

Purpose

Is to provide our customers with the best oral care and healthcare products

Group Pharmaceuticals Ltd., established in 1980, is a leading innovator in oral hygiene care with over 45 years of expertise and a presence in more than 60 countries. Our organization is driven by a strong commitment to research and development, with collaborations spanning globally reputed institutions such as Columbia University, Queen Mary University of London, Imperial College London, the University of Florida, and Uppsala University, Sweden.

We specialize in the development, manufacturing, marketing, and export of high-quality oral care products across cosmetic, pharmaceutical, and medical device categories. Our state-of-the-art manufacturing facilities are certified to ISO 13485, ISO 22716, WHO-cGMP, and other globally recognized quality standards, ensuring consistent excellence in production.

Our portfolio includes over 45 oral care products, reflecting both depth and versatility across categories. With a workforce of more than 800 professionals, we have built a robust distribution network that reaches dentists, pharmacies, retail chains, and e-commerce platforms.

Through strategic partnerships with leading technology innovators, including UK-based BioMin and Swiss-based Bonyf, we deliver advanced, science-backed formulations. We have also recently acquired a patented technology platform expected to be a game-changer in oral hygiene care.

At Group Pharmaceuticals, we offer strong custom research and development capabilities, backed by an experienced technical team specializing in tailored product formulation. This makes us a reliable and flexible partner for contract manufacturing, capable of delivering innovative, high-quality solutions aligned with specific client requirements.

Group Pharmaceuticals Ltd
healthy smiles matter

Innovative by design, Group Pharma has 45+ years of expertise dedicated to oral well-being and healthcare.
