The Company...

La-med Healthcare is a leading manufacturer of premium quality medical devices. The Company which established in the year 2005 has multiple manufacturing facilities located in India.

La-med manufacture and market single use medical devices in Infusion Therapy, Anesthesia & Respiratory Care, Surgery & Drainage System, Urology, Gastroenterology and Nephrology.

The company has been accredited with the International Quality Certifications and successfully implemented a well-documented Quality Management System which as been certified by ISO 13485:2016, Our products are CE marked (Eu Regulatory Compliant) from DNV GL PRESAFE AS. La-med is registered with Indian FDA and approvals of Drugs Department, QMS Certificates has been received. Our products are registered in many more countries as per local regulation.

La-med export over 150 million devices to over 55 countries globally. Our brand is well recognized and respected in the markets we cover. La-med has local representatives in many countries.

La-med has a strong marketing base within the home country India, Where are has a strong well trained and organized sales team covering the whole country. Over 300 SKU are being marketed in our own brand all over the country. Primaflon, I.V. Flon, Primaneo, Link, Drippy, Onco Guard etc. are some of our popular brands.

La-med has a strong innovation team which focus on improvement of existing product and introduction of new products as per the market feedback and needs identified by our marketing team.

The company has plan to introduce many innovative products with underline principle of safety and simplicity to facilitate better patient care through innovation in line with our philosophy of Conscious Caring.

exporting to over 55 country

150 Million Devices

Russia | Philippines | Indonesia | Vietnam | Iran | Yemen | Kuwait | Turkey | Egypt
Nigeria | Italy | Germany | Poland | France | Venezuela | Brazil | Uruguay

Our Infrastructure

The "La-med" team has over three decades of Combined experience in the manufacturing, distribution and marketing of high end single use medical devices. Combined with the backing of a strong professional and sophisticated manufacturing facilities, we are equipped to cater to the most demanding clients adhering to stringent deadlines.

Spread over a sprawling 75,000 sq ft with the scope for further expansion, our flagship unit in equipped to deliver close to 150 million finished devices annually.

With clean rooms meeting class 10,000 standards designed as per US-FDA & ISO guidelines, a controlled environment through HEPA filtration implementation and compliance with all relevant national and global standards like strict hygiene standards of our own.

Six Sigma processes controls and TQM measures has been built into our processes rather than being externally implemented.

The manufacturing involves product design injection moulding in class 100,000 controlled environment; assembly, packaging and online printing in class 10,000 clean room; in house sterilization facility, Physical, chemical and biological testing in a modern in-house laboratory, In compliance with European Council Directive 93/42/EEC of 14 June 1993 concerning medical devices, as amended by 2007 /47/EEC, Drugs and Cosmetic Act 1940 & Rules 1945 of India Medical devices rule 2017.

We not only comply to international authorities, but utilize this as a base to build on, by implementing it.

I.V. Cannula with Safety Feature

Primaflon Safety / La-med Safety : IV Cannula with wings & with port.

Primaneo Safety : IV Cannula with small wings & without port.

Primacan Alpha Safety : IV Cannula without wings & without port.

Primapen Safety : IV Cannula without wings & without port.

CATHETER MATERIAL
PTFE | FEP

SPECIFICATIONS

- 14 : Orange 16 : Grey
- 17 : White 18 : Green
- 20 : Pink 22 : Blue
- 24 : Yellow 26 : Violet

Range of IV Cannula

Primaflon / Prima-Flo / I.V. Flon / Cannatech / Novocath

Primaflon Pro : With wings & with port

Primacath : IV Cannula with integrated 3 way stopcock

Izzy : With Crowncap & Small Wings & Without Port

Prima Neo / Prima Neo Alpha / Primacan :

