

Innovative Chemistry

About Us

- Puneet Laboratories is an Innovative Concept Marketing Company, incepted in the year 1986 by Late Shri. Lalit Raizada.
- The company began operations with trading & contract manufacturing of pharmaceutical APIs and Intermediates and later diversified into finished formulations business in the domestic and overseas markets.
- We have pioneered in introduction of concepts driven by research to finished formulations in the domestic markets.

Vision

We endeavour to provide innovative chemistry through affordable & high quality healthcare solutions.

Mission

We strive to achieve our vision by :-

Constantly improving our quality management systems, cost effective processes & research based formulations. This broadens our product scope across therapeutic segments.

Aspiring to synergize our core competencies by providing new & innovative molecules to the market.

Our Business Focus

Active Pharmaceutical
Ingredients

Formulations - Outsourcing

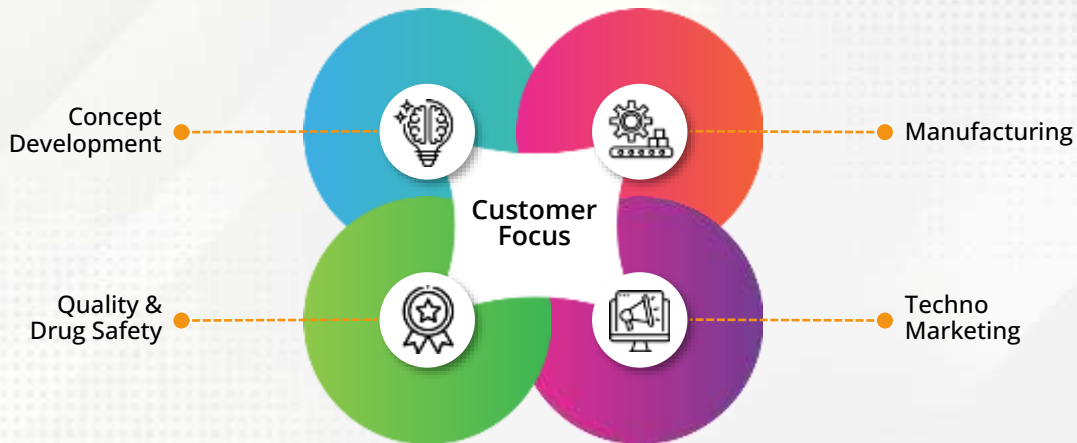

Contract Manufacturing
& Techno Marketing

Core Competencies

Our forte lies in innovative chemistry right from conceptualization to delivery of the finished formulation.

Our Core Competencies

Our Expertise

- Puneet Laboratories having been the pioneer in **Chelate & Peptide Chemistry in India**
- We have strengthened our Chelates & Peptides Portfolio based on the International Technologies offering innovative new molecules like;
 - **Ferrous Bisglycinate** - To improve the tolerability of the oral Iron therapy while retaining the efficacy for a predictable hemoglobin raise.
 - **Zinc Bisglycinate** - To improve impaired immunity with Bio-metallic Chelate Complex.

Our Expertise

- **Zinc Carnosine** - To complement the faster mucosal healing without any side effects.
- **L-Carnosine** - To improve cognition and neural signals by protecting the neurons against oxidative stress.
- **Inositol Hexanicotinate** - Enable the dyslipidemic patients to have a better control over, HDL, TGs Lp(a).
- **Calcium Lysinate** - To offer a better calcium supplementation having highest bioavailable calcium for pregnant & lactating women, growing children & osteoporotic patients.

Puneet Laboratories have developed innovative product lines to offer in **Gynecological, Cardiovascular, Diabetic, Paediatric & Cognitive conditions.**

Therapeutic Areas

Puneet Laboratories offers core concept product lines in nutritional chelates, biomineral salts and specialized mineral complexes with the use of chelation technology and peptide chemistry in the following segments:

Hematinics,
Hemogenesis

Biometallic
Chelates and
Complexes

Dermatology

Vitiligo

Osteogenesis

Joint &
Bone Integrity

Gastroprotectants

Immunity
Buildup

Aminoacids,
Vitamins,
Minerals

Cognitive
Care

Peptides

Formulations

1

Ferrous Bisglycinate (FBG)
Tablets, Syrup, Drops

2

Ferrous Ascorbate Tablets

3

Zinc Carnosine & Ligocaine
mouth ulcer Gel

4

Zinc Carnosine Tablets &
Suspension

5

Monobenzone Cream

6

Inositol Nicotinate Tablets

7

L-Methylfolate Calcium Chewable
Tablets

8

Calcium Lysinate & Vitamin D3
Tablets

9

L-carnosine Tablets & Syrup

10

Multivitamin Tablets
