Protects sensitive ingredients and ensures precision dosing.

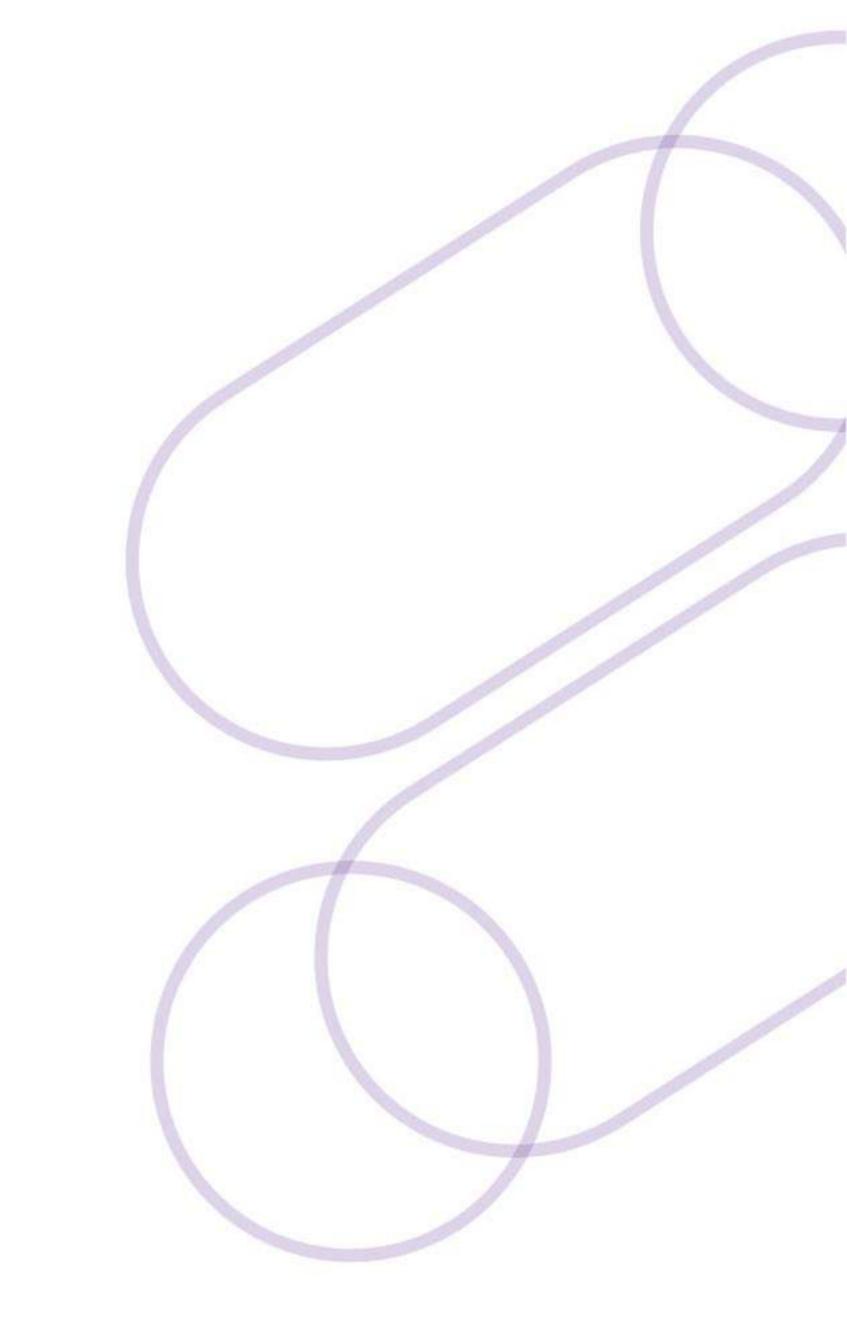

### At ~ From ~ Why

At Softpills, we believe nutrition should be effortless, enjoyable, and effective. That's why we reimagine supplements - not as pills to swallow, but as innovative formats that fit modern life.

From our 48,000 sq. ft. world-class facility in Changodar, we craft gummies and softgels using precision machinery from Seoul and Beijing - built to global standards, located in proximity to industry leaders like Baxter and Otsuka.

Every product starts with a simple "why": to help brands deliver wellness that feels good, works better, and inspires trust.

