

COMPANY PROFILE

Elvia Care Pvt. Ltd. is a trusted and reputed name in the pharmaceutical industry, committed to delivering quality, innovation, and reliability for decades. With a strong presence in the healthcare sector, the company has built its foundation on excellence, ethical practices, and continuous growth.

Expanding its capabilities, Elvia Care now proudly introduces **its state-of-the-art Injectables and Respules Manufacturing Unit, spread across 4 acres with a 1.5 lakh sq. ft. covered area.** This advanced facility is designed to meet stringent international quality standards, equipped with modern technology and automated systems to ensure precision, safety, and efficacy in every product.

Focused on non-betalactam injectables, the plant operates under strict regulatory compliance and quality assurance systems, adhering to **EU-GMP and WHO-GMP** standards (under compliance).

Our commitment lies in providing world-class sterile formulations to meet the evolving needs of the global pharmaceutical market.

At Elvia Care, we believe in building healthier lives through innovation, trust, and uncompromised quality.
