

Lifesurge
HEALTHCARE
PVT. LTD.

ABOUT US

We believe that the health is the key to prosperity in every human life and care is the backbone of health, so we exist to put care in the healthcare.

Lifesurge was incepted to focus on transformative innovation to deliver smarter, more personalized care for patients and providers. We exist to span the spectrum of healthcare, which reflects in the solutions we create and cater, ranging from Infusion Therapy, Transfusion Therapy, Urology, Anaesthesia and Respiratory care. We provide the answers with precision, delivering breakthrough technologies to prevent, diagnose and treat health needs. Adapting quickly to changes in the world around us, harnessing leading-edge science and technology to deliver the best possible solutions for some of the world's most important health challenges forms our everyday routine.

The entire development process - from the initial idea to being used in the patient's home or as part of the daily hospital routine - we identify possible risks of therapies in accordance with medical specialists and patients. We evaluate them and develop prevention strategies in order to increase treatment quality and safety. With structured risk management, we reduce risks and improve safety in the healthcare field.

INFUSION SET WITH AIR-VENTED

**AUTO AIR
STOP FILTER**

LUER LOCK

FEATURES

- ▶ Infusion set with air-vent and bacteria barrier hydrophobic filter membrane present at bottom of the drip chamber prevents the entry of air in case of emptied fluid container.
- ▶ Sharp piercing Spike for easy insertion in I.V. fluid Bottle.
- ▶ Longer drip chamber fits firmly in the user hands ensuring a better grip.
- ▶ Provided with Latex free “Y” site type injection port made up polyisoprene for additional medication.
- ▶ Roller controller ensures desired flow control.
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Fixed luer lock for secure connection to all standard medical device.
- ▶ Sterile, Individual Packed.

HIGHLIGHTS

- ▶ Air Stop Prevents Air Embolism.
- ▶ Prime Stop Automates Priming.
- ▶ Available in Rotating luer lock.
- ▶ Available in Needle Free Y-site.
- ▶ Available in HM Pack, Ribbon Pack and Blister pack.

INFUSION SET WITH WINGS WITH AIR-VENTED / WITHOUT AIR-VENTED

LUER LOCK

Y-CONNECTOR

FEATURES

- ▶ Infusion set with air-vent and bacteria barrier hydrophobic filter.
- ▶ Sharp piercing wing Spike for secure handling and easy insertion in I.V. fluid Bottle.
- ▶ Transparent, cylindrical, collapsible drip chamber to clear visualize the flow rate.
- ▶ 15µ Disc fluid filter to filter the particulate matter in I.V. fluids.
- ▶ Provided with Latex free Y-Site type injection port made up polyisoprene for additional medication.
- ▶ Roller controller ensures desired flow control.
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Fixed luer slip for connection to all standard medical device.
- ▶ Sterile, Individual Packed.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Latex Free bulb Injection Port.
- ▶ Available in Rotating luer lock.
- ▶ Available in Needle Free Y-site.
- ▶ Available in HM Pack, Ribbon Pack and Blister pack.

INFUSION SET WITH AIR-VENTED / WITHOUT AIR-VENTED

NON VENTED

TUBE LATEX

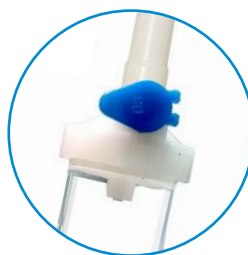

FEATURES

- ▶ Infusion set with air-vent and bacteria barrier hydrophobic filter.
- ▶ Sharp piercing spike for easy insertion in I.V. fluid Bottle.
- ▶ Transparent, cylindrical, collapsible drip chamber to clear visualize the flow rate.
- ▶ 15 μ Disc fluid filter to filter the particulate matter in I.V.fluids.
- ▶ Provided with latex free tube type injection port made up polyisoprene for additional medication.
- ▶ Roller controller ensures desired flow control.
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Fixed luer Slip for connection to all standard medical device.
- ▶ Ultra sharp hypodermic needle to ensure less penetration.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Latex Free Y-Site, bulb.
- ▶ Available in Rotating luer lock
- ▶ Available in Needle Free Y-site
- ▶ Available in HM Pack, Ribbon Pack and Blister pack

