Products under Drug Licence

➔ Stabilised Cholecalciferol (Vitamin D3)

- ◆ VITAMIN D3 STABILISED 20 IU/MG
- each kg of powder contains 0.5 gms of vitamin D3 IP/BP/USP/EP
- ◆ VITAMIN D3 STABILISED/COATED/WATER SOLUBLE 100 IU/MG
- each kg of powder contains 2.5 gms of vitamin D3 IP/BP/USP/EP
- ◆ VITAMIN D3 STABILISED/COATED/WATER SOLUBLE 500 IU/MG
- each kg of powder contains 12.5 gms of vitamin D3 IP/BP/USP/EP
- ◆ VITAMIN D3 STABILISED/WATER SOLUBLE 850 IU/MG
- each kg of powder contains 21.25 gms of vitamin D3 IP/BP/USP/EP

➔ Cholecalciferol concentrate (Powder form)- IP/BP/EP

➔ Vitamin D2 Powder - Stabilised Ergocalciferol

- ◆ VITAMIN D2 100 IU/500IU
- each kg of powder contains 2.5 gms/12.5 gms of Vitamin D2 IP/BP/USP/EP

➔ Stabilised Free flowing Folic Acid powder

- ◆ FREE FLOWING FOLIC ACID 80%
- each kg of powder contains 800 gms of Folic Acid IP/BP

➔ Stabilised Cyanocobalamin

- ◆ CYANOCOBALAMIN 0.1% IN GELATIN or MANNITOL or DCP
- each kg of powder contains 1 gm of Cyanocobalamin IP/BP/USP/EP
 - ◆ CYANOCOBALAMIN 0.5% IN GELATIN or MANNITOL
- each kg of powder contains 5 gms of Cyanocobalamin IP/BP/USP/EP
 - ◆ CYANOCOBALAMIN 1.0% IN GELATIN or MANNITOL or DCP
- each kg of powder contains 10 gms of Cyanocobalamin IP/BP/ USP/EP
- CYANOCOBALAMIN IN MANNITOL CAN BE USED IN LIQUIDS

➔ Cyanocobalamin 1.0% on Resin (Stablets)

- each kg of powder contains 10 gms of Cyanocobalamin IP

➔ Vitamin B12 Water Soluble

- ◆ CYANOCOBALAMIN 0.1% IN MALTODEXTRIN
- each kg of powder contains 1 gm of Cyanocobalamin IP/BP/USP/EP
- ◆ CYANOCOBALAMIN 1.0% IN MALTODEXTRIN
- each kg of powder contains 10 gms Cyanocobalamin IP/BP/USP/EP

➔ Stabilised Mecobalamin

- ◆ MECOBALAMIN 0.1% IN GELATIN or MANNITOL or DCP
- each kg of powder contains 1 gm of Mecobalamin JP
- ◆ MECOBALAMIN 1.0% IN GELATIN or DCP
- each kg of powder contains 10 gms of Mecobalamin JP
- ◆ MECOBALAMIN 1.0% IN MANNITOL
- each kg of powder contains 10 gms of Mecobalamin IP/JP/USP
- ◆ MECOBALAMIN 2.0% IN MANNITOL
- each kg of powder contains 20 gms of Mecobalamin IP/JP/USP
- ◆ MECOBALAMIN 2.0% IN DCP
- each kg of powder contains 20 gms of Mecobalamin JP
- ◆ MECOBALAMIN 5.0% IN GELATIN or DCP
- each kg of powder contains 50 gms of Mecobalamin JP
- ◆ MECOBALAMIN 5.0% IN MANNITOL or GELATIN
- each kg of powder contains 50 gms of Mecobalamin IP/JP/USP

➔ Non Hygroscopic free flowing D C granules of Calcium D Pantothenate

- ◆ NON HYGROSCOPIC CALCIUM PANTOTHENATE 83%
- each kg of powder contains 830 gms of Calcium Pantothenate IP/BP

➔ Alpha Tocopherol in powder form

- ◆ VITAMIN E 50% POWDER
- each kg of powder contains 500 gms of Vitamin E IP/BP/USP

➔ Vitamin E preparation USP

➔ Alpha Tocopheryl acetate concentrate (Powder form) EP

AVAILABLE IN WATER DISPERSIBLE FORM TOO

➔ Coated form of Alpha Lipoic Acid

- ◆ ALPHA LIPOIC ACID COATED 80% (Thioctic Acid)
- each Kg of powder contains 800 gms of Alpha Lipoic Acid BP/USP

➔ Coated Ascorbic Acid

- ◆ VITAMIN C COATED 97%
- each kg of powder contains 970 gms of Vitamin C IP/BP

AVAILABLE IN DC GRADE & WITH DIFFERENT COATING AGENTS

➔ Biotin on DCP/ Maltodextrin

- ◆ BIOTIN 1%, 2%, 5%, & 10%
- each kg of powder contains 10 gms, 20 gms, 50 gms & 100 gms of Biotin USP/EP/BP

➔ Simethicone in Powder form

- ◆ SIMETHICONE 30% POWDER - each kg of powder contains 300 gms of Simethicone USP/EP
- ◆ SIMETHICONE 50% POWDER - each kg of powder contains 500 gms of Simethicone USP/EP/IP

➔ Mannitol DC Grade 100 SD, 200 SD

- ◆ Excellent flow properties
- ◆ Good compressibility
- ◆ Diluent for direct compressible tablets, capsules and sachets
- ◆ Ideal excipient for moisture sensitive actives
- ◆ Ideal excipient for rapidly dispersing oral dosage forms
- ◆ Mannitol use complies to IP/USP/EP

Bulk Drugs

➔ Zinc Sulphate Monohydrate - IP/BP/USP/FCC

➔ Zinc Sulphate Heptahydrate - IP/USP

Advantages of Stabilised/Coated Vitamins

- ◆ Available in various bases & concentrations, having different strengths to suit needs of specific customers
- ◆ Ensures potency of vitamins till end of shelf life
- ◆ Good flow properties and easily mixes with other products
- ◆ Easy to handle during production unlike unprocessed vitamins which causes hassles during production
- ◆ Reduced overages helps the company save on costs
- ◆ Most products are manufactured as per the needs of the customer
- ◆ Available in economic pack sizes to suit small and medium companies **(1 kg, 5 kgs, 10 kgs, 25 kgs packed in Corrugated Boxes / Fibre Drums / HDPE drums and bags)**
- ◆ Coating process converts hygroscopic material into non - hygroscopic form(Calcium D Pantothenate)
- ◆ No processing required at formulators end
- ◆ Less rigid storage conditions
- ◆ Bio-availability of the Vitamin is not altered by the coating process

Products under Food Licence

➔ Natural Vitamin E Powder

- ◆ NATURAL VITAMIN E 50% POWDER
- each kg of powder contains 500 gms. of Natural Vitamin E

Protein Supplements

➔ Sodium Caseinate

Products under development

- Vitamin A Palmitate powder 250IU / 500IU per mg
- Vitamin K2 MK7
- Vitamin D3 100 CWD (Spray dried)
