

At Shree Dhanwantri Herbals Private Limited, we combine deep-rooted Ayurvedic knowledge with modern manufacturing capabilities to create high-quality, reliable herbal health products. With over 70 years of experience, our formulations are developed with care, precision, and a strong focus on consistency and safety.

Our strength lies in balancing traditional Ayurvedic ingredients with robust, certified production systems. Every product is manufactured in ISO 9001:2015 and GMP-certified facilities and we ensure the highest hygiene and quality standards are maintained.

As we grow, our focus remains on delivering affordable, trustworthy, and well-researched Ayurvedic solutions for everyday wellness.

What Sets Us Apart?

Strict Quality Control

We use the finest raw materials, backed by thorough testing at every stage to ensure purity and effectiveness

Reliable Manufacturing Infrastructure

Scalable, compliant systems that support both classical and proprietary Ayurvedic product lines

Dedicated R&D Team

Continuously working
on improved
formulations and new
formats aligned with
evolving health needs

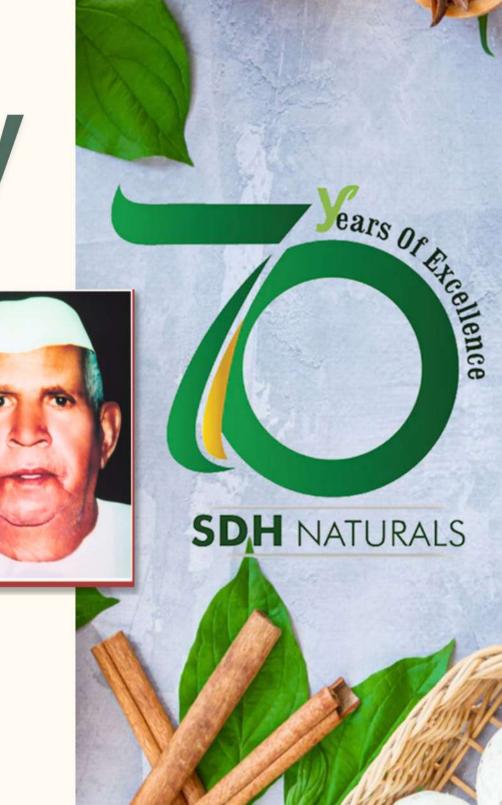

Strong National Distribution

A widespread network serving government bodies, hospitals, NGOs, and retailers across India

Our History

Founded in 1952 by Late Vaidya Din Dyal Singh Ji in Amritsar, SDH Naturals was born from a vision to transform the manufacturing of Ayurvedic medicines.

Over the past 70+ years, SDH has evolved from its origins in traditional Ayurvedic formulations to become a trusted name in India, known for its focus on innovation, quality, and sustainability.

Our Journey

The addition of a cutting-edge R&D and manufacturing infrastructure in Amritsar, further solidified our leadership in the field

Production Capacity Overview per shift

A Glimpse Into Our R&D and Manufacturing Infrastructure

Stability Chamber: Ensuring Product Shelf-Life & Quality

Built to ICH & WHO Standards - For Global-Grade Shelf-Life Assurance

What Sets Us Apart?

Fully equipped, ICH-compliant stability chambers

Controlled temperature & humidity environments with 24/7 monitoring

Supports long-term, intermediate, and accelerated testing

Calibrated and validated regularly as per regulatory norms

Why It Matters?

Predicts the real-world shelflife of your products Ensures formulation stability across varying climatic conditions

Critical for regulatory approvals & export documentation

Stability Chamber: Ensuring Product Shelf-Life & Quality

Built to ICH & WHO Standards - For Global-Grade Shelf-Life Assurance

Our Facility Highlights

ICH-Compliant Zones:

- Accelerated (40±2°C, 75±5% RH) for 6 months
- Long-Term (30±2°C, 65±5% RH) up to 60 months

(5) Climatic Zone Coverage:

Zones I–IV (India, US, Europe, Japan, Africa, SE Asia)

Tample Schedules:

Exhibit & validation batches: 0, 3, 6, 9, 12, 18, 24 months

- Annual review & reconciliation by QA
- Microbial & physico-chemical testing at every time point

Integrated with SOP QA-055

Sample reconciliation, deviation handling & shelf-life evaluation

Trusted by India's Leading Wellness & Healthcare Brands

From Ayurvedic formulations to large-scale production - these are just some of the companies who rely on SDH Naturals for quality, innovation, and scale.