INFUSION SET WITH AIR-VENTED / WITHOUT AIR-VENTED

AIR VENT SPIKE

ROLLER CLAMP

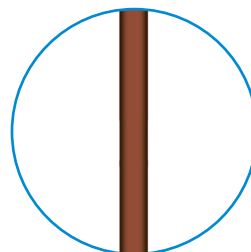

FEATURES

- ▶ Sharp piercing Spike for easy insertion in I.V. fluid Bottle.
- ▶ Transparent, cylindrical, collapsible drip chamber to clear visualize the flow rate.
- ▶ 15 μ Disc fluid filter to filter the particulate matter in I.V. fluids.
- ▶ Provided with Latex free bulb type injection port made up polyisoprene for additional medication.
- ▶ Roller controller ensures desired flow control.
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Fixed luer slip for connection to all standard medical device.
- ▶ Ultra sharp hypodermic needle to ensure less penetration.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Latex Free Y-Site.
- ▶ Available in Luer Lock and Rotating luer lock.
- ▶ Available in Needle Free Y-site.
- ▶ Available in HM Pack, Ribbon Pack and Blister pack.

INFUSION SET PHOTOSENSITIVE INFUSION SET

**PHOTOSENSITIVE
TUBE**

Y-CONNECTOR

FEATURES

- ▶ The Light-Resistant Infusion Set is an advanced medical device designed to prevent light exposure and maintain the integrity of light-sensitive medications during intravenous infusion.
- ▶ Its unique three-layer composite light-proof structure makes it ideal for delivering photosensitive drugs effectively and safely.
- ▶ Crafted from 100% polyester and medical-grade PVC, the Light-Resistant Infusion Set ensures both durability and biocompatibility.
- ▶ The tubing is soft and kink-resistant, and the drip chamber is made of lightproof brown PVC/DEHP material.
- ▶ The set features a range of customizable options, including transparent or elastic frosted tubing.
- ▶ Prevention of Contamination: Minimizes the risk of drug contamination caused by the precipitation of light-shielding agents.
- ▶ Enhanced Safety: Reduces the potential for adverse reactions in patients by maintaining drug integrity.
- ▶ Versatile Customization: Tailorable options for tubing, drip chamber size, roller clamp, and spike material offer versatility.
- ▶ Sterile, individual packed

HIGHLIGHTS

- ▶ Available in Rotating Luer lock.
- ▶ Available in Needle Free Y-site.
- ▶ Available in HM Pack, Ribbon Pack and Blister pack.

PACLITAXEL IV SET

0.2 MICRON FILTER

FEATURES

- ▶ A paclitaxel vented IV set is a medical device used to administer paclitaxel, a chemotherapy medication, to patients with cancer.
- ▶ Automatic air closed-system in any position design against loss the flow during airlock for minimizes exposure to Paclitaxel, reducing the risk of occupational exposure.
- ▶ Manufactured from DEHP-free material
DEHP-free sets reduce the risk of DEHP-related complications.
- ▶ Latex & needle free with “Y” type injection port for extra medication & reduces the risk of latex-related.
- ▶ 0.2 micron filter for filtering all microbes with luer lock Male adaptor with cap/3.0mm x4.1mm.
- ▶ EO sterile and pyrogen-free, Non-Toxic-Ensures the set is free from bacteria, viruses, and other contaminants.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Luer Lock and Rotating luer lock.
- ▶ Available in Needle Free Y-site.
- ▶ Available in HM Pack, Ribbon Pack and Blister pack.

INFUSION SET WING TYPE AIR-VENTED SPIKE WITH FLOW REGULATOR

**DIAL TYPE FLOW
REGULATOR**

Y-CONNECTOR

FEATURES

- ▶ Infusion set with air-vent and bacteria barrier hydrophobic filter.
- ▶ Sharp piercing wing spike for secure handling and easy insertion in i.v. fluid bottle.
- ▶ Transparent, cylindrical, collapsible drip chamber to clearly visualize the flow rate.
- ▶ 15µ disc fluid filter to filter the particulate matter in I.V. fluids.
- ▶ Provided with latex free y-site type injection port made up of polyisoprene for additional medication.
- ▶ Roller controller ensures desired flow control.
- ▶ Precise flow control of iv fluids with a range of 5ml/hr-250ml/hr
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Fixed luer slip for connection to all standard medical devices.
- ▶ Sterile, individually packed.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Latex Free bulb Injection Port.
- ▶ Available in Rotating luer lock.
- ▶ Available in Needle Free Y-site.
- ▶ Available in HM Pack, Ribbon Pack and Blister pack.

