PHARMCHEM

PRODUCTS

Product Name	Pharmacopoeia	DMF Availability	Therapeutic Categories
Aceclofenac	IP / BP	Available	NSAID
Azithromycin	IP / BP / USP	Available	Macrolide antibiotic
Citicoline Sodium	IH / IP / USP	Available	Neuroprotective agent
Clarithromycin	IP / USP	Available	Macrolide antibiotic
Diclofenac Diethylamine	IP / BP	Available	Topical NSAID
Diclofenac Potassium	BP / USP	Available	NSAID
Diclofenac Sodium	IP / BP	Available	NSAID
Diethyl Carbamazine Citrate	IP / BP / USP	Available	Anthelmintic / Antifilarial
Erythromycin (Base)	IP / BP / USP	Available	Macrolide antibiotic
Erythromycin Estolate	BP / USP	Available	Macrolide antibiotic
Erythromycin Ethyl Succinate	BP / USP	Available	Macrolide antibiotic
Erythromycin Stearate	IP / BP / USP	Available	Macrolide antibiotic
Febuxostat	IH	Available	Antigout agent
Fluconazole	USP	Available	Antifungal (Azole antifungal)
Gliclazide	IP / BP / EP	Available	Antidiabetic
Levofloxacin	IP / USP	Available	Fluoroquinolone antibiotic
Mefenamic Acid	IP / BP /USP / EP	Available	NSAID
Ofloxacin	IP / BP /USP	Available	Fluoroquinolone antibiotic
Ranolazine	IH	Available	Antianginal agent
Silver Sulphadiazine	IP / USP	Available	Sulfonamide antibiotic
Sitagliptin	IP / BP	Available	Antidiabetic

Shortly Introduce

Sacubitril valsartan

Dapagliflozin

Benfotiamine

PHARMCHEM

PRODUCTION CAPABILITIES

Pharmchem operates advanced manufacturing facilities equipped with modern technology and strict quality control systems. Our production processes follow international standards to ensure high purity, consistency, and safety of pharmaceutical intermediates and APIs.

Modern manufacturing infrastructure

Pharmchem operates modern manufacturing facilities with advanced equipment and controlled environments, ensuring efficient production and consistent quality of pharmaceutical intermediates and APIs.

CDMO SERVICES

Pharmchem provides Contract Development and Manufacturing Organization (CDMO) services to pharmaceutical and chemical companies worldwide. Our team supports product development, process optimization, and large-scale manufacturing.

Quality & Compliance

At Pharmchem, quality is the foundation of every product we manufacture. Our processes follow strict regulatory standards and advanced quality control systems to ensure safety, purity, and consistency in every batch of pharmaceutical intermediates and APIs.

- **Global Quality Standards**
  WHO-GMP certified manufacturing with strict quality protocols.
- **Advanced Testing & Validation**
  Advanced laboratories for precise testing and quality validation .
- **Zero Liquid Discharge**
  Ensures complete wastewater recycling with zero environmental

PHARMCHEM
