

**Building Business through Long Term Relations**

## PROFILE

Pharmchem, a WHO GMP Certified Indian manufacturing company, established in 1976, providing a broad range of cost effective active pharmaceutical ingredients (API). Quality is the hallmark of all our products. At Pharmchem, we bring quality API's at competitive prices, allowing the formulators to build a cost effective range of formulation.

Pharmchem is ranked among the top five manufacturers of Erythromycin salts, second largest manufacturer of Silver Sulphadiazine and biggest manufacturer of Diethyl Carbamazine Citrate. We are also one of the top quality manufacturers of Mefenamic Acid and approved in various MNC's.

Not surprisingly, we have become a reliable source of supply to leading formulators worldwide. Pharmchem aspire to be an innovative and high quality service oriented partner to companies worldwide.

Currently we are exporting to 33+ countries and expanding....