BLOOD TRANSFUSION SET WITH AIR-VENTED / WITHOUT AIR-VENTED

BULB LATEX

200 MICRON

FEATURES

- ▶ Sharp piercing Spike for easy insertion in Blood Bottle/Bag.
- ▶ Transparent, cylindrical, collapsible drip chamber to clear visualize the flow rate.
- ▶ 200 μ long blood filter to filter the particulate matter in blood fluid.
- ▶ Provided with Latex free bulb type injection port made up polyisoprene for additional medication.
- ▶ Roller controller ensures desired flow control.
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Fixed luer slip for secure connection to all standard medical device.
- ▶ Ultra sharp 18G hypodermic needle to ensure less penetration.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Latex Free Y-Site.
- ▶ Available in Rotating luer lock.
- ▶ Available in Needle Free Y-site.
- ▶ Available in double drip chamber.
- ▶ Available in HM Pack, Ribbon Pack and Blister pack.

BLOOD TRANSFUSION SET WITH AIR-VENTED

AIR VENT

200 MICRON

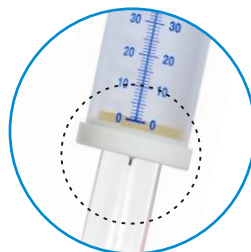

FEATURES

- ▶ Blood Transfusion set with air-vent bacteria barrier hydrophobic filter membrane present at bottom of the drip chamber prevents the entry of air in case of emptied fluid container.
- ▶ Sharp piercing Spike for easy insertion in Blood transfusion Bottle/Bag.
- ▶ Longer drip chamber fits firmly in the user hands ensuring a better grip.
- ▶ 200µ long blood filter to filter the particulate matter in blood fluid.
- ▶ Provided with Latex free Y injection port made up polyisoprene for additional medication.
- ▶ Roller controller ensures desired flow control.
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Fixed luer lock for secure connection to all standard medical device.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Latex Free bulb.
- ▶ Available in Rotating luer lock.
- ▶ Available in Needle Free Y-site.
- ▶ Available in HM Pack, Ribbon Pack and Blister pack.

MEASURED VOLUME INFUSION SET WITH AIR-VENTED / WITHOUT AIR-VENTED

MICRO DRIP

LOCKING CLAMP

FEATURES

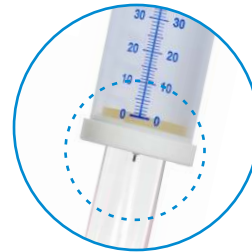

- ▶ Measuring Volume Set with burette chamber, soft, large calibrated, flexible burette chamber manufactured by PETG material.
- ▶ Floating shut-off valve for volume indicator and automatically shuts off the path to prevents air embolism.
- ▶ Sharp piercing Spike for easy insertion in I.V. fluid Bottle.
- ▶ Transparent, cylindrical, collapsible drip chamber to clear visualize the flow rate.
- ▶ Micro drip to reduce the drop size of 60 drops/ml.
- ▶ 15µ Disc fluid filter to filter the particulate matter in I.V.fluids.
- ▶ Provided with Latex free "Y" site injection port made up polyisoprene for additional medication.
- ▶ Roller controller ensures desired flow control.
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Fixed luer Slip for connection to all standard medical device.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Latex Free Y-Site.
- ▶ Available in Rotating luer lock.
- ▶ Available in Needle Free Y-site.
- ▶ Available in HM Pack, Ribbon Pack and Blister pack.

