Quality Policy:

The Quality Policy of "Safetab Life Science is to promote the maintenance and continuous improvement of processes of the quality management system. Promote the qualification of employees through continuous training programs. Adhere to GMP and ensure the safety to employees. Satisfy the continuous needs of the customer through quality and timely delivery. Ensure the products produced are safe, effective, and of good quality".

RND :

We have a well-equipped, separate R&D facility where we develop new formulations and dosage forms. Our Team consists of Formulation Scientists and Analytical Scientists. Our team specializes in Oral Solids (tablet forms (uncoated, film-coated, sustained release, extended release, bilayered) and capsules (tablets in Capsules, immediate and controlled release), Liquid Formulation (suspensions, solutions, emulsions, powder for suspensions), Semisolid Formulation (creams, ointments, Gels, lotions), Granules), etc.

Regulatory:

We have a separate, dedicated, and strong regulatory team to facilitate registration of the products as per the required format of various countries in the world. Our team specializes in preparing the dossiers in CTD, ACTD, eCTD, and country-specific dossiers per the country's requirements. We will support the customer for regulatory queries that may arise from the regulatory agencies until the product is approved.
