About us

Shree Nextgen Pharmacare Private Limited is a new-generation pharmaceutical company dedicated to quality and global healthcare solutions, we are committed to shaping healthcare for a better future by transforming molecules into global brands. We specialize in producing a wide range of medicines for Oncology, Dermatology, Diabetes, Hypertension, and Veterinary needs, along with other key therapeutic areas. Our advanced WHO-GMP and EU-GMP compliant partner facilities and experienced team ensure that every product meets rigorous international standards.

Beyond manufacturing, we offer comprehensive support to clients aiming to establish their own brands in various countries. This includes assistance with regulatory registration, product documentation, and compliance for smooth market entry by providing dossiers, COPP, COA and other documents if needed by Ministry of Health. We also serve as a trusted partner for merchant exports and bulk wholesale medicine supply, catering to distributors, healthcare providers, and businesses worldwide.