AVAILABLE : 110 ml and 150 ml

MEASURED VOLUME INFUSION SET WITH AIR-VENTED / WITHOUT AIR-VENTED

MICRO DRIP

LOCKING CLAMP

FEATURES

- ▶ Measuring Volume Set with burette chamber, soft, large calibrated, flexible burette chamber manufactured by PETG material.
- ▶ Floating shut-off valve for volume indicator and automatically shuts off the path to prevents air embolism.
- ▶ Sharp piercing Spike for easy insertion in I.V. fluid Bottle.
- ▶ Transparent, cylindrical, collapsible drip chamber to clear visualize the flow rate.
- ▶ Micro drip to reduce the drop size of 60 drops/ml.
- ▶ 15µ Disc fluid filter to filter the particulate matter in I.V.fluids.
- ▶ Provided with bulb latex type injection port made up polyisoprene for additional medication.
- ▶ Roller controller ensures desired flow control.
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Fixed luer Slip for connection to all standard medical device.
- ▶ Ultra Sharp 23G hypodermic Needle.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Latex Free Y-Site
- ▶ Available in Rotating luer lock
- ▶ Available in Needle Free Y-site
- ▶ Available in HM Pack, Ribbon Pack and Blister pack

AVAILABLE : 110 ml and 150 ml

EXTENSION LINE LOW PRESSURE / HIGH PRESSURE / WITH DIAL FLOW REGULATOR

FEATURES

- ▶ Dial type flow regulator with extension line for precise flow control.
- ▶ Reliable flow rate accuracy across the full adjustable scale.
- ▶ Male luer connector at one end and female luer connector at another end with luer lock.
- ▶ Dial design with ridges for easy grip and adjustment.
- ▶ Flow rate control of IV fluids with range 5ml/hr to 250ml/hr.
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Sterile, Individual Packed.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Latex Free Y-Site.
- ▶ Available in Rotating luer lock.
- ▶ Available in HM Pack, Ribbon Pack and Blister pack.

EXTENSION LINE AVAILABLE TUBE LENGTH : 25, 50, 100, 120, 150 and 200 cm

THREE WAY STOP COCK

FEATURES

- ▶ Crystal clear transparent channel.
- ▶ Smooth rotation of handle align easily fluid path.
- ▶ Arrows marks on the tap indicate direction of flow.
- ▶ Connectors meets 6% taper requirement to ensure leakage free fitment.
- ▶ Fully validated and can sustain pressure upto 6 bar.
- ▶ Compatible with lipid drugs also.
- ▶ Sterile, individual packed.

THREE WAY STOP COCK WITH EXTENSION LINE

FEATURES

- ▶ Three way Stop cock at one end and male luer connector at another end enabling the user to run two lines simultaneously.
- ▶ Low pressure large bore extension line with three way stop cock comprising one swabable needle free port for safe access.
- ▶ Swabable ports prevent thrombotic occlusion in IV line that inhibits microbial contamination and colonization.
- ▶ Super smooth kink resistant fluid path tubing for unobstructed flow.
- ▶ Sterile, individual packed.

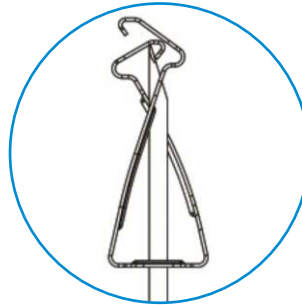

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Rotating luer lock.
- ▶ Available in HM Pack and Blister pack.

TUBE LENGTH : 10, 25, 50, 100, 150 and 200 cm

IV CANNULA

SAFETY CLIP

FEATURES

- ▶ Biocompatible FEP radio opaque/clear catheter for easy insertion and X-ray detection.
- ▶ Flexible wings are designed with 6° angle for better placement & insertion of catheter on patient's body.
- ▶ Wings are specially treated to provide easy & secure fixation with the patient skin.
- ▶ Needle is siliconized, ultra sharp, stainless steel , back cut to perform the minimize chances of nerve damage.
- ▶ Injection port with colour coated cap for intermittent and safe.
- ▶ Flexible angled and grooved wings with suture hole allows easy fixation and prevent displacement of cannula over the patient's body.
- ▶ Colour coded body for identification of gauge size.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available safety cannula.
- ▶ Available in Blister pack.