With Small Wings & Without Port

Primapen : Pen type IV Cannula

Primacan Alpha : Without Wings & Without Port

CATHETER MATERIAL
PTFE | FEP

SPECIFICATIONS

- 20 : Pink 22 : Blue 24 : Yellow 26 : Violet

Size available : Refer Table 1

Range of Infusion Sets

Drippy V : Vented IV Set, 20 drops / ml

Drippy NV : Non vented IV Set, 20 drops / ml

Drippy Micro V : Vented Micro IV Set,

60 drops / ml for pediatric use

Drippy Micro NV : Non Vented Micro IV Set,

60 drops / ml for pediatric use

Onco Guard : Non DEHP, with 0.2 micron filter,

Y injection site & luer lock

Drippy Ultra & Drippy Ultra Micro:
Premium IV Set with special feature

Range of Measured Volume Burette Set

Drippy Paedia : 110 ml & 150ml with Latex bulb & Luer slip
Drippy Paedia - PET : 110 ml & 150 ml with PET Chamber
Drippy Paedia Pro : 110 ml & 150 ml with Y-site & Luer lock.

Range of Blood Transfusion Set

BT Set - Non Vented : Single Drip Chamber, Latex Bulb without airvent
BT Set - Vented : With airvent

Transfix BT - Premium BT Set with Y-site

Link Range of 3 Way Stop Cock With & Without Extension

Link : 3 ways stop cock
Link LR : Lipid resistant 3 way stop cock

Link 3 KLR : With Click feel at every 45°
Link 3XT : 3 way stop cock with extension tubes (5cm-250 cm)

Link Range of Pressure Monitoring & Extension Lines

Link PM : Plain Pressure Monitoring Line (with colour coded stickers)
 Colour Coded Pressure Monitoring Line (Red/Blue/Yellow)
 PVC Free Coiled & Straight PM Line
Link : Extension Line Low/High Pressure (5-250 cm)
Link Micro : Extension Line with Micro Bore
 Anti UV PM Line Available in varying lengths from 5 cm to 300 cm

Range of Flow Regulators

Drippy Reg : Micro Drip IV Set With Flow Regulator
Flow Reg : Flow Regulator

Range of Needle Free Connectors

Needle Free Connector
Solo Connect
Uni Connect - Extension Tube with one needle free site
Bi connect - Extension Tube with two needle free site
Tri connect - Extension tube with three needle free site

Macro Bore Tubing also available

Infusion Accessories

Heparin Cap
 Latex and Latex free options are available.
Luer Cap
 Made up of non-toxic medical grade HDPE.

Lungciser : Respiratory Lung Exerciser with three Ball

Oxygen Mask (Adult, Pediatric & Neonates)
Disposable Oxygen Mask With **Star LumenTubing**

Guedal Air Ways
Sizes available : 000 to 5

Respiratory / Anesthesia Breathing Circuit / Ventilator Circuit
Available in Corrugated & Expandable tube.
With & without Water Traps in Adult & Pediatric versions

Endotracheal Tube
Plain/Cuffed/Reinforced
Plain : Size 2.5 - 9.0 mm **Cuffed** : Size 2.5 - 9.0 mm
Reinforced Plain : Size 4.5-9.5 mm
Reinforced Cuffed : Size 4.5-9.5 mm

Silicon Manual Resuscitator : 100% Silicon, Auto Clavable Available in Adult, Pediatric & Neonatal Versions

Nebulizer Mask (Adult, Pediatric & Neonates)
Disposable Nebuliser mask with **Star LumenTubing**

Orocaath - Suction Catheter
Suction Catheter: Plain | Thumb Control | Finger Tip

Catheter Mount
Expandable (360° Rotation)
Compatible with ET Tube

Twin O₂ Set (Twin Bore Nasal Oxygen set)
Kink Resistant Star Lumen Tubing with Extra soft Prongs
Available in Adult, Pediatric & infant, Neonatal Versions
Length - 200 cm

La-med Vac Set
Closed Wound Suction Set
For drainage from closed wound under negative pressure
Option available :
Bellow Container
600 ml / 800 ml

Kidi Vac Set
For drainage from closed wound under negative pressure
Option available :
Bellow Container 50 ml

Chest Drain
Under water seal drainage system

Corrugated Drainage Sheet
For fluid drainage from open wounds fully opaque & non toxic

Thoracic Drainage Catheter with Trocar
Sizes available :
Refer Table 2

Yankaur Suction Set
Separate Tube & Handle available

Cautery Pencil
Available length- 3 meter & 5 meter.

