

Snehal

Pharma & Surgicals Pvt. Ltd.

(WHO-GMP & ISO 9001 : 2015 Certified Company)

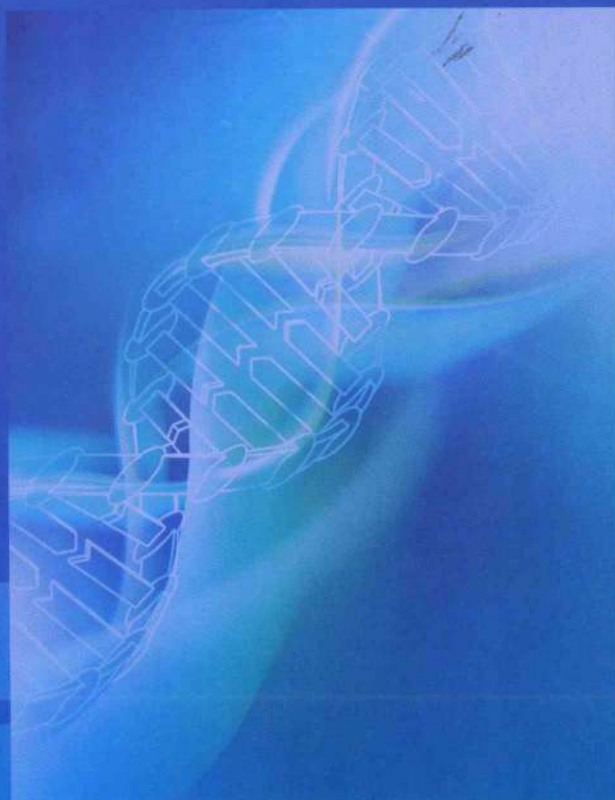

**Building the Capabilities
exceeding the expectations...**

THE COMPANY

Snehal Pharma & Surgical Pvt. Ltd. is a Nagpur based pharmaceutical formulation manufacturing organisation. The production facilities are located at MIDC Area, Butibori, Nagpur., Maharashtra (India). The plant is one of the most advanced plant in Central India with sophisticated machineries, practices and systems. It possesses modern manufacturing facilities for the various dosage forms. It is currently manufacturing vast range of Pharmaceuticals Products covering various dosage forms. The facilities are compliant with revised Schedule M cGMP & WHO-GMP. Around 550 formulations are WHO GMP Certified by CDSCO. The company is also accredited with ISO 9001:2015 certification for quality.

TECHNICAL CAPABILITIES

The company possesses latest & best infrastructure for the manufacturing of the wide range of quality dosage forms. The company is managed by highly qualified pharmacy professionals. The production facilities are well equipped with trained manpower & good F&D and R&D set-up to take the future challenges.

LOCATION OF THE MANUFACTURING PLANT

- Easy access by rail, road and air to all parts of the country.
- Plentiful electricity and water.
- A cosmopolitan and secular atmosphere in the work culture.
- Development of the nearby MIHAN that facilitates direct export/import.
- In the vicinity of upcoming dry port.
- Easy availability of raw and packaging materials.

STRENGTHS

Our unique strengths are excellent infrastructure consisting of people, system, plant & machinery and manufacturing experience of wide product range including latest molecules. Promoters having vast experience in Pharma field. Location with easy accessibility by rail, road and air to all parts of the country. Plentiful availability of resources & the cosmopolitan & secular atmosphere makes it an ideal organisation. The recent development of the nearby MIHAN is further expected to ease availability of raw and packaging materials and reduce lead times in exports as well as imports

COMPANY FUTURE VISION

Our corporate R&D & F&D is ready to take up new challenges of this dynamic pharmaceutical field. Quality conscious and professional ambience of the plant makes it a most favourable centre of choice for larger concerns for contract manufacturing of their products. In the coming days, our R&D & F&D will undertake projects on speciality products. Taking into account the vast experiences of our innovative professionals & the opportunities from liberalisation and the infrastructure available with us, the company is poised to enter the service market on a large scale.