Available Size Range : 14G / 16G / 18G / 20G / 22G / 24G / 26G

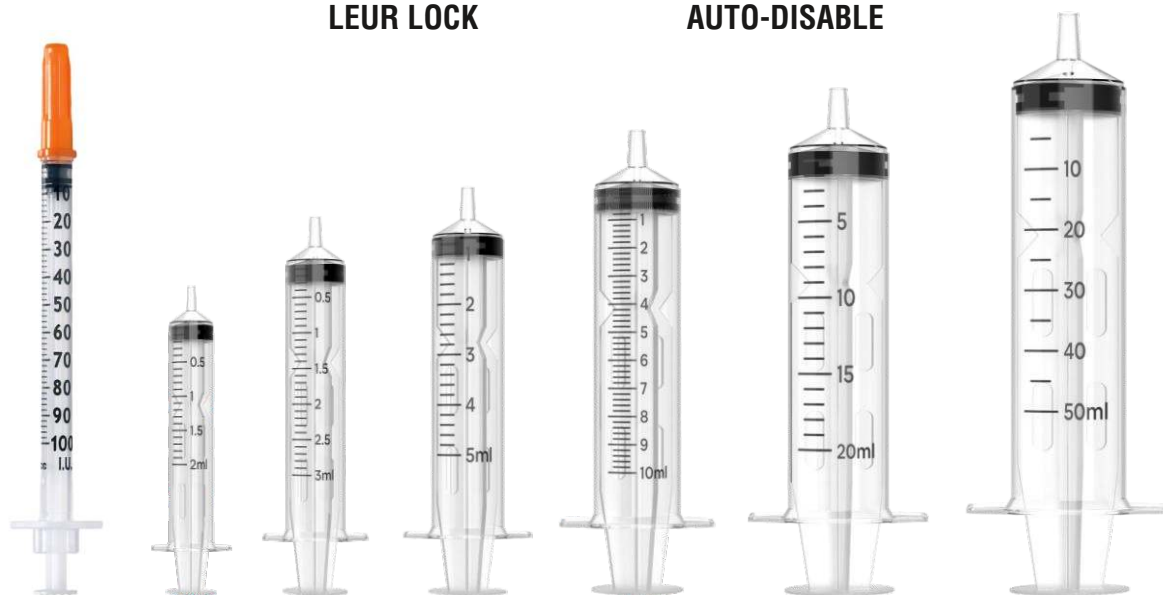

DISPOSABLE SYRINGE

LEUR LOCK

AUTO-DISABLE

FEATURES

- ▶ High clarity transparent barrel molded by using premium quality medical grade polypropylene.
- ▶ Thermo plastic elastomer (TPE) gasket for smooth movement of the plunger.
- ▶ Sterile, individual packed.

Luer slip tip

- ▶ Luer slip tip 6% taper provides a press fitting connection, which requires to push or twist the syringe tip into the needle hub.

Luer lock

- ▶ Luer lock is standardized system of small-scale fittings used for making leak-free connection between syringe luer lock tip and the needle hub, these smooth-drawing syringes are ideal for preventing accidental spills.

HIGHLIGHTS

- ▶ Available in luer lock.
- ▶ Available Auto Disable syringe.
- ▶ Available in Ribbon Pack and Blister pack.

Available Size Range : Insulin syringe / 1 ml / 2 ml / 3 ml / 5 ml / 10 ml / 20 ml / 50 ml

HYPODERMIC NEEDLE

FEATURES

- ▶ Painless extra thin wall bevel silicon coted triangle cut needle.
- ▶ The needles made from high quality SS304 stainless steel.
- ▶ With colour code as per ISO:6009 standard for easy identification.
- ▶ Assembled and packaged on totally automated machines.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in Blister pack.

Available Size Range : 16G / 18G / 19G / 20G / 21G / 22G / 23G / 24G / 25G / 26G

SCALP VAIN

LEUR LOCK

AVAILABLE SIZE RANGE

18G	19G	20G	21G
22G	23G	24G	25G

FEATURES

- ▶ Needle is siliconized to perform easy and painless venepuncture with minimize the chance of inadvertent nerve damage.
- ▶ Butterfly shaped flexible wings facilitate easy to handle and attachment with skin.
- ▶ The proximal end of the set has flexible female luer fitting.
- ▶ Wings are colour coated for easy identification of needle size.
- ▶ Tubing is made from transparent PVC, Soft and kink resistant.
- ▶ Sterile, individual packed

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in Rotating luer lock.
- ▶ Available Auto Disable syringe.
- ▶ Available in HM Pack and Blister pack.