Redon Drain Catheter
Sizes available : Refer Table 2 for Redon Drain Tube

Silico-Drain
For drainage from Closed Wound under Negative Pressure
Made of 100% Silicon
Sizes available :
100 ml / 200 ml

aB-dRain
Abdominal Drain Kit

Thoracic Drainage Catheter without Trocar
Option available with extra soft tube & 90° Curved
Sized Available :
Refer Table 2

Umbilical Cord Clamp
For clamping of Umbilical Cord

Foley Balloon Catheter
 2 Way Foley Balloon (Latex, Silicon Bonded)
 Pediatric Sizes : 6, 8 & 10 FR (Two Way)
Adult Sizes : 12 to 24 FR (Two Way)
 3 Way Foley Balloon Catheter
 (Latex, Silicon Bonded)
Adult Sizes : 16 to 24 FR (Three Way)

U-Cath (Silicon Foley Balloon Catheter)
 2 Way Silicon Foley Balloon (100 % Silicon)
 Pediatric Sizes : 6, 8, & 10 FR (Two Way)
Adult Sizes : 12 to 24 FR (Two Way)
 3 Way Silicon Foley Balloon (100 % Silicon)
Adult Sizes : 16 to 24 FR

Urethral Catheter/Female Catheter
 Short term Catheterization Catheter in females (PVC)
Nelto : Nelaton Catheter
 Short term Catheterization Catheter in Males (PVC)
 For sizes : Refer Table 2

U-Bag (Standard & Premium)
 Urine Collection Bag
 Capacity : 2000 ml

U-Meter - For measuring accurate hourly urine output
 Capacity : 250 ml, volume chamber, Bag 2000 ml
U-Meter Plus - With Needle free sampling port.
 Capacity : 250 ml, volume chamber, Bag 2000 ml

TUR Kit-For irrigation purpose during TURP procedure

RYLO

Ryle's Tube - PVC
For Size : Refer Table 2

Infant : Infant Feeding Tube (Graduated)
For Sizes : Refer Table 2

Mucus Extractor

For Collection of mucus specimen
 Options Available : With filters
Capacity : 25 ml

Levin's Tube

Intended for aspiration of intestinal fluid or administration of internal nutrition

Salem Sump Tube

Intended for Prevention of air accumulation on gastric secretion in duodenum
Sizes Available : 14, 16, 18, 20 FG

Stomach Tube

For aspiration of intestinal fluid or for administration on enteral nutrition. Closed tip & Open tip
For Size : Refer Table 2

“Safety is a Priority
 Quality is the Standard”

Bain Circuit
Option Available : Adult & Pediatric

Anesthesia Face Mask
Sizes Available (0,1,2,3,4,5)

HME Filter
Straight & Curved (Adult & Pediatric)

Dylax - LM Hemodialysis Kit - Uno/Duo/Trio

Features and Benefits :
PU Material for excellent bio- compatibility and kink resistance
Radio opaque for x-ray detection and easy placement
Multiple sizes for various patients needs
ideal for extracorporeal therapies : Dialysis, Hemofiltration, Apheresis
MRI Compatible for easy placement under X-Ray

Size Available : 7, 8, 11.5, & 12 FR (13.5, 16, 20 cm)

Range of Central Venous Catheter

Cerato
Uno / Duo / Trio Lumen

New Guide Wire Dispenser
of ABS Polymer

Size Available : Single Lumen
14, 16, 18, 20, 22G (8, 13, 16, 20 cm)

Double / Triple Lumen
4FR, 4.5FR, 5FR 5.5FR 7FR (8, 16, 20 cm)
Other Sizes also available on request
