www.thefastpharma.in

Introduction

Fast Pharma (P) Ltd. is a pharmaceutical manufacturing company incorporated in June 2002. Our first manufacturing plant was established in 2019 in Roorkee, Uttarakhand.

The company specializes in Injectables, Oral liquids & External Preparations, is WHO GMP certified, and designed to meet export standards.

The combination of experienced directors & young blood is driving the company to its mission of becoming the fastest growing Pharmaceutical Indian Company.

Our Vision & Mission

Our Vision

To strengthen and expand our foothold in pharmaceutical sterile manufacturing ensuring highest level of purity and safety.

Our Mission

- Setting up PFS & Ophthalmic/Ear drops manufacturing facility in our plant by 2026
- A new sterile manufacturing plant as per **EU GMP** standards in action by 2028

Our Values

First Priority Quality

Quality is the baseline of operations and is a pre-requisite for our working.

Advanced Product Development

With good Formulation and Development team, we aim to develop new products based on the market requirement.

Service Exceptional

With customized design team and experience, clients get customization as required.

Transparent Partnerships

Transparent communication helps in developing long term relations, which is what we aim to develop.

Patience with Perfection

Perfection takes time and energy and that is what we strive to achieve with every order.

Honest Communication

Honest truth is thousand times better than miscommunication

Accessible Healthcare

Providing quality medicines at affordable rates for overall accessibility.

Respecting Society

Respecting the needs of society and giving back to society.

Meaningful Connections

Developing long-term relationship and connections.

Altruistic Approach

Focus on wellbeing of all the stakeholders involved.
