ABOUT US

At Elegant Cosmed, we believe that behind every great personal care brand lies a partner dedicated to precision, integrity, and vision.

Born in 2006 in Rajkot, Gujarat with a commitment to raise the bar in third-party manufacturing, we have built our legacy not merely by producing formulations — but by shaping possibilities. In a space where consistency, compliance, and quality make or break reputations, we stand as a partner brands can truly rely on.

Our expertise lies in high-performance formulations across skincare, hair care, and personal care — with deep specialization in the derma segment, where trust and clinical excellence are non-negotiable. We combine cutting-edge R&D, stringent quality systems, and elegant execution to deliver solutions that empower brands to scale, compete, and lead.

More than a manufacturer, we are a formulation powerhouse — working quietly behind the scenes, turning brand visions into tangible, shelf-ready reality. Every product we create reflects our belief.

Credibility is earned, and trust is crafted one batch at a time.

As we look to the future, we aspire to be more than a partner — we aim to be the driving force behind the world's most trusted skincare and wellness brands.

VISION

To be the most trusted global partner in skincare, hair care, and personal care manufacturing — known for quality, reliability, and elegance across segments including derma, beauty, and wellness.

MISSION

To deliver high-quality, science-backed formulations for skincare, hair care, and derma care brands — through ethical, precise, and elegant manufacturing practices that empower our partners to grow with confidence.

THE TRUSTED POWER BEHIND YOUR BRAND
CRAFTING CONFIDENCE THROUGH FORMULATION EXCELLENCE.

OUR CAPABILITIES

At Elegant Cosmed, we offer end-to-end solutions for brands seeking high-quality manufacturing. Our expertise spans a diverse range of products and services, backed by advanced technology and rigorous quality control.

PRODUCT CATEGORIES

SKINCARE RANGE

Science-backed solutions for radiant, healthy skin. Our formulations cater to all skin types, including sensitive and acne-prone skin.

Our offerings include:

- Moisturizing and anti-ageing face creams
- Hydrating and brightening serums (Vitamin C, Hyaluronic Acid, Peptides & Ceramides)
- Gel, foam, and soap-based cleansers
- Sun protection range (SPF 30 to 100 in lotion, gel, and tinted formats)
- Toners and exfoliators

HAIRCARE RANGE

Targeted care for scalp and hair vitality.

Formulations include:

- Shampoos (sulfate-free, anti-dandruff, anti-hair fall)
- Conditioners and serums
- Nourishing hair oils (Argan, Coconut, Onion, Bhringraj)
- Scalp treatments and repair masks
- Leave-in creams and styling aids

BODYCARE RANGE

Daily body care solutions for all skin types.

We manufacture:

- Body lotions and butters (Shea, Aloe, Cocoa)
- Shower gels and body washes
- Exfoliating scrubs
- Medicated soaps and natural cleansing bars

DERMA CARE RANGE

Pharma-grade formulations meeting stringent pharmaceutical standards.

Our expertise includes:

- Anti-acne treatments (Adapalene, Clindamycin, Benzoyl Peroxide)
- Anti-fungal and anti-inflammatory creams
- Depigmentation and melasma solutions
- Barrier repair creams, keratolytics, and targeted serums
- Prescription-strength derma lotions and ointments

BABY CARE & INTIMATE HYGIENE

Gentle, safe, and dermatologist-tested formulations for infant care and intimate wellness.

We specialize in:

- Diaper rash ointments/creams and baby moisturizers
- Tear-free baby shampoos and cleansers
- Soothing massage oils
- pH-balanced feminine hygiene washes
- Fragrance-free and hypoallergenic products

OUR CORE SERVICES

Everything your brand needs – from formulation to fulfillment.

Private Label Manufacturing (OEM/ODM)

Bring your brand vision to life with our turnkey private label solutions. We manage every step — from concept development to bulk manufacturing and final packaging — so you can focus on growth.

- Full customization across skincare, haircare, derma & wellness
- Concept-to-shelf execution
- Ideal for startups, D2C brands, and global expansions

In-House R&D & Custom Formulation

Our expert formulation scientists craft high-performance products tailored to your target audience.

- 500+ pre-tested formulations for accelerated launch
- Bespoke R&D for actives, sensorial, and skin concerns
- Innovation backed by trends and clinical insight

Packaging Design & Sourcing

Choose from our curated library of premium packaging options — or supply your own.

We ensure visual appeal, regulatory alignment, and production feasibility.

- Bottles, jars, tubes, pumps & eco-conscious formats
- In-house label design & branding support
- Material guidance and print coordination

Regulatory Documentation & Compliance Support

Navigate domestic and global markets with ease through our documentation and compliance expertise.

- ISO 22716:2007 International GMP Standards for cosmetic manufacturing, ISO 9001:2015 and Halal certified manufacturing unit.
- Ingredient lists, PIFs, CFS, and export documentation
- Country-specific regulatory adaptation

Quality Control & Testing

Each batch undergoes rigorous testing — from raw material intake to final release.

- In-process quality checks and final QC validations
- Microbiological and stability testing
- Third-party lab reports available on request

We don't just manufacture — we co-create, refine, and empower your product pipeline.

OUR PROCESS

● Formula Selection

Choose from our extensive library of 500+ FDA approved and lab tested formulations or request a custom formulation by providing us with your benchmark product. (3-5 days lead time)

● Sampling & Approval

Our R&D team will work on formulating your idea into reality and provide you with samples for your approval. (10-15 days lead time)

● Packaging Finalization

Submit your artwork or collaborate with our design team to make one for your brand. Our team of experts will assist in label compliance. (7-10 days lead time)

● Production & Quality Checks

Our team of experts will manufacture the products matching international benchmarks and compliances with final QC. (20-25 days lead time)

● Dispatch & Delivery

Final packaging and dispatch through transport of your choice, door delivery to your warehouse. (8-10 days lead time)

At every stage — from formulation to fulfillment — we operate as your behind-the-scenes powerhouse, delivering confidence in every batch.
