F&D and ADL

Our F&D department is highly advanced to facilitate the development of new products and the scaling up of existing ones, all customized to meet our customers' specific requirements. With our team of qualified and experienced technical team, our approach to formulation and development is highly constructive and innovative. To bolster our commitment to product development, we have established a dedicated Analytical Development Laboratory. This facility is equipped with cutting-edge instruments to facilitate Method Development and Analytical Validations. Our qualified team oversee these operations, ensuring the highest standards of precision and accuracy. By investing in modern technology and fostering a skilled workforce, we are able to drive forward our product development initiatives with innovation and efficiency.

Regulatory Affairs

To reinforce our global endeavors, we have a robust Regulatory Affairs Department in place. Our highly experienced regulatory team plays a crucial role in preparing dossiers and data required for product registration, adhering to the guidelines and norms of different countries.
