ABOUT US

Since quality is the cornerstone upon which the company has established its reputation, Foregen set out to improve the quality of human existence in 2003 by providing optimal healthcare for society through the provision of high-quality, reasonably priced drugs. We continue to meet or exceed current good manufacturing practices (cGMP) regulations and to invest in our people, process and equipment to guarantee we remain an industry leader. We inaugurated an enduring production in 2019 that is furnished with state-of-the-art equipment and has a WHO GMP certification. The production and monitoring processes are being handled by extremely skilled pharma specialists who have access to the newest R&D tools and an in-house lab to guarantee the highest quality. They are also prepared to produce formulations in accordance with customer preferences.

Foregen intends to establish itself in the Indian pharmaceutical business by specializing in new and specialty compounds, hence giving value to their clients and customers.

VISION

The goal of our dynamic, inventive, trustworthy and compassionate pharmaceutical company is to become a model performer on a national and worldwide scale. Foregen aspires to produce products of the greatest caliber while upholding moral principles and having a duty to act justly.

MISSION

Foregen ambition is to accomplish our obligation to society by enhancing human life quality through the provision of high-quality goods that meet WHO-GMP standards and by making sure that society has access to the best medical treatment possible. It aims to create a balanced and better product portfolio of quality and affordability in order to unlock the geographic potential. The company aspires to lead the rapidly developing and expanding market. FOREGEN thinks that growing a clientele and growing a business require total customer satisfaction. It offers sincere and prompt solutions while honoring promises. It follows naturally that prompt response and approval of audit compliance are required.

Foregen Healthcare's core values are Regularity, sincerity, and providing services to its clientele in order to enhance their business and foster a relationship of trust that gives them an upper hand over others.

QUALITY POLICY

Manufacturing & supplying excellent quality drugs to consistently meet the needs of esteemed clients and the mankind in general. Ensuring strict compliance with GMP guidelines, prevailing national and international standards in accordance with the pharmaceutical industry. Treating health, safety and environmental protection as an integral part of the quality strategy.
