine Chewing Gum
- Nicotine Oral Strips
- Nicotine Patches
- PG and VG
- Hdpe Bottles & SS-316 Drums
- Cellulose Powder
- Other Raw Materials

Traceability & Sustainability

12462
Trees Planted

Our Nicotine is traceable to the farm level with a complete dossier!

We are a zero discharge, solar powered manufacturer. Using electric vehicles au maximum, harvesting rainwater and composting or recycling all our waste.

Nico Orgo distributes tonnes of organic fertiliser annually helping create a sustainable farming ecosystem in our area and we've cultivated thousands of trees to create a Miyawaki forest!

We lay great stress on environmental stewardship and our facility is ISO 14001:2015 certified.