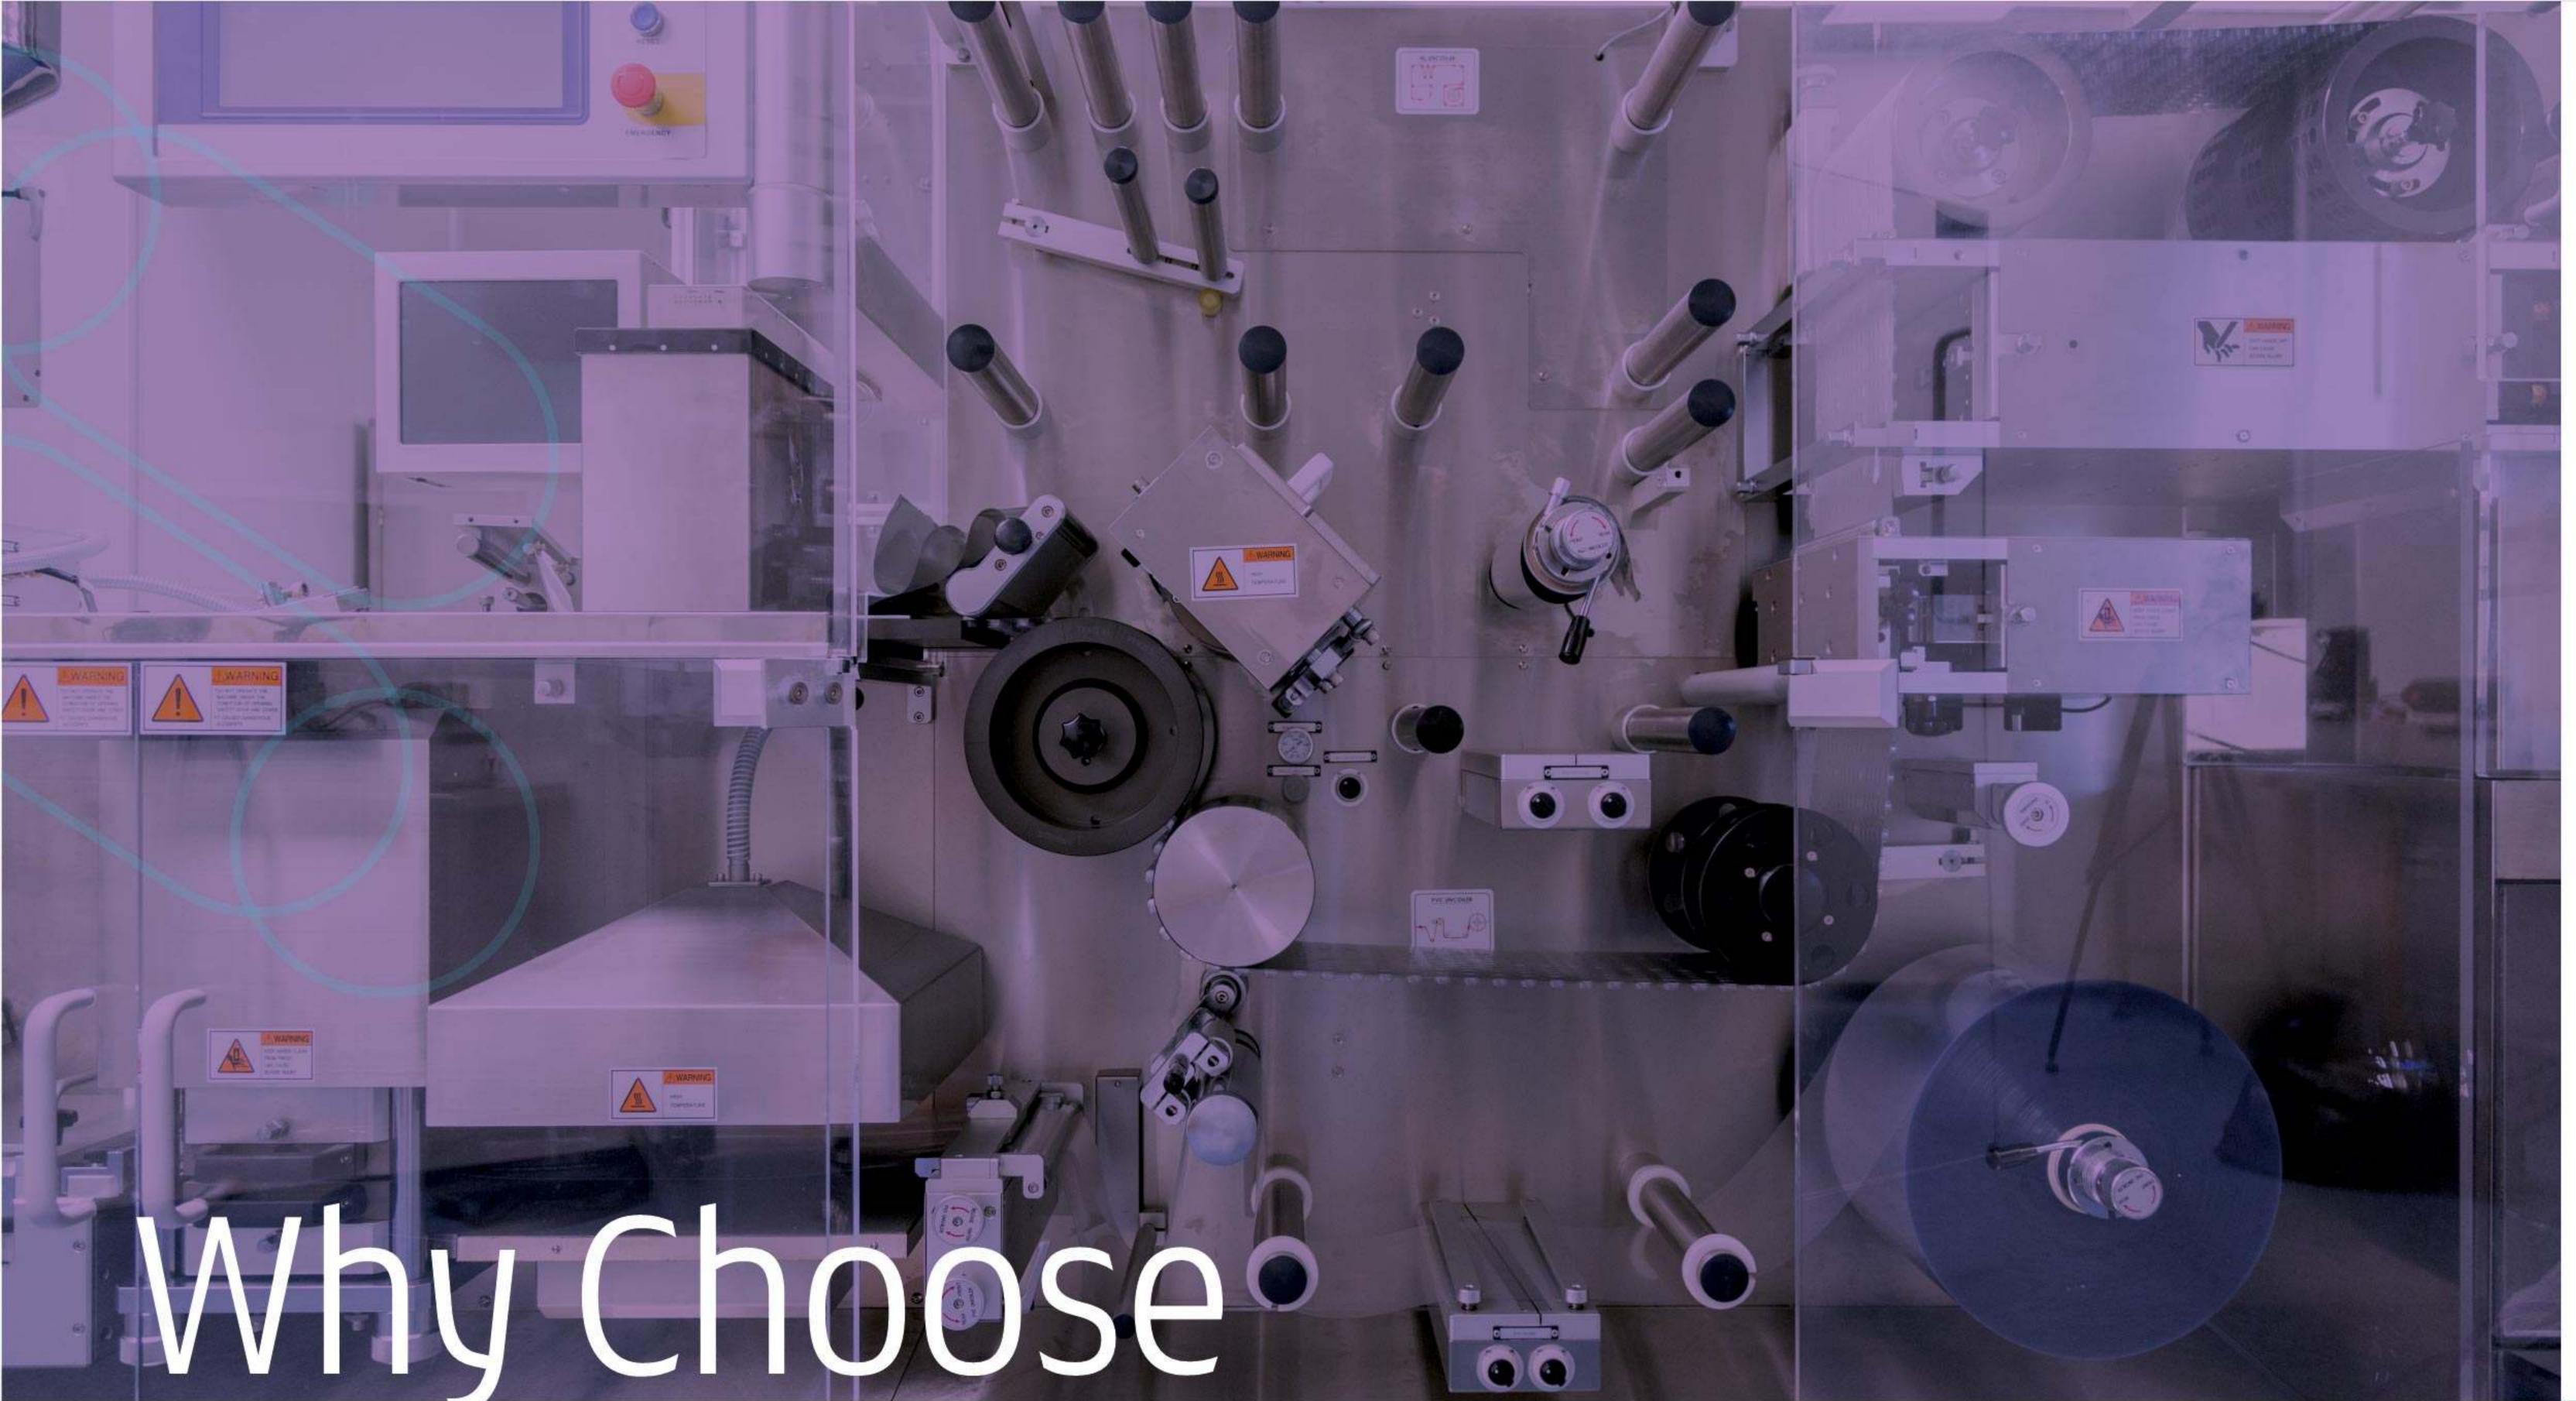

### Business Essence

At Softpills, we partner with wellness brands to bring their ideas to life - transforming science into delicious, functional, and reliable products. From our world-class facility in Changodar, we combine global technology, strict compliance, and creative formulation to deliver supplements that meet the highest standards and make a real difference in people's lives.

Our essence lies in transforming science into experiences: gummies that spark joy, softgels that deliver trust, and formulations that make wellness part of daily life.

