Sage Software Solutions (P) Ltd.

Sage Partner

Sage Software Solutions (P) Ltd., operating as Sage Partner, is a leading company in India, offering CRM and ERP software solutions developed and owned by The Sage Group plc. Our product portfolio includes industry-leading solutions such as Sage 300, Sage X3, and Sage CRM. In addition, we are the exclusive distributor of Pocket HRMS (formerly known as Pocket HCM) for Payroll Software in India.

With our headquarters located in Mumbai, we have established a strong presence across the country. Our dedicated offices and network of channel partners in Bengaluru, Kolkata, Chennai, and Delhi NCR enable us to reach and serve enterprises in every corner of the nation.

The Sage Group plc is a global market leader in providing technology solutions that empower small and medium businesses to excel. Millions of customers worldwide rely on Sage to deliver cutting-edge cloud technology and comprehensive support. Working closely with their partners, they help businesses effectively manage their finances, operations, and people. It is important to note that Sage Software Solutions (P) Ltd. operates independently of The Sage Group plc.

Sage 300

No more operational inefficiencies with Sage 300—one of the most powerful ERP software solutions in India

Tame operational expenses and improve control like never before with Sage 300. Manage your customers, suppliers, partners, vendors and much more from the most flexible and scalable ERP software in India. Be it managing your manufacturing, inventory, supply chain or accounting operations, Sage 300 can do it all. Sage 300 is built to drive operational efficiency while delivering intelligent insights into key business processes at the click of a button.

Sage X3

Gain full control of your business with Sage X3

Previously known as Sage Enterprise Management, Sage X3 is a next-gen ERP application to help organisations stay agile and scale effortlessly. Arm your business with a future-proof ERP software solution and see your business grow in a never before way. Faster, simpler and flexible are the USPs of Sage Enterprise Management. Enjoy the benefits of a next-gen ERP solution minus the complexities of a legacy ERP application. Sage Enterprise Management is fully scalable, adapts to changing organisational dynamics and grows with your business.

Sage Intacct

Lead with financial confidence using Sage Intacct

Sage Intacct is a cloud-native financial management solution built to give growing businesses real-time visibility and control over core accounting. Designed for speed and accuracy, it automates key finance functions like multi-entity consolidation, project billing, revenue recognition and compliance. With powerful dashboards, seamless integrations and anytime access, Sage Intacct empowers your finance team to make smarter decisions and scale with precision.

Sage CRM

Understand your customers like never before with Sage CRM

Sage CRM improves customer experience in ways manifold. It allows improved business decision-making, improves revenue and reduces inefficiencies pertaining to customer data management. Most importantly, Sage CRM helps a business transform into customer-centric. With intelligent reporting at your disposal, Sage CRM helps a business deliver optimum customer experience. It helps unlock customer intelligence thus, helping you know your customers better.