URINE BAG

FEATURES

- ▶ Super smooth kink resistance tube provided with universal tapered connector.
- ▶ Urine drainage system for short as well as long term use .
- ▶ Specially designed hook or hanger facilities for carrying or hanging and holding the tube in upright position.
- ▶ Bag graduated in ML to indicate the quantity of urine collected .
- ▶ Transparent sheet allow visual inspection.
- ▶ Efficient non return value prevents the back flow with top outlet.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in Top outlet / Bottom outlet.
- ▶ Available with hanger / without hanger.
- ▶ Available in HM Pack and Ribbon pack.

Capacity of Urine Collection Bag : 500 ml, 1000 ml, 1500 ml, 2000 ml

URO METER

FEATURES

- ▶ Graduated measure volume chamber for accurate measurement of the urine out put.
- ▶ Super smooth kink resistance tube provided with universal tapered connector.
- ▶ Urine drainage system for short as well as long term use.
- ▶ Specially designed hook or hanger facilities for carrying or hanging and holding the tube in upright position.
- ▶ Capacity of urine collection bag is 2000 ml.
- ▶ Bag graduated in ML to indicate the quantity of urine collected.
- ▶ Transparent sheet allow visual inspection.
- ▶ Efficient non return valve prevents the back flow with top outlet.
- ▶ With T type bottom outlet.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in Bottom outlet.
- ▶ Available with hanger.
- ▶ Available in HM Pack and Ribbon pack.

Available Chamber Size : 250 ml, 500 ml

URETHRAL / NELATON CATHETER

FEATURES

- ▶ Designed for short term bladder catheterization.
- ▶ Smooth kink resistance, made from thermosensitive PVC material.
- ▶ Soft rounded, provide with two lateral eyes for efficient drainage.
- ▶ Perfectly finished closed distal end for smooth & painless insertion.
- ▶ Proximal end is fitted with universal funnel shaped connector for extension.
- ▶ Color coded connectors for easy identification of size as per standards.
- ▶ Sterile, individual packed.

SUCTION CATHETER

FEATURES

- ▶ Suction Catheters are suitable for removal of secretion from mouth, trachea and bronchial tubes.
- ▶ Manufactured from non-toxic non-irritant medical grade PVC.
- ▶ Distal end is open with one lateral eye.
- ▶ Colour coded for instant size identification.
- ▶ Provided with universal funnel shape connector for safe connection to standard suction equipment.

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in HM Pack and Blister pack.

AVAILABLE SIZE RANGE

FOLEY BALLOON CATHETER

Size	Balloon Capacity
 6 FG	2-3 ml
 8 FG	5 ml
 10 FG	5 ml
 12 FG	5-15 ml
 14 FG	30 ml
 16 FG	30-50 ml
 18 FG	30-50 ml
 20 FG	30-50 ml
 22 FG	30-50 ml
 24 FG	30-50 ml

FEATURES

- ▶ Made of natural rubber latex and silicon elastomer which eliminates the risk of encrustation.
- ▶ Soft and smooth surface facilitate non-traumatic intubation.
- ▶ Distal end is coned and super smooth surface provided burr free eyes for atraumatic intubation.
- ▶ Symmetrical large capacity balloon that ensures straight tip for proper urine flow and preventing bladder leakage.
- ▶ Hard non-return valve ensures easy inflation and deflation of balloon.
- ▶ Color coded valve for instant identification.
- ▶ Sterile, individual packed.

HIGHLIGHTS

- ▶ Available in 3 Way FG 16 to 24.
- ▶ Available in Purely Silicon materials.

TWIN BORE NASAL OXYGEN SET

FEATURES

- ▶ Made from soft, non-toxic pvc hence, non-Irritating even in long term use.
- ▶ Star lumen tube ensures the supply of oxygen even if, the tube is accidentally kinked.
- ▶ Smoothly finished & adjustable nasal tips to maximize the comfort.
- ▶ Soft funnel- shaped connector facilitates easy connection to the oxygen source.

