COMPANY PROFILE

About Us

Adinath Group procures and supplies APIs, excipients, solvents of excellent quality and performance. Our main strategic goal has always been to be a step ahead of our competitors in terms of customer preferences. Especially on getting competitive prices for both regular and opportunistic purchases; ensuring availability, ease, providing support, information and control.

Adinath Group's long-term success is owed to the silent guidance of Mr. Ajay Shah in the background, a first-generation entrepreneur. His journey started in 1978 and he only looked back to look ahead. An expert with a great eye for formulations, prescription drugs, production and raw-material supplier sourcing. Presently, Mr. Ajay Shah has been the patron for the last 10 years, and prior to this he was the president for 5 years for Pharmaceutical Raw-Material Dealers Association (PRMDA, Delhi).

Though Mr. Ajay Shah still manages a hawk-eye view of the business, but the reins have been passed on to his predecessor, Mr. Jignesh Shah a true visionary who learnt the trade at an age of 18 years, and gradually inched his way to the top of the industry. His insatiable appetite to acquire knowledge and commanding persona led to the inception of a dynamic Adinath Group, which has since become an excellent and leading supplier of pharmaceutical ingredients in India.

Our Vision

Is to become the indispensable link to achieve high grade pharmaceutical ingredients. We firmly believe that offering the easiest, well planned and competitive services to our clients, is the best for our vision to become reality.

Our Mission

To fuse quality, innovation, and technology to further strengthen and expand our supply chain, flexible pricing and efficient speedy delivery footprint in India and overseas.

Quality Control

With quality at the forefront of our mission, we are committed to 'total quality solutions'. Our dedicated quality team ensures the implementation of uniform standards, processes and tests for all our products. Additionally, we get our compliance and inspection done with all relevant statutory requirements at supply base and manufacturing unit at regular intervals to ascertain top-quality standards are being adhered too at all times. Post these mandatory inspections we follow it up with an efficient pre and post sales services to our valued clients, this helps us give them high quality at affordable prices and paves the path for us to succeed now and in the future.

Steroids

Beclomethasone Di Propionate.....
 Betamethasone Di Propionate.....
 Betamethasone Valerate.....
 Betamethasone Sodium Phosphate.....
 Clobetasol Butyrate.....
 Clobetasol Propionate.....
 Deamethasone Sodium Phosphate.....
 Deflazacort.....
 Dexamethasone.....
 Flucinolone Acetonide.....
 Halobetasol Propionate.....
 Hydrocortisone Sodium Phosphate.....
 Methyl Prednisolone.....
 Methyl Prednisolone Acetate.....
 Mometasone Furoate.....
 Prednisolone Acetate.....
 Triamcinolone Acetonide.....

Timeline

1978

Initiated Pharmaceuticals
Formulations Business

|

1987

Pivoted to Pharmaceutical
Raw-Material Business

|

2005

Expanded to Baddi, Himachal Pradesh

|

2007

Started Import from China

|

2010

Set up Adinath Healthcare in Baddi,
Himachal Pradesh

|

2019

Expanded 2 New Fulfillment Centres in Baddi,
Himachal Pradesh

|

2020

Set up a New Fulfillment Centre in Delhi

|

2023

Added 2 New Warehouses in Baddi,
Himachal Pradesh

|

2024

Exports in 16 Countries

Hormones

Hydroxy Methyl Progesterone
Mifepristone
Nandrolone Decanoate
Nandrolone Phenyl Propionate
Natural Micronised Progesterone
Testosterone
Testosterone Cypionate
Testosterone Decanoate
Testosterone Enanthate
Testosterone Isocaproate
Testosterone Phenyl Propionate
Testosterone Propionate
Testosterone Un Decanoate

Injectables

Artesunate Sodium Sterile
Cefepime Sodium Sterile
Caftriaxone Sodium Sterile
Cefuroxime Sodium Sterile
Meropenam Sodium Sterile
Pantaprazole Sodium Sterile
Piperacillin + Tazobactam Sodium Sterile
Tazobactam Sodium Sterile

NUTRACEUTICAL INGREDIENTS

Amino Acids

BCAA	L- Ornithine Hydrochloride	L- Leucine BP/USP
L- Carnitine	L- Alanine BP/USP	L- Lysine Acetate BP/USP
L- Cystine	L- Phenyl Alanine BP/USP	L- Methionine BP/USP
L- Isoleucine	L- Arginine IP/BP/USP	DL- Methionine
L- Lysine Mono	L- Arginine Hydrochloride BP/USP	L- Proline BP/USP
L- Lysine HCl	L- Asparagine BP/USP	L- Serine BP/USP
L- Taurine	L- Aspartic Acid BP/USP	L- Threonine BP/USP
L- Valine	L- Citralline DL- Malate	L- Tryptophan BP
L-Arginine	L- Cystine Hydrochloride BP/USP	L- Tyrosine BP
L- Carnitine L- Tartrate	L- Glutamine USP	N- Acetyl Cystine BP/USP
L- Ornithine L- Aspartate	L- Histidine BP/USP	
L- Arginine L- Aspartate	L- Histidine Hydrochloride BP/USP	

Vitamins

Adenosylcobalamin
Co.Enzyme Q-10
