ABOUT US

Over 37 years ago, a group of visionary friends founded the company "RAJAT PLASTIC" with nothing but hope, courage, hard work, ethics, and a Blown processing machine. Their passion for technical expertise and willingness to embrace challenges became the cornerstone of our company's legacy.

From modest beginnings, they gradually grew into a medium, and eventually a large-scale business, now proudly recognized as "RAJAT VINYLS".

Today, Rajat Vinyls stands as a 350-crore turnover organization, based in Dhoraji, Rajkot (Saurashtra Region) of Gujarat, specializing in fulfilling the primary packaging needs of blister foils for Pharma and FMCG sectors. We are an ISO 9001:2015 certified organization, with international certifications like USDMF, REACH, EC and EU.

As one of the largest manufacturers and suppliers of PVC and PVDC coated PVC foils, we proudly serve over 1000 satisfied clients worldwide and dominate nearly 80% of the domestic market, known for our consistency, quality, exceptional service, and competitive pricing.

Now, we are expanding our horizons into the pharmaceutical industry with "RAJAT CARE LLP".

OUR MISSION

To provide High Quality Innovative Healthcare solutions and ensure the availability and accessibility of our Quality products at Affordable price.

OUR VISION

To be a leading pharmaceutical company that positively and significantly impacts Overall Health and Wellness of all deserving patients.

OUR MANUFACTURING FACILITY

At Rajat Care, our manufacturing facility is a testament to our commitment to excellence in pharmaceutical production. Staffed by highly qualified professionals, our team ensures that every process is carried out with the utmost precision and care. Our facility is equipped with two advanced granulation lines from ACG, offering high efficiency and consistency in the granulation process. We also have state-of-the-art compression machines from Parle and Cadmach, designed for superior tablet production. Additionally, our capsule filling operations are powered by cutting-edge machinery from ACG, ensuring accuracy and reliability in every batch. All of our machineries are 21 CFR compliant and meet stringent USFDA regulations, reflecting our dedication to maintaining the highest standards of quality and safety. To further enhance product integrity, we have implemented a closed-loop granulation system, which significantly minimizes the risk of contamination and ensures a controlled environment throughout the manufacturing process. Our facility is not just a production hub, it is a center of innovation and quality, where advanced technology and expert knowledge come together to deliver exceptional pharmaceutical products.

STATE-OF-THE-ART QUALITY CONTROL, MICROBIOLOGY & FND BLOCK

Our dedicated Quality Block at Rajat Care is meticulously designed to ensure the highest standards of product integrity and safety. The Quality Control (QC) area, Microbiology testing areas & FND area are carefully segregated from the manufacturing zones, providing a controlled environment that minimizes contamination risks and upholds strict regulatory compliance.

The Quality Block is spacious, offering ample working areas and adequate storage for control samples, chemicals, and records.

Our site features a state-of-the-art Quality Control Laboratory, equipped with sophisticated analytical instruments and staffed by highly qualified analysts. The laboratory conducts a wide range of analyses, including chemical, microbiological, and instrumental testing, ensuring that every product meets our stringent quality standards.

Our F&D department is continuously focused on improving the quality of formulations and creating innovative dosage forms. Additionally, we have an F&D line from ACG that mirrors our production machinery, ensuring seamless product transfer and consistency in quality.