AVAILABLE SIZE RANGE

ADULT/ CHILD / NEONATAL

OXYGEN MASK

FEATURES

- ▶ Clear and soft mask with adjustable strip and integrated nose clip.
- ▶ Molded face mask with adjustable elastic strap for proper positioning of oxygen mask on the mouth and nasal area.
- ▶ Provide with 2-meter-long star lumen tube to ensure continuous flow of oxygen.
- ▶ Proximal-end fitted with soft funnel shaped connector to ease connection to the oxygen source.
- ▶ Also available non-breathing mask.

AVAILABLE SIZE RANGE

ADULT/ CHILD

NEBULIZER MASK

FEATURES

- ▶ Consist of nebulizer mask with adjustable elastic strip & integrated nose clip, nebulizer chamber.
- ▶ Made from unique transparent non- toxic material.
- ▶ Nebulizer chamber with a capacity of 7cc.
- ▶ The connecting tube has internal serrations (star lumen).

AVAILABLE SIZE RANGE

ADULT/ CHILD

BVF - HME FILTER

FEATURES

- ▶ Bacterial viral filter-heat exchange maintainers filter.
- ▶ Use in to the anesthesia, ICU and ventilated patients.
- ▶ HMEF is humidification system with gas monitoring port.
- ▶ The filter is used for the removal of bacteria from the air breathing & respiratory support to the patients.
- ▶ Moisture output : 32 mg h20/l.
- ▶ Filtration efficiency : 99.99%.
- ▶ Tidal volume range : 150-1500 mili leter.

AVAILABLE SIZE RANGE

ADULT/ CHILD

ENDOTRACHEAL TUBE

Endotracheal Tube Plain

FEATURES

- ▶ Pilot balloon with integral one way valve.
- ▶ Size of the tube clearly marked on the tube.
- ▶ Murphy eye, high volume, low pressure cuff, oral/nasal.
- ▶ Sterile, individual packed.
- ▶ **SIZE : 2.0 mm to 7.00 mm**

Endotracheal Tube Cuffed

FEATURES

- ▶ Non- Return Valve with indicator to facilitate the cuff inflation and deflation.
- ▶ Thin, smooth cuff inflates symmetrically eliminating any risk of herniation.
- ▶ Terminal end is suitable for 15mm connector.
- ▶ Sterile, individual packed.
- ▶ **SIZE: 3.0 mm to 9.5 mm**

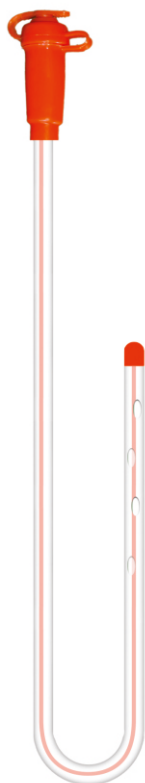

Also Available Products of Anaesthesia

- || Catheter mount
- || Guedel airway
- || Respiratory exerciser (3 ball spirometer)
- || Plain ventilator circuit
- || Single water trap ventilator circuit
- || Double water trap ventilator circuit
- || T-recovery kit
- || Nebulizer t pc kit
- || Bain circuit
- || Ambu bag (Resuscitator Bag)

RYLES TUBE

FEATURES

- ▶ Super smooth kink resistance tubing ensures uniform flowrate.
- ▶ Suitable for nasogastric insertion for nutritional purposes or aspiration of intestinal secretion.
- ▶ The tube is marked at 50,60 & 70cm from the tip for accurate placement.
- ▶ Atraumatic, soft rounded, closed tip with four lateral eyes for efficient aspiration & administration.
- ▶ Proximal end is fitted with universal funnel shaped connector for extension.
- ▶ X-Ray opaque line provided through out the length of tube.
- ▶ Available with universal luer connector.
- ▶ Tube Length : 105 cm.
- ▶ Sterile, individual packed.

