Website: <https://fortcaps.com/>

Established in 1992 to meet the escalating demand for pharmaceutical capsules, Fortcaps Healthcare Ltd. has seamlessly integrated into India's Top 5 manufacturers of premium Empty Hard Gelatin (EHG) Capsules, and is the sole manufacturer of Empty Pullulan Capsules in India, from raw materials to finished goods.

Our success is a testament to the synergy between our relentless pursuit of quality and innovation.

We are now a fully owned subsidiary of Kumar Organic Products Limited, a pioneering force in specialty ingredients with a global footprint spanning over three decades. KOPL is also a leading manufacturer of pullulan raw material, which is used in the production of vegetarian capsules. This partnership amplifies our commitment to delivering excellence, further fuelling our growth and impact in the industry globally.

Awarded as 3rd best MSME company in Madhya Pradesh for 2014-15

Quality Assurance

- ✓ Batch Evaluation
- ✓ Operator Inspection
- ✓ Standards Compliance
- ✓ cGMP Adherence
- ✓ Print Quality Assessments
- ✓ Pre-shipment Audit
- ✓ Low Reject Rates

At the core of our operations is an unwavering commitment to quality.

We initiate with meticulous evaluations of raw materials and additives, ensuring only batches meeting regulatory standards proceed to production.

Operator inspections at every processing stage secure consistency, uniformity, and precise adherence to specifications.

Our manufacturing aligns with global benchmarks, conforming to IP, USP, and BP standards.

Operator adherence to cGMP fosters the production of preservation-free capsules.

A pre-shipment audit provides an additional layer of assurance, and consistently low reject rates underscore our precision and steadfast dedication to high-quality standards.

WHO GMP
CERTIFIED

Empty Hard Gelatin Capsules IP/BP/USP/In house

Our BSE/TSE Free Gelatin undergoes meticulous preparation sourced from certified manufacturers with EDQM certification, ensuring mitigation of risks associated with Transmissible Spongiform Encephalopathies (TSE) and Bovine Spongiform Encephalopathy (BSE).

Empty Hard Gelatin Capsules

Sizes available - 00, 0, 1, 2, 3, 4, 5

SEPARATED CAPSULES

Separated empty capsules can be used with most capsule fillers or can be used to fill manually. To fill capsules quicker, choose joined capsules for commercial filling.

Special Purpose Products:

- DPI Capsules - Dry Powder Inhalation Systems
- SLS Free Capsules
- PVPK free Capsules
- Preservative Free Capsules
- Liquid-Filled Capsules
- Flavoured Capsule

Empty Hard Pullulan Capsules - Pure Veg

Sattvik Certified capsules

Meticulously crafted from organic materials, boast unparalleled stability and resilience, surpassing traditional gelatin capsules.

With optimal moisture content and fortified durability, they ensure swift dissolution, devoid of carrageenan, making them an ideal choice for encapsulating pharmaceuticals and nutraceuticals.

Additionally, our rigorous traceability measures guarantee controlled, monitored, and auditable oversight from raw material sourcing to the final product, ensuring uncompromising quality throughout the production process.

- Special Purpose Products:
- DPI Capsules - Dry Powder Inhalation Systems
 - SLS Free Capsules
 - PVPK free Capsules
 - Preservative Free Capsules
 - Liquid-Filled Capsules
 - Flavoured Capsule

Empty Hard Pullulan Capsules

Opaque, Transparent, Luster Cap (metallic), Pearl finish and more*

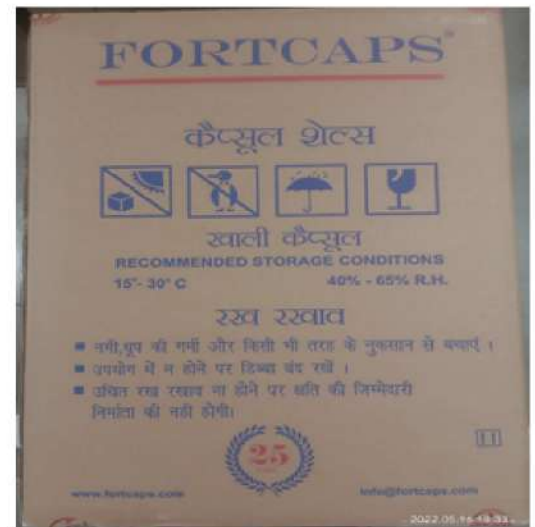

Packing and Delivery

•Packaging (Hindi & English Instructions On The Box)

STANDARD PACKING Thermacole Lined
Corrugated Box Sized 505*505*710 mm
Gross Wt per Box ~15 Kgs

Size 00	75,000 Pcs / Box
Size 0	100,000 Pcs / Box
Size 1	125,000 Pcs / Box
Size 2	175,000 Pcs / Box
Size 3	225,000 Pcs / Box
Size 4	300,000 Pcs / Box
Size 5	500,000 Pcs / Box

Storage

Capsules require storage between 15°C to 30°C and 40% to 65% relative humidity to maintain their integrity and performance on filling machines. Deviating from these conditions can cause capsule deformation and affect performance.

Transportation

We ensure capsules remain unaffected by extreme temperatures and humidity during transportation using properly insulated trucks, including our custom air-conditioned fleet.

Manufacturing Technology

Facility - Unit 1 (Domestic & ROW)

Daily production capacity - 15M+ capsules

*Unidirectional Flow Design -
to emphasize a seamless and controlled process
that eliminates the risks of cross-contamination*

Automatic Capsule Moulding Machine

Automatic Capsule Printing Machine

Automatic Camera Inspection Machine

Facility - Unit 2 (Regulated)

Daily production capacity - 5M+ capsules

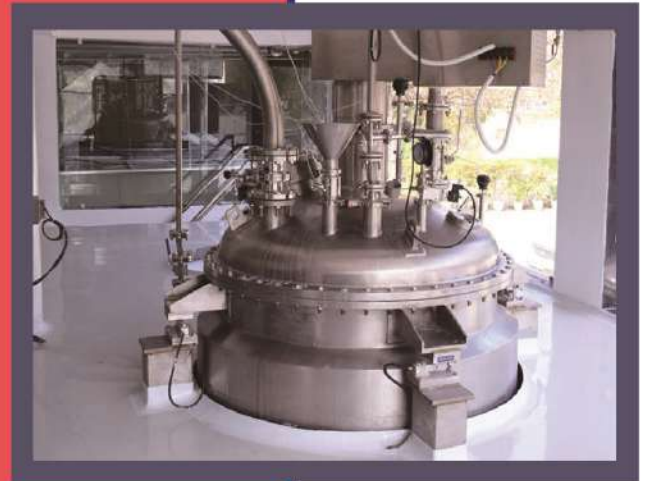

Automatic Aeration Machines -

Helps maintain optimal moisture levels for each capsule

Automatic Sorting -

Capsules undergo further refinement through an automatic sorter post-aeration, reducing the need for manual sorting.

This strategic approach minimizes handling, contamination risks, and human errors, enhancing overall efficiency.

Dedicated Manufacturing Lines for TSE-Free Capsules -

The facility has dedicated manufacturing lines for the production of TSE (Transmissible Spongiform Encephalopathies)-free capsules, specifically tailored for regulated markets.

Fortcaps acknowledges the significance of carbon emission control.

To mitigate our carbon footprint, we've installed a 100 kW rooftop solar facility.