Because in the end, we're not just making nutraceuticals, we're shaping the future of how the world consumes wellness.

## Softpills?

#### Low Minimums, Big Possibilities

Whether you're a startup or an established brand, we welcome projects of every size - with the same attention to detail and care.

#### Certified Quality, Global Standards

Built to meet international nutraceutical benchmarks, because trust begins with compliance.

#### Private Label Specialists

We turn your ideas into your brand's signature products - from formulation to packaging, all under one roof.

#### Innovative Packaging Options

Bottles, jars, pouches, blister packs - we offer creative, premium, and customizable packaging to match your brand's identity.

#### Fast Turnaround Times

Our streamlined processes and modern infrastructure mean quicker development and delivery, without compromising quality.

### State of the art facility

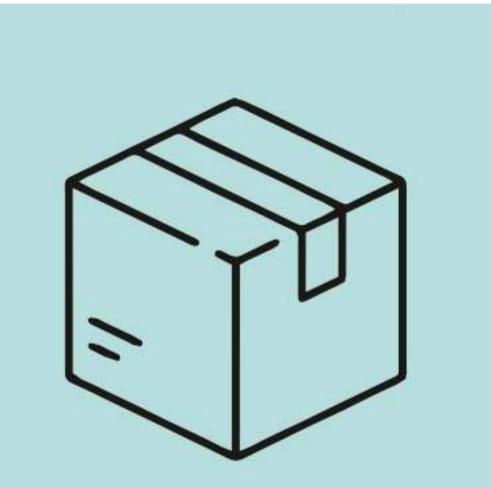

Precision machinery from Seoul & Beijing powers our production lines, ensuring consistency, scalability, & superior product quality.

### Our Offerings

At Softpills Lifesciences Pvt. Ltd., we provide end-to-end nutraceutical solutions designed to take your brand from idea to market with speed, precision, and creativity.
