

GIYAAN PHARMA PRIVATE LIMITED

GIYAAN PHARMA

About Us

Established in 2018 – Giyaan Pharma is a fully integrated Penicillin based Beta Lactam Pharmaceutical Formulation Company. Located near Tirupati city, I.D.A, Renigunta, Andhra Pradesh.

Our advance manufacturing facility enables us to offer a diverse range of Pharmaceutical Formulations for both Domestic and emerging markets, worldwide.

Giyaan Pharma has the ability, infrastructure and expertise to develop and manufacture formulations in Dry Syrup, Tablets and Capsules. The technology and automation used in the manufacturing process results in a simplified supply chain, reducing associated risk and cost and ultimately faster production and delivery timelines.

Our vision and mission is to provide quality and cost-effective Oral Dosage formulations to established and emerging markets, worldwide.

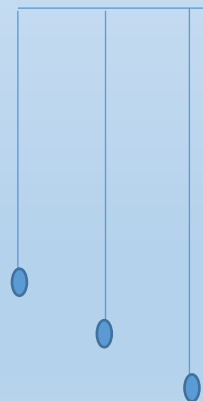

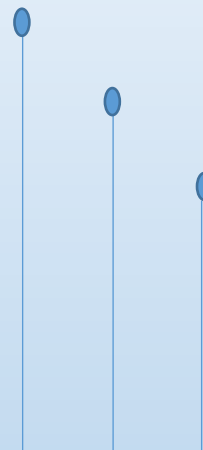

GIYAAN PHARMA

Vision & Mission

VISION

We wish to responsibly grow our company through innovation and operational excellence. Driven by our core values, we are committed to efficiently managing our processes and earning customer and shareholder loyalty. We strive to provide high-quality care products at a competitive price, ensuring the well-being of patients and rising to meet the world's needs.

Our mission is to dedicate ourselves to enriching the quality of human life and protecting the environment. We achieve this by creating pharmaceutical dossiers that address diverse medical needs while being compatible with the environment. Through our relentless pursuit of excellence, we aim to contribute to the betterment of society by delivering safe, effective, and sustainable healthcare solutions.
