denied **affordable**
access to
medicines.*

Mr. Amar Lulla ~ Founder

L'Amar Groupe SA was established by the Late **Mr. Amar Lulla** with a clear ambition: to build a healthcare company in India that could compete with the best in the world. Backed by decades of leadership experience, his vision was to create a deeply capable organisation offering a wide range of high-quality medicines, developed to global standards and made accessible to markets across geographies.

Founded in 1994 by the late Hon. Mr. Amar Lulla, a pharmaceutical industry legend and former CEO of Cipla Ltd., the Group has grown into a trusted, multi-division healthcare organization. We are recognized for our world-class products, stringent quality systems, and robust regulatory compliance, supported by strong technical documentation and an experienced, multidisciplinary team. All products are manufactured at WHO-GMP and US FDA-approved facilities, ensuring global standards of safety, efficacy, and reliability.

Our Divisions

Branded Formulations

Development and marketing of proprietary, clinically driven brands with a strong focus on quality, efficacy, and market relevance.

White Label / Private Label

End-to-end customized manufacturing solutions, enabling partners to launch high-quality products under their own brand with speed and consistency.

Contract Development & Technology Transfer

Comprehensive formulation development, scale-up, and seamless technology transfer, backed by regulatory-ready documentation and manufacturing expertise.

Manufacturing & Research Excellence

At Lamar Healthcarre, research and manufacturing form the foundation of everything we do.

Manufacturing Capabilities

WHO-GMP certified manufacturing units

Environmentally responsible, effluent-free operations

Batch-wise quality control and documentation

Automated and hygienic production systems

Strict adherence to international quality and safety standards

Research & Development

Our R&D division drives innovation across all product categories. Key capabilities include:

In-house research laboratories with advanced analytical instruments

Standardized herbal extracts and evidence-based formulations

Scientific documentation and clinical validation support

Experienced scientists and formulation experts

Continuous testing for safety, stability, and efficacy

Our Product Lines

Our diversified healthcare portfolio spans a comprehensive range of science-backed, patient-centric solutions designed to support wellness across every life stage. From herbal supplements and probiotics to nutraceuticals, medical nutrition, and advanced vitamin & mineral delivery systems (including effervescent and liposomal technologies), we combine traditional knowledge with modern formulation science. Our offerings extend across topical and skincare solutions for families, expecting mothers, and babies, orally disintegrating films, OTC and intimacy care, veterinary health, and medical devices—ensuring safe, effective, and accessible healthcare solutions for humans and animals alike.

Tulle (Wound care)

L'amar's pharma tulle dressing gauze is developed to support safe, gentle, and reliable wound care by promoting an optimal healing environment. The non-adherent gauze is infused with a specialised ointment base that helps maintain moisture, protect the wound surface, and support natural recovery. Designed for patient comfort and ease of use, the dressing allows atraumatic removal without sticking to the injured area, making it suitable for routine wound management and post-procedure care.