AVAILABLE SIZE RANGE

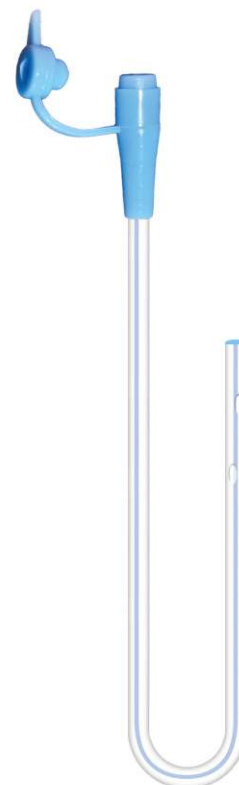

INFANT FEEDING TUBE

FEATURES

- ▶ Smooth kink resistance tubing ensures uniform flowrate.
- ▶ For neonatal and paediatric nutritional feeding.
- ▶ Atraumatic, soft rounded. closed tip with two lateral eyes for efficient aspiration & administration.
- ▶ Proximal end is fitted with female luer mount for easy connection to feeding funnel or syringe.
- ▶ Tube is marked at 20cm away from the distal tip.
- ▶ X-Ray opaque line provided through out the length of tube.
- ▶ Available with graduation mark after every cm.
- ▶ Tube Length : 52cm.
- ▶ Sterile, individual packed.

AVAILABLE SIZE RANGE

HIGHLIGHTS

- ▶ Available in DEHP Free PVC materials.
- ▶ Available in HM Pack and Blister pack.

CHEST DRAINAGE CATHETER

FEATURES

- ▶ Catheter manufactured from medical grade PVC is snugly fitted over the trocar.
- ▶ **Catheter without trocar** : Atraumatic, soft rounded, Open distal end with six lateral eyes for non-traumatic Insertion.
- ▶ **Catheter with Trocar** : Atraumatic, soft rounded, open distal end with two lateral eyes for non-traumatic insertion.
- ▶ The device is specially designed for rapid non operative pleural and chest drainage for the relief of chest conditions such as tensions pneumothorax.
- ▶ Blunt smooth tip.
- ▶ Prevents outside air entry, reducing the risk of infection.
- ▶ Large smooth drainage eyes for efficient drainage.
- ▶ Markings provided at 2 cm to 20 cm from the distal tip assist to ascertain the depth of penetration.
- ▶ Proximal end is fitted with tapered connector for easy connection to drainage bottle.
- ▶ Sterile, individual packed.

AVAILABLE SIZE RANGE

8, 10, 12, 14, 16, 18, 20, 22, 24, 28, 32, 36, 40.

YANKAUR SUCTION SET

FEATURES

- ▶ Suitable for intra-surgical removal of secretions and body fluids.
- ▶ Ribs on the outer surface for improved grip.
- ▶ Soft, flexible, and kink-resistant tube.
- ▶ Siliconized sleeve on the handle for smoother operation.
- ▶ Thumb-controlled YANKAUR handle available in standard or crowntip.
- ▶ They are suitable for a variety of applications, including the removal of oral secretions, blood, or other fluids during surgeries, dental procedures, and other medical interventions.
- ▶ Proximal end is fitted with funnel connector which can be fitted with any type of suction apparatus.
- ▶ Universal connector at both the ends.
- ▶ Sterile, individual packed.

CLOSED WOUND SUCTION KIT

FEATURES

- ▶ Suitable to offer surgeons and doctors an effective device for close wound drainage under negative pressure post operatively with the option to use one or two catheters simultaneously.
- ▶ Graduated bellow container.
- ▶ Redon drain catheters are provided with radio opaque line and satin smooth eyes.
- ▶ Connecting tube is kink resistant and is provided with additional strength to withstand the suction.
- ▶ Easy to depress chamber to activate the suction of bellow unit by one person.
- ▶ Available with different catheter sizes with matching size curved needle to meet moderate to heavy drainage needs.

UNIT CONSISTS OF

- ▶ Bellow unit.
- ▶ Connecting tube with clamp and “Y” connector.
- ▶ Curved needle with matching catheter.
- ▶ Spare perforated catheter.

BELLOW CAPACITY

- ▶ Type Bellow Capacity.
- ▶ 800 ml, 600 ml

AVAILABLE SIZE RANGE

8FG, 10FG, 12FG, 14FG, 16FG, 18FG

INFANT MUCUS EXTRACTOR

UMBILICAL CORD CLAMP
